KLAMATH COUNTY

*Home of Crater Lake*

OREGON

FINANCE & BUDGET OFFICE

April 16, 2012

Members of the Budget Committee, Board of Commissioners, and Citizens of Klamath County:

We find ourselves in a precarious position, along with others, waiting to see what will happen with the economy. In the General Fund, we continue to operate at a deficit as operating revenues are not projected to be sufficient to cover expenses. In addition, revenues in the following year are projected to be significantly less than for 2012-2013. It is imperative that we build a reserve until, at the least, stable sources of revenue are located.

The recommended budget for fiscal year 2012-2013 continues on the principles adopted in fiscal year 2011-2012.

The Consumer Price Index (CPI-W) has risen 3.10% over the prior year. The budget includes no cost of living increases for all Elected Officials and county employees. There are increases budgeted to accommodate merit step increases for those who have not hit the top of their pay range. The County is currently in negotiations with most of its unions, but given the current economy we expect a fairly small financial impact and little effect on levels of service. Fiscal year 2012-2013 is the second half of the State's biennium budget so those portions of the County budget most affected by the State budget will could see significant changes.

Klamath County has two pension plans covering substantially all employees. Sheriff's department employees and certain employees of the Community Corrections department are participants in the State of Oregon Public Employees Retirement System (PERS). All other Elected Officials and county employees are participants in the Pension Plan for Employees of Klamath County (Pension Plan).

PERS is experiencing high unfunded actuarial liabilities that have increased mandatory contribution rates to 10.98% in the current fiscal year. Projected mandatory contribution rates for the fiscal year starting July 1, 2013 range from 9.03% to 21.07%. Our own Pension Plan is also experiencing high unfunded actuarial liabilities. The recommended contribution rate from the actuary for the 2012-2013 fiscal year is 13.62% an increase of 1.58% from the prior report. The contribution rate being made by the County has been increased by 1.00% to 11.00% for 2012-2013. Unless underlying investments significantly outperform actuarial rates or changes are made to the plan, the County's unfunded actuarial liability will continue to grow.

Current forecasts of the State budget for the remainder of the biennium are dismal. The State is already projecting a multibillion dollar short fall in revenues. Property values continue to drop to levels that are approaching the maximum assessed value trend line imposed by Measure 50, which could have an effect on the amount of property taxes available.

The county, cities, and tax districts are facing a serious financial crisis not seen in many years as a result of shrinking revenues, record-high gas and energy prices, and more recently a municipal credit crunch which is making it extremely difficult and more expensive for counties to borrow money. The State is considering legislation that is affecting the resources that come to counties to provide the services that the State and Federal Government mandates. The slowdown in the economy is having a major effect on individuals and families including taxing districts. The Federal Government passed significant changes in health care, which will affect the County's budget in this fiscal year and in years to come.

This budget does have services that are reduced due to the State cutting funds to programs in Community Corrections; Commission on Children and Families, video lottery funds, Mental Health, Public Health to name a few areas, also services in Community Development are down due to a slowdown in housing. The budget was based on the target budget approved by the Budget Committee on March 5, 2012. We realize many programs that are state funded have been reduced and are still being reduced so some departments may be asking for money from the general fund. Remember that any changes to the budget will affect other programs as directed by the Board.

This proposed budget was prepared with the possibility of an ongoing stagnant economy in mind. If the economy continues to underperform, service levels provided by most departments will be impacted. The Budget Committee's decision on January 5, 2012 to reduce expenditures for the remainder of the 2011-2012 fiscal year (\$494 thousand estimated) offset by reduced collection of other revenues in the General Fund (\$294 thousand) resulted in the anticipation of a reserve of \$200 thousand to go into the 2012-2013 fiscal year.

The General Fund does not have sufficient reserves to weather the ominous impending storm. I feel compelled to bring this to your attention because there are those who look at the anticipated reserves and feel they should be used to expand services at this time, by providing funding for non-mandated services and other governmental or non-profit organizations, and for a multitude of other possibilities. This is not the time to increase operating expenditures.

Sufficient funds are not budgeted to provide appropriate cash flow for the following year. There is not sufficient reserves in the General Fund to provide operating cash until property taxes are received in November. It is anticipated that the General Fund will borrow money from other funds until those taxes are received. You are expected to deliberate and make decisions to ensure that appropriate resources are available to begin the following fiscal year.

The recommended budget is a "reduced" budget that takes into consideration increases for contract agreements, county retirement, insurance costs, and other costs that the departments do not have control over. This budget reflects our best effort to address the issues we face given the priorities set by the Budget Committee and the Board of Commissioners. It also maintains minimum State-mandated services.

You have the opportunity to make any revisions on how the county will utilize resources to provide programs to the residents of Klamath County as demographics vary and change. All funds are required to be balanced per ORS 294.331. A balanced budget means that revenues and expenditures match. All funds including those with debt service are balanced in accordance with Oregon municipal debt law.

This budget message is organized into six major categories designed to give the reader an overview of County issues, priorities, and finances. They are:

- Revenue and Expense Overview
- Legislative Initiatives that Impact the Recommended Budget
- Short Term Financial and Other Initiatives that Impact the Recommended Budget
- Long Term Financial and Other Matters that Impact the Recommended Budget
- Significant Departmental and Fund Highlights and Issues for 2012-2013
- Processes Used to Develop the Budget and Organization

The preparation of a budget this complex would not be possible without the hard work and contributions of many. I would like to acknowledge the efforts of each of the department heads and program managers that participated to complete this recommendation.

## **Revenue and Expense Overview**

The county general fund revenues and expenditures are proposed at \$24,536,806, including transfer payments (counted twice). Proposed countywide revenues and expenditures are proposed at \$202,876,403, including transfer payments (counted twice), compared to 2011-12 countywide budget of \$204,932,453 and general fund budget of \$25,825,275. The majority of the revenue is cash carryover from the 2011-12 fiscal year dedicated dollars earmarked for roads generated from federal forest receipts and gas taxes. The actual revenue and expenditures, excluding transfers, were the following:

| Year    | Revenues      | Expenditures |
|---------|---------------|--------------|
| 2010-11 | \$187,370,955 | \$64,644,527 |
| 2009-10 | \$198,638,933 | \$99,091,364 |
| 2008-09 | \$214,294,774 | \$75,045,385 |
| 2007-08 | \$205,788,776 | \$75,483,184 |
| 2006-07 | \$208,871,992 | \$80,408,776 |
| 2005-06 | \$194,716,854 | \$70,480,204 |
| 2004-05 | \$182,634,357 | \$63,921,174 |
| 2003-04 | \$172,904,000 | \$66,478,386 |
| 2002-03 | \$167,536,840 | \$61,219,640 |

This year's staffing includes merit steps per contract agreements. The Board of Commissioners have requested that the budget be prepared with no cost of living and medical cap increases. The insurance cap for most employees is remaining at \$675 per month. The County Compensation Board is required by state law to conduct an annual review of Elected Official's compensation each year. The Compensation Board will make a report to the Budget Committee on Monday, April 16th regarding the Elected Officials. A copy of their recommendations is included elsewhere in this document.

Klamath County's permanent tax rate is \$1.7326 per \$1,000 of assessed value. Measure 50 allows a three percent increase in assessed value on existing property, plus an increase for new improvements each year. Our estimated revenue will be \$8,043,950 or \$1.68885 per \$1,000 of assessed value for the general fund and \$182,350 or \$0.04375 per \$1,000 of assessed value for veterans' services. Tax estimates will be affected by the exemptions that the state legislators approve during the last session, plus any appeals approved by the State Tax Court. As the housing economy slows, this will affect the potential growth of property taxes.

The state legislature will begin their session in January 2013. There will be many measures before the legislature and on ballots that could affect this budget if approved. There are also many measures that the Federal legislature is considering, that will have a major impact on the budget and the community. If legislation passes any of the proposed measures, the county will have financial changes to address. The involvement of our County officials during state and federal legislation is vital. We need to support the Board of Commissioners and community leaders' roles in working for our community with the state and federal legislatures this coming year.

### **Legislative Initiatives that Impact the Recommended Budget**

Significant legislation that will impact the recommended budget includes the following legislation:

Oregon House Bill 4165 expands the oversight of Early Learning Council. Establishes Youth Development Council to oversee unified system that provides services to children and youth in manner that supports academic success and reduces criminal involvement. Continuously appropriates moneys in account to Early Learning Council for distribution to counties for purposes related to preventing or reducing child abuse. Abolishes Juvenile Crime Prevention Advisory Committee and transfers functions of committee to Youth Development Council. Abolishes State Commission on Children and Families and transfers functions of commission to Early Learning Council and Youth Development Council. Abolishes local commissions on children and families. Abolishes Commission for Child Care and transfers functions to Early Learning Council. This is anticipated to have a significant impact on the Klamath County Commission on Children and Family's budget in 2013-2014.

Oregon House Bill 4175 permits certain counties to use federal forest reserve moneys in county road funds for law enforcement purposes related to roads. The 2012-2013 budget before you contemplates the implementation of this law. The budget includes a \$2 million transfer from the Road Fund to the General Fund to fund patrol services.

Oregon House Bill 4177 permits counties, under certain conditions, to receive assistance payments from County Assessment Function Funding Assistance Account for 2011-2012 and 2012-2013

fiscal years that do not reflect changes in federal payments to county. It also provides that the amount of certain expenditures previously not included in payments made under County Assessment Function Funding Assistance Account grant program are included, but transferred to Assessment and Taxation County Account. It further requires the Oregon Department of Revenue to determine the percentage distribution for counties not enrolled in the program as if those counties were enrolled in program and to transfer that amount into the Assessment and Taxation County Account. Requires transfers not resulting from action taken by county court or board of county commissioners to be transferred back to County Assessment Function Funding Assistance Account. The 2012-2013 budget before you contemplates the implementation of this law. The budget includes a projection of the distribution from the Oregon Department of Revenue on the same percentage as last year based on the current projected revenues to the Assessment and Taxation County Account.

The Federal Government passed H.R. 1424, the Emergency Economic Stabilization Act of 2008, which reauthorized the Secure Rural Schools program through federal fiscal year 2011 and full funding for the Payment in Lieu of Taxes (PILT) program through federal fiscal year 2012. The budget for 2012-2013 before you does not contemplate the renewal of the Secure Rural Schools program.

United States Senate Bill 1813, Moving Ahead for Progress in the 21st Century America Fast Forward Financing Innovation Act of 2011, was amended on March 8, 2012 with amendment 1825 to reauthorize for 1 year the Secure Rural Schools and Community Self-Determination Act of 2000 and to provide full funding for the Payments in Lieu of Taxes program for 1 year, and for other purposes. This bill was passed in the United States Senate on March 14, 2012. The bill now moves to the United States House of Representatives where its future is uncertain. No further action has taken place in regards to this bill.

The County has recognized, since 1990, that these Federal funds may have a limited life span. Therefore, the County has accumulated a "Road Fund Reserve", which is designed to sustain reduced services on roads for several years in the future and take care of deteriorating county bridges, or until alternatives can be devised for funds impacted by Public Law 106-393. However, in order to trim the budget to a more balanced and sustainable level, the next few years, services will need to be reduced, eliminated, or an alternate funding source to replace the declining funds from the federal funds.

### **Short-Term Financial and Other Initiatives that Impact the Recommended Budget**

There are a number of factors affecting the recommended budget for 2012-2013. Some may continue beyond 2012-2013. However, they are presented here as factors with a direct impact on this recommended budget.

#### **State Mandated Services**

The County is mandated by Oregon Statute to provide certain services to the public. The current economic environment has impressed upon us an acknowledgement that we can no longer perform all the services we have in the past to the same level. This necessitates a policy level decision as to what services the county will provide and to what service level it will be provided. Each department was asked to prepare a budget request

to the Budget Committee. In those budget requests these state mandated services were given a high level of visibility. As you review the recommended budget keep in mind what the state mandated services are and the funding level you approve to those mandates.

#### Contingency & Unappropriated Fund Balance

At the direction of the Board of Commissioners, the 2012-2013 General Fund recommended budget includes an operating contingency of \$598 thousand and no unappropriated fund balance. This means the County could spend all available resources in the 2012-2013 fiscal year with no carry forward to 2013-2014 fiscal year. Revenues in 2013-2014 are projected to decrease a further \$800 thousand if no further action is taken at the federal level to reauthorize Secure Rural Schools in some form.

The purpose of an unappropriated ending fund balance is to provide the County with a cash or working capital balance with which to begin the fiscal year following the one for which this budget is being prepared (ORS 294.371 and OAR 150-294.371). The amount of an unappropriated ending fund balance, should be based on our cash requirements between July 1 of the fiscal year following the one for which we are budgeting, and the time sufficient revenues will become available from other sources to meet cash flow needs (generally November).

This would mean a reserve of five months of operating revenues or approximately \$3.5 million should be available to begin the following year. Otherwise, the General Fund will borrow from another fund to provide operating resources to the departments within the fund until such time as property taxes are received.

### **Long-Term Financial and Other Matters that Impact the Recommended Budget**

#### County Facilities

During the prior fiscal year, Mental Health's building on Vandenberg Road experienced a devastating fire that has required the department to relocate to other county facilities. It is anticipated that construction will be completed in October of 2012 and Mental Health will relocate from temporary facilities to the Vandenberg Road location.

During the 2012-2013 fiscal year, certain departments are contemplating relocations.

OSU Extension and Experimentation Station are anticipating consolidating all personnel and services to the Washburn Way location from the Vandenberg Road location. This will reduce their budget by the anticipated space rent charge of \$50,000.

Public Health is anticipating relocating to the space that is currently being occupied by the OSU Extension and Experiment Station on Vandenberg Road. This is anticipated to save the department \$40,000 in space rent.

Emergency Management is anticipating relocating to a shared space with the Watermaster on Summers Lane from their Pine Street location. This is anticipated to increase costs by \$10 thousand in space rent.

Once Public Health and Emergency Management relocate from the Pine Street building, the County anticipates closing the Pine Street building as it is in need of extensive repairs.

Also there are many other county owned buildings that are requiring significant remediation costs that are not being planned for.

#### Property Taxes and Debt Limitations

The County is subject to a number of property tax and debt limitations imposed by Oregon Law. A complete schedule of these limitations is found in Appendix A.

#### Debt Service

Information specific to debt and planned projects is included in Appendix B.

#### Fiscal Policies & Definitions

A complete list of adopted fiscal policies that have been applied to this budget are found in Appendix C. Every effort is being made to find less expensive ways to provide quality services.

#### Budget Format

The budget format and program descriptions are discussed in Appendix D.

#### Fund Descriptions

A description of the individual funds and their purposes can be found in Appendix E.

#### Wage Tables

The wage table used in the preparation of the 2012-2013 can be found in Appendix F.

### **Significant Departmental and Fund Highlights and Issues for 2012-2013**

We are in a time of low interest rates, which translates into a lower growth rate on our reserve funds. And those investment earnings that we have relied on in the past to supplement programs are not available this year. This has caused a further reduction in some programs that relied upon those earnings to supplement operating revenues.

Some departments reduced operating hours to 32 hours weeks due to funding cuts. Other departments have been reduced to the point that further cuts would require the County to turn this service back to the State of Oregon. Requiring services to be provided by individuals from out of the area, reducing the timeliness of services provided to county residents.

The General Fund was anticipating a reduction in revenue of \$2.5 million in fiscal year 2012-2013 to maintain the same levels of service provided in the past. The primary sources of this decline are the loss of funding from Secure Rural Schools (\$800 thousand), the complete spending of the beginning fund balance (\$1 million) that was budgeted for fiscal year 2011-2012, and the expiration of the agreement with the City of Klamath Falls, Oregon for funding related to B pod at the jail (\$700 thousand). The Budget Committee met on January 5, 2012 to discuss the implications of this anticipated shortfall and concluded to cut various departments subsidies by \$494 thousand.

On March 5, 2012, the Budget Committee met again and recommended various cuts on which to build the 2012-2013 budget. Those cuts included: District Attorney, \$266 thousand; Juvenile, \$219 thousand; Community Development, \$351 thousand; Public Health, \$318 thousand; Sheriff, \$158 thousand; community organizations, \$87 thousand; and television broad casting expenses for \$99 thousand.

The Board of Commissioners has made a decision to implement Oregon HB 4175 and transfer \$2 million from the Road Reserve to the General Fund for Sheriff Patrol services. The Board of Commissioners then chose to reduce the General Fund support to Sheriff Patrol services by \$2 million to establish an operating contingency in the General Fund. The Board of Commissioner agreed to restore funding to certain departments: Sheriff Corrections (\$1 million) to keep the B pod at the jail open; \$100 thousand to District Attorney; \$100 thousand to Juvenile; \$158 thousand to Sheriff Patrol; \$20 thousand to Tax Collector; and \$24 thousand to Public Health. This has left \$598 thousand in operating contingency. The Board of Commissioners has indicated their desire to make this same transfer into the Sheriff's patrol division in the 2013-2014 budget.

This transfer from the Road Reserve to the General Fund is a short-term solution to a long-term problem. The Board of Commissioners along with the City of Klamath Falls, Oregon have formed a joint committee to develop a long-term solution to funding public safety in Klamath County. The Board of Commissioners hopes these scheduled transfers will give this new committee sufficient time to develop a solution and educate the public regarding the solution.

The budget for 2012-2013 also contemplates a significant reduction in funding to the Road Fund by \$4.6 million as a result of the loss of funding from Secure Rural Schools. In addition to the \$2 million the Board of Commissioners is recommending be used to fund patrol services in the General Fund.

The Fair Board has brought to the Budget Committee a budget for 2012-2013 that is significantly different than in prior years. The Fairgrounds Fund has exhausted their reserve and will be borrowing money from the Equipment Rent & Revolving Reserve Fund on an annual basis until their loan is paid off. The Fair Board is researching expanding their revenue streams and cutting costs to provide a more efficient operation.

The subsidy from the General Fund to the Community Development Fund (\$351 thousand) has been completely eliminated. The subsidy to Community Development Fund has been replaced by a subsidy from the Solid Waste Fund (\$255 thousand). With the reduced funding levels provided by the Solid Waste Fund there will be a significant impact to the public's ability to interact with the Community Development Department through reduced staffing levels.

The subsidy from the General Fund to the Public Health Fund (\$348 thousand) has been reduced to \$30 thousand. The subsidy to Public Health Fund is providing only support for the state mandated medical examiner costs. In the past this subsidy was utilized to provide support for programs that could not support themselves on a full costing method. As a result several public health programs have either been eliminated or are operating at significantly reduced levels.

### **Processes Used to Develop the Budget and Organization**

The Budget Committee was convened in a special public meeting on March 5, 2012, to communicate and define priorities for budget development. Pursuant to Oregon law, the budget is reviewed and approved by a Budget Committee consisting of the three members of the Board of Commissioners and three lay members.

A series of public meetings were held where Department Directors and Elected Officials had a chance to talk about the financial aspects of their proposed budget. These meetings took place the months leading up to this meeting. No public testimony was heard at those meetings.

The Budget Committee hearings on the recommended budget will be held April 16 through 20, 2012. During each day of presentation and review, there will be scheduled opportunities for public input. Budget deliberations are scheduled to occur throughout the process. All Budget Committee meetings are open to the public and public testimony is always welcome.

Community organizations have in the past have been provided an opportunity to present to the Budget Committee. Their presentation will take place in a time period provided by the Chair in a public comment period. I have not scheduled them for a specific time.

The County's Elected Official Salary Committee has met previously and developed a recommendation for Elected Officials' salaries and will present it to the full Budget Committee for action.

Following approval and publication of the Budget Committee's recommended budget, the Board of Commissioners is tentatively scheduled to adopt the budget on June 19, 2012. The Board of Commissioners also meets in public session and encourages public input. The Board of Commissioners is authorized to amend expenditures in the Budget Committee's approved budget up to 10 percent of any fund without reconvening the Budget Committee.

The organizational chart, found on page i, includes a view of the County with its departments. For each County department there is a discussion at the beginning of their section. An overview of each department, significant accomplishments in the prior year, as well as information on all programs within the department are found behind their tab. For each program, the budget reflects a statement of purpose, mandated services, self-imposed services, measures of effectiveness, and significant issues facing the department. Additionally, financial information is included.

The budget is organized around the County's functional areas. Although the County has adopted a program budget format, the State of Oregon requires retention of a line-item budget format.

Throughout the budget, the specific goals that each program strives to meet are identified in a description of the particular program. The narrative for each program includes a statement of the revenues generated by specific programs.

## **Conclusion**

As you review the budgets with the departments, ask the Directors what kind of service will be provided to the community with the funds provided, understanding there are limited resources (funds) available. Ask questions about programs and spend less time looking at individual line items. The budget is appropriated by category, not individual line items. After you review and make the desired changes to the budget, you will approve the budget. The approved budget will be published for final public hearing on Tuesday, June 19, 2012, where the Board of Commissioners will meet in a public session to adopt the budget. The Board of Commissioners are authorized to amend expenditures in the Budget Committee's approved budget, up to 10 percent of any fund, without reconvening the Budget Committee. The Board of Commissioners always encourages public input.

This budget has been prepared in a time of extraordinary financial stress. County governments must provide state, federal, and self-imposed mandated services at the local level, many of them without adequate funding from the State and Federal Government, face extremely difficult choices, particularly those that rely entirely on local funding. There are many people whose lives will be directly impacted by the budget choices we must make. Ever mindful of that, we have worked hard to prepare a budget that preserves direct services to the greatest extent possible and keep in mind long-term strategies that will allow us to do so in the future. I would like to extend my personal thanks to the citizen members of the Budget Committee for their time, concern, and constructive insights. I wish also to acknowledge the Board of Commissioners' support and leadership in these most challenging times.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read 'Jason Link', with a stylized flourish at the end.

Jason Link, CPA  
Klamath County Budget Officer

# Klamath County, Oregon

## 2012-2013 Budget Presentation

### Appendix A – Property Taxes and Debt Limitations

#### **Property Taxes**

The County will certify its State-provided permanent tax rate in the amount of \$1.7326 per thousand dollars of assessed valuation for 2012-2013. The total amount of property tax the County expects to levy on behalf of the General Fund is \$8,557,395. Of this amount, the County expects to collect 94 percent for a net of \$8,043,950.

#### **Property Tax Limitations**

In 1997, voters approved a constitutional amendment known as Ballot Measure 50. Ballot Measure 50 established a permanent tax rate limit for all local governments. Klamath County's rate is \$1.7326 per thousand of calculated assessed value. The assessed value is approximately 66.4 percent of real market value. This permanent rate is set by the Oregon constitution.

Other limits were imposed by Ballot Measure 5, another constitutional amendment approved by Oregon voters. This measure limits all local governments to a combined total of \$10 per thousand of real market value. Schools were limited to \$5 per thousand.

#### **Debt Limitations**

The County has a general obligation bonded debt limit set by Oregon Revised Statute (ORS) 287.054, which is 2 percent of the real market value of all taxable property in the County (\$155,549,362). The County has no bonded debt outstanding at July 1, 2012.

# Klamath County, Oregon

## 2012-2013 Budget Presentation

### Appendix B – Debt Service

#### **Mental Health Loans**

On August 26, 1988, the County obtained a mortgage loan for \$80,394 from Siuslaw Valley Bank, with an interest rate of 8.97%, and due in monthly installments of \$640 for 350 months (maturity date October 2017). In addition, on February 2, 1989, the County obtained a mortgage loan for \$55,690 from Siuslaw Valley Bank, with interest rate of 8.97%, and due in monthly installments of \$450 for 352 months (maturity date June 2018). The debt service on these loans is made in the Mental Health Fund.

## 2012-2013 Budget Presentation

### Appendix C – Fiscal Policies and Definitions

#### **Fund Accounting**

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Klamath County has the following types of funds:

**Governmental Funds** – These funds are typically used to account for tax supported activities. They have a short-term emphasis and generally measure and account for cash and “other assets that can easily convert to cash.” The funds use the modified accrual basis of accounting. Revenues, including funds received from other governmental units and the issuance of debt, are recorded when they are susceptible to accrual. For revenue to be considered susceptible to accrual it must be both measureable and available to the current financial expenditures of the fund. Revenue is considered available when it is collectible during the current period, and the actual collection will occur either (1) during the current period or (2) after the end of the period but in time to pay current year-end liabilities. Expenditures are recorded on an accrual basis because they are measureable when they are incurred. Expenditures include salaries, wages, and other operating expenditures; payments for supplies; transfers to other funds; capital outlays for fixed assets; and payments for the service of debt. Although most expenditures are recorded on an accrual basis (timing emphasis), the measurement focus of a governmental fund significantly affects what items are to be considered expenditures in the governmental fund. Thus, expenditures for a governmental fund cannot be equated to expenses of a business enterprise. Governmental funds applicable to the County consist of:

**General Fund** – The purpose of a general fund is to record financial transactions relating to all activities for which other specific types of funds are not required.

**Special Revenue Funds** – Special revenue funds account for the proceeds of specific revenue sources that are legally restricted to expenditure for specific purposes.

**Capital Project Funds** – A capital project fund is a type of special revenue fund that is used to account for financial resources to be used for the acquisition or construction of major capital facilities that are nonrecurring major expenditure items.

**Debt Service Funds** – A debt service fund is used for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

**Proprietary Funds** – These funds are used to account for a government’s business-type activities. The funds use the accrual basis of accounting. Accrual accounting attempts to record the financial effects on an enterprise of transactions and other events and circumstances that have cash consequences for an enterprise in the periods in which those transactions, events, and circumstances occur rather than only in the periods in which cash is received or paid by an enterprise. The essential elements of the accrual accounting method include the (1) deferral of expenditures and the subsequent amortization of the deferred costs, (2) deferral of revenues until they are earned, (3) capitalization of certain expenditures and the subsequent depreciation of the capitalized costs, (4) accrual of revenues that have been earned and expenses that have been incurred. Proprietary funds applicable to the County consist of:

**Enterprise Funds** – An enterprise fund is established to finance and account for acquiring, operating, and maintaining facilities and services which are primarily self-supporting from external user charges and fees. It is required when one of the following criteria is satisfied: (1) the activity is financed with debt that is secured solely by the pledge of net revenues from fees and charges of the activity; (2) laws or regulations require that the activity’s costs of providing services, including capital costs, be recovered with fees and charges, rather than with taxes or similar revenues; (3) the pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs.

# Klamath County, Oregon

## 2012-2013 Budget Presentation

### Appendix C – Fiscal Policies and Definitions

**Internal Service Funds** – An internal service fund is established to finance and account for services furnished to one department or agency to another department or agency of the same local government or its component units, or other governments on a cost-reimbursement basis.

**Fiduciary Funds** – These funds are used “to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government’s own programs.” Fiduciary funds utilize the accrual basis of accounting. Fiduciary funds applicable to the County consist of:

**Pension Trust Funds** – A pension trust fund is used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, other postemployment benefit plans, or other employee benefit plans. These funds are exempt from Oregon Budget Law by ORS 294.338(7).

**Investment Trust Funds** – An investment trust fund is used by a governmental entity to report the external portion of an investment pool. The County sponsor’s an investment pool, in which legally separate government’s commingle or pool their resources in an investment portfolio for the benefit of all participants. The external portion of the investment pool is exempt from Oregon Budget Law by OAR 150-294.361(1)-(A).

**Agency Funds** – An agency fund is used to account for all assets that are held in a custodial relationship, such as the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments. Agency funds are most commonly used to account for taxes collected by the County on behalf of other governments. These funds are exempt from Oregon Budget Law by OAR 150-294.361(1)-(A) and 150-294.361(2).

The County budgets all funds using the modified accrual basis of accounting, except interfund loans and repayments are budgeted as debt proceeds (repayments) and debt service (repayments).

#### **Definitions**

**Beginning Fund Balance** - This is a revenue classification indicating those financial resources which, because they were not expended in one fiscal year, are available in the following year. Included in this total are projects known as carry-forwards. Also included are the unappropriated ending fund balances, contingencies, reserves, and any excess revenue or under expenditures from previous fiscal year.

**Capital Outlay** - This is an expenditure category. This includes all equipment purchases costing more than \$5,000, all vehicle purchases regardless of cost, as well as land, buildings and infrastructure improvements in excess of \$10,000.

**Change in Fund Balance** - This is the difference between the anticipated beginning fund balance and the anticipated ending fund balance.

**Debt Service** - This is the payment of interest and principal on an obligation resulting from the issuance of bonds, loans or capital leases.

**Ending Fund Balance** - This amount represents the funds’ total unappropriated ending fund balance, reserves, and contingencies.

**Expenditures** - A fund liability incurred for operation, capital outlay, or their requirements, during a budgetary period.

Klamath County, Oregon  
2012-2013 Budget Presentation  
Appendix C – Fiscal Policies and Definitions

Materials and Services - This includes transportation, operating expenses, minor equipment purchases, data processing, maintenance and repairs, contracted services, and direct funding to non-County agencies.

Personnel Services - This includes total compensation paid to employees including salaries, benefits, and payroll taxes.

Revenues - This is income for the fiscal year and includes transfers and proceeds from the sale of bonds and notes.

Transfers From - This line item represents the amount of money transferred to the fund indicated from another fund inside the County organization.

Transfers To - This line represents the total amount of money transferred to other funds inside the County.

Unappropriated Ending Fund Balance - This is the amount set aside in the budget to be used as a cash carryover to the next year's budget. It provides the local government with cash until tax money is received from the County Treasurer in November. This amount cannot generally be transferred by resolution or used through a Supplement Budget unless there is a qualifying emergency (ORS 294.371).

# Klamath County, Oregon

## 2012-2013 Budget Presentation

### Appendix D – Budget Format

The Klamath County budget is composed of three basic units: major program categories, departments/ funds, and in some cases subprogram. The individual departments budgets are grouped into eight major program categories: General Government, Agriculture Services, Community & Economic Development, Community Services, Human Services, Internal Support, Public Safety, and Public Works.

General Government Program - This includes the general government offices such as the Commissioners, Treasurer, Assessor, Tax Collector and the County Clerk.

Agricultural Services Program – These departments/programs provide support and assistance to the community through Cooperative Extension, Agricultural Experiment Station, Watermaster, Taylor Grazing, and Weed Control.

Community & Economic Development Program - This program facilitates and stimulates the economic health of the community through development and redevelopment efforts. Included in this program are departments such as Building, Planning, Surveyor, Tourism, and Economic Development.

Community Services Program - These are public services such as Parks, Library, Museum, and Fairgrounds. This program also includes the miscellaneous public service grants to outside agencies although they are located in the Community Services budget which is in the community and Economic Development section.

Human Services Program - This includes all departments of a human caring and welfare capacity. These include departments such as Mental Health, Public Health, Veterans, and Youth Services.

Internal Support Program -These departments/programs provide needed support to all the actual public service programs. These include departments such as Personnel, Finance, Budget, Data Processing, Risk Management, and Maintenance.

Public Safety Program - This program is to encourage and facilitate the public safety of the county. Departments include Sheriff, Juvenile, District Attorney, Justice Court, and Animal Control.

Public Works Program - This program provides the community with care and construction of roads within the County. It also includes care and construction of bicycle trails and operations of the county landfills.

# Klamath County, Oregon

## 2012-2013 Budget Presentation

### Appendix E – Fund Descriptions

#### General Fund - 100

This fund is the general operating fund of the county. Its two largest sources of revenue are property taxes and the Oregon and California land grant distribution. It also receives various intergovernmental revenues, fees, fines, and interest on investments. Its purpose is carrying out the legislative and executive functions of the county. The General Fund provides such services as Treasurer, Assessor, Tax Collector, Board of County Commissioners, Clerk, Justice Court, District Attorney, Sheriff's patrol, county jail, Juvenile services, emergency management, agriculture experiment station and extension, and the Watermaster.

#### Domestic Violence - 120

This fund is used to account for the federal grant from the Department of Justice to assist the county in dealing with domestic violence throughout the communities of Klamath County.

#### Internal Services - 150

This fund is used to identify and locate the costs of internal support departments among the County's operating funds. The fund contains General Administration, Human Resources, Counsel, Finance, Information Technology, Geographic Information Systems and other costs that have benefits accruing to all county operations.

#### External Services – 151

This fund is used to account for personnel costs associated with county employees providing services directly to component units of the County (Klamath County Library Service District).

#### Veterans Services - 212

This fund utilizes a percentage of the county's permanent tax base to stabilize funding to support services to veterans.

#### Commission on Children & Families - 220

This fund receives grants from the state Commission on Children and Families. A portion is used to fund administration of the program with the remainder of grant funds being used to fund youth programs and services in the community.

#### District Attorney Enforcement - 222

This fund has two major functions: liquor law enforcement and drug enforcement. The liquor law enforcement program is for liquor law enforcement under ORS 471.670. Revenues from fines imposed in the enforcement of the liquor control act and administered by the District Attorney. The enforcement is funded from drug arrests and is for the specific purpose of increasing drug enforcement efforts in Klamath County. Once the fund reaches \$100,000 the surplus will accrue to the general fund.

#### Tourism - 226

This fund is used to account for revenue received from the transient room tax, which the Klamath County Code directs to be used for the promotion of tourism within Klamath County.

#### Community Grants – 228

This fund was established for grant funds for woodstove replacement. The fund was closed in the fiscal year 2009-2010.

#### Sheriff Special Revenue - 229

This fund is used for forfeiture revenues for drugs operation expenses and homeland security grant funds.

#### Road Department - 230

This fund receives federal forest reserve apportionments as per ORS 294.060 and State Highway Fund apportionments as per ORS 366.525 as its major sources of revenue. Other revenue comes from interest on investments, reimbursement for work done, intergovernmental revenues, and miscellaneous sources. Expenditures are limited by article IX Section 3 of the Constitution of the State of Oregon, and are for the construction and

# Klamath County, Oregon

## 2012-2013 Budget Presentation

### Appendix E – Fund Descriptions

maintenance of roads in the county. The Road Reserve Fund 421 was merged with this fund as a separate department in fiscal year 2011-2012.

#### Bicycle Trails - 240

This fund receives the required allocation of 1% of the state motor vehicle registration on all vehicles registered in Klamath County for the purpose of constructing and maintaining bike paths in the community. A joint city/county board administers the fund in the Klamath Falls area.

#### Marine Board (Sheriff) - 245

This fund provides accounting of the State and County partnership of the parole and safety on the waterways of the County

#### Taylor Grazing - 280

This fund is for range improvements under ORS 294.070. Monies are federal monies passed through the State Execution Department to counties and expended through written offer of the Grazing Advisory Board. There are three such boards in Klamath County.

#### Federal Forest Title III - 285

This fund is used to account for the special revenues from the federal rural school funds law for use on federal forest lands.

#### Court Facilities Security - 290

This fund is used to account for funds received under ORS 137.308(2) and maintained by the county treasurer per ORS 1.182 to provide court security for the courts.

#### O&C Title III - 295

This fund is used to account for the special revenues from the federal rural school funds law for use on bureau of land management lands.

#### Klamath Falls Streets - 315

This fund is used to account for the federal forest receipts assigned to the City of Klamath Falls per the contract regarding city street projects.

#### Courthouse Bond - 340

This fund was established to receive the proceeds from property tax serial levy and expenditures for the retirement of the County's general obligation bond issue for construction of the new courthouse and administrative buildings. The annual levy of about \$1.7 million will continue until the 2010-11 fiscal year. This fund was closed in the 2011-2012 fiscal year.

#### Fairground Bond - 350

This fund was established to receive the proceeds from property tax serial levy and expenditures for the retirement of the County's general obligation bond issue for construction of an event center at the fairgrounds. The annual levy of about \$500 thousand will continue until the 2009-2010 fiscal year. This fund was closed in the 2011-2012 fiscal year.

#### Road Reserves - 421

This fund was created as a reserve fund to account and track various road construction projects. This fund was closed in the fiscal year 2011-2012 and merged with Road Department Fund 230 as a department.

#### Landfill Site Reserve - 435

This fund is a reserve fund to account for landfill cover closure/post-closure costs. The reserve fund is funded by the Solid Waste Fund 520.

# Klamath County, Oregon

## 2012-2013 Budget Presentation

### Appendix E – Fund Descriptions

#### Surveyor/Land Corner Restoration - 437

This fund is used to receive monies from all land transactions recorded in Klamath County for the purpose of re-establishing the major section corners in the county and for accounting for the cost of the surveyor program.

#### Equipment Rent & Revolving Reserve - 438

This fund is a reserve fund to account for vehicle and major equipment replacements. Also included are two other programs: telephone equipment reserve and technology reserve funded by all departments.

#### Space Rent and Revolving - 439

This fund is used to ensure adequate maintenance, operation and major maintenance for all county owned facilities and real property. A rent policy has been enacted for most county occupied facilities.

#### Capital Projects Reserve – 440

This fund is a reserve fund to account for major infrastructure improvements to county owned facilities.

#### Park Reserves - 460

This fund was established to reserve funds from sales of timber on park lands to improve future county parks. This fund was closed in fiscal year 2011-2012 and merged with Parks Fund 465 as a separate department.

#### Park - 465

This fund is used to account for the dedicated resources that come from RV licenses and revenues derived from the RV parks. The Parks Reserve Fund 460 was merged into this fund as a separate department in fiscal year 2011-2012.

#### Solid Waste - 520

This fund is used for the operation of the county sanitary landfills and the recycling education program. Revenues are derived from landfill user fees, franchise fees and the sale of scrape metals. The Recycling Fund 521 was merged into this fund in fiscal year 2012-2013.

#### Recycling - 521

This fund was used to account for the recycling education program. This fund was closed in fiscal year 2012-2013 to the Solid Waste Fund 520.

#### Weed Control - 530

This fund is used to account for noxious weed eradication in the county. Revenues are derived primarily from charges for services.

#### Juvenile Special Projects - 601

This fund was used to receive and expend the proceeds from juvenile projects. This fund was closed in 2011-2012 and merged with the Equipment Rent & Revolving Reserve Fund 438.

#### Experiment Station Field Research Project - 602

This fund is used to receive and expend the proceeds of the sales of agriculture products produced by the Klamath County/OSU Agriculture Research Station.

#### Community Development - 603

This fund is used to receive and expend planning, building and electrical permit fees, in providing inspection and compliance to building and electrical codes, including code and violation enforcement. This is a dedicated fund.

#### Property Sales - 604

This fund receives the proceeds from the sale of tax delinquent properties. A portion of the revenues are used for administration of the foreclosure and sales activities. The remainder is transferred to all taxing districts.

# Klamath County, Oregon

## 2012-2013 Budget Presentation

### Appendix E – Fund Descriptions

#### Museum Complex / Sales and Donations - 605

This fund is used for the museum complex and for purchases and sales at the museum store. Additionally, it receives funds from grants and donations for items such as displays, etc.

#### Economic Development - 610

This fund is used to receive Economic Development monies, such as state lottery funding for regional strategies and video poker revenues, for the purpose of retention and development of Klamath County business and industry.

#### Community Corrections - 613

This fund is used to administer the contract with the State of Oregon for Community Corrections Services in Lake and Klamath Counties. The county has chosen to go with the Option II level of administration for Community Corrections Services. This entails having the state provide adult parole and probation services, while the county provides for utilization of enhancement grant funds.

#### Risk Management - 640

This fund is used to account for the county's self-insurance and risk management programs. Insurance programs administered through this fund include liability and property damage insurance, workers compensation insurance and unemployment insurance.

#### County School Fund - 650

This fund is established under ORS 328.005 and is the recipient of federal forest reserve apportionments under ORS 294.060, other intergovernmental revenues, and interest of investments. Expenditures are apportionments to the two school districts within the county and to the state agencies for special education costs.

#### Search and Rescue Operation Fund - 700

This fund is used to provide operation funds for search and rescue.

#### Animal Control Fund - 710

This fund is used under the provisions of ORS chapter 609 for control of dogs in the county. Revenues are from license fees and fines.

#### Health Services Fund - 720

This fund administers public health programs and is the recipient of intergovernmental (primarily state) revenues, client fees, and a General Fund Subsidy.

#### Mental Health Fund - 730

This fund administers mental health programs and is the recipient of intergovernmental (primarily state) revenues, and client fees.

#### Fairgrounds Fund - 740

This fund operates as a function of Klamath County, Oregon under ORS 565.210 to 565.990 inclusive. The affairs of the fairgrounds are managed by a five member Board of Directors who serve without salary. These directors are appointed for three year terms by the Klamath County Board of Commissioners. Primary revenues for the year are the county's transient room tax and user fees. Expenditures are for the maintenance, operation, and improvement of the fairgrounds.

#### Law Library - 760

This fund is used for the operation of the county Law Library. Revenues are primarily from an allocation of court fees.

#### Emergency Telephone Excise Tax - 800

This fund is used under ORS 403.240(9), which requires the County to recognize the amounts distributed by the Oregon Emergency Management to the Klamath 9-1-1 Emergency Communications District on its behalf.

# Klamath County, Oregon

## 2012-2013 Budget Presentation

### Appendix E – Fund Descriptions

#### Clerk Storage Fund - 9305

This fund is used to account for fees eligible to be collected and retained by the County Clerk under ORS 294.320 to 294.400.

#### Ambulance Advisory Training Fund - 9321

This fund is used to account for monies raised by the Ambulance Advisory Training Committee to support training of committee members.

#### Public Works ODOT Reserve Fund - 9323

This fund is used to account for monies transferred to a restricted account from which the Oregon Department of Transportation is performing work on behalf of the County.

#### Mental Health Building Reserve - 9332

This fund is a reserve fund to account for the maintenance of county buildings previously occupied by the Mental Health Department. The buildings are currently vacant and require a substantial amount of remediation.

#### Clerk Overpayment Fund – 9334

This fund is used to account for overpayment of clerk fees that by County policy maybe retained and used to support the operation of the County Clerk's office.

#### Mental Health Rent Reserve - 9338

This fund is used to account for rental income and expenses associated with properties the Mental Health Department maintains for the benefit of its Developmentally Disabilities department.

#### Interoperable Radio Communications System Fund - 9345

This fund is used to construct, operate and maintain a county wide interoperable radio communications system. The primary revenues are from user fees.

#### PERS Reserve Fund - 9347

This fund is a reserve fund to account for contributions from the departments with employees who participate in the State of Oregon Public Employee Retirement System. It is intended to build a reserve to smooth contribution rates to the State plan in future years.

#### Transient Room Tax Fund - 9700

This fund is used for the collection and distribution of County's transient room tax as established by Klamath County Code Section 603.

Effective July 1, 2010 the wage rates shall be adjusted in the amount of the annual average percentage increase of the Consumer Price Index (All Urban Consumers) US Cities West for the prior calendar year, not less than two (2) percent nor more than six (6) percent.

All ONA nurses shall, for purposes of the FLSA, be considered exempt, salaried, professional employees.

Each full time Public Health Nurse (PHN) or Community Outreach Nurse (CON) shall be advanced one step in the salary schedule on his/her anniversary date.

Effective January 1, 2005 the bilingual nurse shall be compensated for bilingual responsibilities with a 5% stipend on base salary.

Department: Elected Officials  
Compensation Study

FY 2013 Proposed Budget

**Mandated Services:**

**ORS 204.112 County compensation board; members; compensation review and recommendations.**

(1) Each county governing body shall appoint a county compensation board. A county compensation board shall consist of from three to five members, who are knowledgeable in personnel and compensation management.

(2) The county compensation board shall annually recommend a compensation schedule for the county elective officers mentioned in ORS 204.005.

(3) The county compensation board shall annually review the compensation paid to persons comparably employed by the State of Oregon, local public bodies and private businesses within a labor market deemed appropriate by the board for each elective officer. The county compensation board shall take into account such factors as the number of employees supervised and the size of the budget administered by each elective officer, the duties and responsibilities of each elective officer, and the compensation paid to subordinates and other appointed employees who serve in positions of comparable management responsibility. The county compensation board shall prepare and approve by majority vote a recommended compensation schedule for the elective officers and shall submit the recommended compensation schedule to the county governing body.

(4) Notwithstanding subsections (1) to (3) of this section, the sheriff's salary shall be fixed in an amount which is not less than that for any member of the sheriff's department. [1989 c.941 §1]

**Committee Overview:**

- ❖ ORS Chapter 204 provides guidance in regard to compensation of County Officers, Deputies and Other Employees
- ❖ ORS 204.112 states that the county governing body shall appoint a county compensation board with three to five members, who are knowledgeable in personnel and compensation management.
  - By Resolution No. 2011-051, three members were appointed
    - Sue Kirby (City of Klamath Falls)
    - Wade Reddell (JELD-WEN)
    - Estella Alvarado (Express Employment Professionals)

Department: Elected Officials  
Compensation Study

FY 2013 Proposed Budget

**Process Overview:**

- ❖ Comparators established in Fiscal Year 2011-12 by evaluating all counties remains unchanged
  - Comparators based on
    - Population
    - General Law Counties and Comparable Home Rule Counties
  - County Demographics

| COUNTY    | POPULATION | BUDGET        | FTE    |
|-----------|------------|---------------|--------|
| Tillamook | 25,250     | \$62,000,000  | 215.10 |
| Union     | 25,748     | \$37,403,011  | 125    |
| Lincoln   | 46,034     | \$79,398,008  | 377    |
| Columbia  | 49,351     | \$61,587,000  | 175    |
| Klamath   | 66,380     | \$201,758,522 | 480.87 |
| Polk      | 75,403     | \$50,657,728  | 272.76 |
| Umatilla  | 75,889     | \$62,105,061  | 300    |
| Josephine | 82,713     | \$92,643,700  | 413    |
| Yamhill   | 99,193     | \$87,188,106  | 453.91 |

- ❖ Evaluated Klamath County Officials to the comparators averages of
  - Salary
  - Staff
- ❖ Committee considered
  - Contract negotiations for subordinates are all pending
  - County's Resolution No. 2006-025

## Department: Elected Officials Compensation Study

FY 2013 Proposed Budget

### ❖ Compensation evaluation

- Comparator averages on the graphs are considered 100%
- Standard Compensation practices consider +/- 5% to be a comparable match for increases when adjusting salary
  - +5% = 105%
  - -5% = 95%
- Comp Committee expanded that due to the variation in comparables to include +/-10%
  - +10% = 110%
  - -10% = 90%
- Compared Klamath County actual as a ratio to comparator averages
  - Staffing
  - Salary
- Increase in salary for all Elected Officials (except the Sheriff)
  - Over last year was 0 %
  - Sheriff's increase was 8.5%
    - Due to subordinates and ORS 204.112(4)  
“(4) Notwithstanding subsections (1) to (3) of this section, the sheriff's salary shall be fixed in an amount which is not less than that for any member of the sheriff's department.”

Compensation Study

FY 2013 Proposed Budget

**Compensation Board Recommendation:**

- ❖ Zero increase in salary for all Elected Officials (except the Assessor and Sheriff)
  - Assessor recommended, to keep the compensation within the comparator range
  - Sheriff's increase will be by \$1.00
    - Due to subordinates and ORS 204.112(4)
    - New Annual Wage will be determined after contract negotiations have concluded
- ❖ Decrease in salary recommended for the Treasurer position
  - Due to recent changes in the holding and investment funds
  - Taking into consideration that the position will work approximately 4 to 5 hours per week

**Summary of Recommended Pay Actions for 2012-2013 Budget Cycle:**

| Position             | Recommended Increase              | Approved Increase |

## Klamath County, Oregon 2012-2013 Budget Presentation

The Klamath County budget is composed of three basic units: major program categories, departments/ funds, and in some cases subprogram.

General Government Program - This includes the general government offices and services.

- 111 - Treasurer
- 112 - Assessor
- 113 - Tax Collector
- 161 - Commissioners
- 162 - County Clerk
- 000 - General Fund Non-Departmental
- 325 - Debt Service
- 580 - Equipment Reserve
- 769 - County Schools
- 800 - Emergency Telephone Excise Tax
- 9347 - PERS Reserve

THIS PAGE INTENTIONALLY LEFT BLANK

**Department Mission:**

Our mission is to provide financial stewardship for Klamath County by safeguarding financial resources while maximizing investment return and lowering investment risk.

**Mandated Services:**

- Duties of the county treasurer ORS Chapter 208.
- Requirements for road maintenance and construction funding ORS 368.705(1).
- Serving as the “custodial officer” of the county and investing surplus funds of the county. ORS 287.070, 294.004(2), 294.035, 294.053
- Requirements for bonded debt ORS 288.010 through 288.120.
- This is just a few of the many laws on mandated services required by the county treasurer.

**Department Overview:**

The County Treasurer is the custodian of public money. Other functions of the County Treasurer include: disbursement of the public money under warrants drawn upon the Treasury by the Finance Department. Establishes and operates investment programs in accordance with Oregon laws, for all available county funds, which include special districts as authorized by the districts. Issues all debt obligations authorized on behalf and in the name of the county, and serves as the primary representative of the county in matters related thereto. The Treasurer’s office manages an investment portfolio of approximately \$140 million.

**Successes and Challenges:**

During the 2011-2012 fiscal year, the Treasurers’ office completed an update of the investment policy statement, and secured a three year investment management contract for the Treasurer’s Investment Pool.

The Treasurer’s office will begin transitioning the special districts to a more structured investment relationship from the existing banking relationship.

**Budget Overview:**

Major revenue source is an investment management fee of 5% of the total investment earnings on all public money held by the Treasurer.

Major expenditures relate to payroll and material costs of operating the Treasurer’s office.

**Significant Changes:**

The Treasurer’s office now operates with a part-time treasurer and a shared staff position from the Finance Department. The cost structure of the department has not changed significantly from the prior year budget.

**Key issues:**

With the change to the investment management contract, the Treasurer's office expects to provide a higher rate of return to the investment portfolio and provide a more thorough analysis of the investments and compliance requirements to its beneficiaries.

THIS PAGE INTENTIONALLY LEFT BLANK

**Department Mission:**

The Klamath County Assessor's Office provides efficient, courteous and professional service and information to the public while effectively executing the mandated duties of analyzing and valuing property for the tax assessment rolls, retrieving information of property ownership and value. We also implement specific assistance programs, ownership transfers, assessment of personal property, updating and recording of legal documents in accordance with the State of Oregon guidelines.

**Mandated Services:**

Per ORS chapters 307, 308, 308A & 309 the Assessor's office is required to

- Maintain real market value at 100% for all types of properties.
- Receive applications and manage veterans and senior exemption programs.
- Receive applications and determine eligibility of requests for tax exemption from various public and/or non-profit agencies.
- Determine eligibility and maintain records on all farm & forest special assessment properties.
- Send annual reports to the Department of Revenue.
- Do all ownership changes and keep track of all manufactured home moves.
- Oversee the sending and receiving of business personal property returns.
- Make all ownership changes on real property, from all recorded deeds.
- Prepare and submit to Department of Revenue, annual Certified Ratio Report.
- Defend county values during the appeal process, with Board of Property Tax Appeals and with Department of Revenue and Oregon Tax Court.
- Maintain records for all taxing districts within the county, determining districts compliance with local budget law.

**Department Overview:**

The assessor's office has two main components, first, the front office, (tech/support staff) and second, the appraisal/sales data staff.

The front office handles front office customer service, data entry, business personal property, manufactured home ownership changes, and real property ownership changes.

The appraisal/sales data staff does all valuation of real property both residential and commercial, reappraisal, exemption requests, agriculture and forest special use requests, collects and verifies sales within the county to produce the annual Certified Ratio Report.

Most of the front office staff is cross trained to different duties, and most of the appraisal/data sales staff has been promoted from front office positions and are very capable of handling front office duties.

The long range goal for the assessor's office has been and continues to be; to provide efficient, courteous, professional help to the public, and the taxing districts while striving to always make that service as cost effective as possible. With that goal in mind, continued education to meet state mandates, and cross training will continue to be in our long range plan.

The Assessor's Office will be at 11 Full Time Employees (FTE) for the 2012-13 FY. We have a strong belief in cross-training and feel that the current staff of 11 FTE's will be adequate. We expect to maintain the same level or even generate more revenue from previous years, while still providing excellent customer service and fulfilling the Department of Revenue and CAFFA grant requirements.

**Successes and Challenges:**

Our office had the following successes for the Fiscal Year: 7/1/11-6/30/12 (estimated)

- 7,538 Properties reappraised
- 3,500 Deeds worked
- 380 Mobile title transfers, trip permits, re-titles and de-titles
- 56 New accounts for the Veteran's and Widow's Exemptions
- 3 New accounts for the Senior Citizen Program
- 115 Property tax appeals
- 6 Withdrawn appeals
- 75/34 Appeals heard (10 dismissed)/stipulated

Challenge: Real estate market. Due to the State's guidelines we are unable to show the current market conditions.

**Budget Overview:**

In developing the Assessor's budget, we looked to balance services needed by property tax payers, taxing districts, the Department of Revenue, the general public and the County, at the same time meeting requirements set by the County Assessment Function Funding Assistance (CAFFA grant).

**Major revenue:**

The main source of revenue for the Assessor's office comes directly from the general fund, with support from the CAFFA grant, and other revenue sources listed below. With that said, the work of the Assessor's office is major in developing values for the collection of property taxes.

**Other revenue sources:**

- Mobile home title transfers, re-titling, de-titling and trip permits
- Subdivisions, plats, lot-line adjustments and consolidations
- Recall lists and sales lists
- Everyday business of copies, faxes and maps
- Calculation of farm disqualifications

**Major expenditure:**

The primary expenditure for the Assessor's office is personnel costs.

**Economic factors:**

- Manufactured housing market
  - More sales equal more transfers that we handle
- Economy in general
  - Developers not platting new subdivisions
  - Property owners not splitting their parcels

- New homes not being built
- Decrease of remodels and additions of residential properties
- Major reductions of industrial properties & utilities, which are valued by Department of Revenue

**Significant Changes:**

We are projecting the reduction in revenue for the 2012-13 FY. The Assessor's Office allocation of the CAFFA grant has been reduced by \$32,116. The primary reason for this is the change related to the Cartographer discussed next.

The biggest change we face is the Cartographer moving to the GIS Department. They will continue to provide the mapping services. The Cartographer has 20+ years of experience in the Assessor's office. All the non-mapping duties will now be performed by existing employees.

The area that will see an impact will be on the customer service side. The customers that relied on her knowledge and worked with her closely will be the ones affected the most.

Another change we are facing is the Property Appraiser I has now moved to the Office Assistant position. This resulted in opening up the Property Appraiser Trainee position. One employee applied, and is now on a year-long training program to become a State Certified Appraiser.

There is a directive on the Assessment of Forest Land for Fire Protection. This directive states that the counties that prepare the assessment roll will be reimbursed for data processing costs and other costs directly attributable to the preparation of the roll. There are other counties already charging the Department of Forestry, and we, along with other Counties, are pursuing this source to generate revenue. We currently process over 28,000 accounts for this fire protection.

The Assessor's Office will be tasked with providing a permanent record of the Assessment Roll by sending records to a microfiche vendor. This process has not been performed since 2001.

The Assessor's Office will also be responsible for \$60,000 in software maintenance fees that were previously budgeted by the IT department, offset by a reduction in Internal Services charges.

**Key Issues:**

**Software Program:**

One of our most pressing issues is our computer software program. The software provider, Tyler Technologies, would like to have counties still using this software to either upgrade or move to their more advanced program. We would like to start setting funds aside to upgrade the current system or purchase a new one. (We would like to thank the IT Department for helping us with a program that soon will be, if it isn't already extinct!)

**Online Services:**

Because of current software issues, we are unable to provide assessment information online via the website. Many of the calls received are customers asking for basic information such as:

- Ownership of the property
- Year built and square footage of structures
- Real market and assessed values
- Levied taxes

We would like to provide these services to our customers, especially in this technological age.

**Department Mission:**

Our mission is to uphold Oregon law by collecting and distributing taxes accurately and providing public service with quality and creditable standards.

**Mandated Services:**

- In accordance with ORS 311 (Collection of Property Taxes) and ORS 312 (Foreclosure of Property Tax Liens) the governing body must follow specific procedures when it collects property taxes, imposes property tax liens and foreclosures on those liens.

**Self Imposed Services:**

- Administering the transient room tax as adopted by the Klamath County Board of Commissioners.

**Department Overview:**

**Property Tax:**

The Tax Collector receives the assessment and tax roll from the County Assessor and is responsible for mailing the tax statements and the subsequent processing of payments. Tax payments are distributed to the taxing districts located in Klamath County. In the event of non-payment of taxes by the statutory due date, the Tax Collector is responsible for computing interest, mailing notices, filing tax warrants, initiating collection activity, and foreclosure proceedings. The Tax Collector files claims for taxes in bankruptcy cases and works closely with the County Legal Department. The Tax Collector is also responsible for the collection of prepayments on plats, potential tax, certified personal property and manufactured structures. Adjustments to the tax roll through the updating of records and communications with the taxpayers are the responsibility of the Tax Collector. Such adjustments are the result of action of the Oregon Tax Court, County Board of Property Tax Appeals, Oregon Department of Revenue or corrections by the County Assessor.

**Transient Room Tax:**

All hotels, motels, bed and breakfasts or any other entity doing business with nightly room rentals in Klamath County must be registered with the Tax Collector and obtain a Certificate of Authority to collect transient room tax. Operators must remit room tax on a monthly basis to the Tax Collector. Tax payments are distributed to various entities according to the Transient Room Tax Code.

**Successes and Challenges:**

**Budget Overview:**

The Tax Collector department is in the midst of reorganization. This budget presents a partial implementation of this reorganization.

Major revenue sources include a subsidy from non-departmental revenues (property taxes, etc.), revenue from the County Assessment Function Funding Assistance Program (CAFFA) received from the Oregon Department of Revenue, fees charged for services rendered and administration of the transient room tax system.

Major expenditures include personal service costs, materials and services (contract services, grounds, maintenance and repair, postage, recording fees and foreclosure/publication costs) and transfers to other departments for cost sharing charges (insurance, technology, and maintenance).

**Significant Changes:**

In past budgets the employment within the department was split between tax collector/treasurer/finance to administer the treasury and tax collector departments; and now the department maintains only a Tax Collector who also manages and oversees Property Sales Dept. Also, the Senior Chief Office Deputy's position was previously split between the departments of Finance and Tax Collector, and is now only budgeted within the Tax Collector's department. The position for the 2011-2012 was budgeted at zero, but amended. This change increased the 2011-2012 personal services from \$141,183 to \$164,394 and will change to \$161,735 in 2012-2013.

In addition to the change in staffing, major expenditures in the materials and services include grounds, maintenance and repair, software support along with postage, recording fees and foreclosure/publication costs increasing the materials and services budget from \$172,188 in the 2011-2012 to \$209,000 in 2012-2013.

**Key issues:**

The County is in need of upgrading the assessment and taxation software. This process needs to be coordinated with many other departments that rely on this system.

**Department Mission:**

Manage all property that has been deeded into county ownership on behalf of the Board of County Commissioners (BOCC). Property that is not needed for county purposes is offered for sale in a timely manner; and once sold is placed on the tax roll subject to assessment and taxation.

**Mandated Services:**

In accordance with Oregon Revised Statutes 271, 275 and 312, whenever property is subject to tax foreclosure and deeded into county ownership, the property shall **first be offered for sale to the public**. When it is in the best interest of the county to sell any real property acquired, an order is entered directing the sheriff to make sale thereof.

Initiates and oversees publications of Notices of a sale in the newspaper for general circulation.

Administer the procedure when property is not needed for public use to any governmental body, qualifying nonprofit corporation or a municipal corporation for the purpose of providing any of the following: low income housing, social services or child care services.

The distribution of proceeds is required in accordance with ORS 275.275 and 311.390.

**Department Overview:**

Property Sales Department manages/oversees property that has been conveyed to the county by foreclosure proceedings, property acquired by the county for permanent ownership and leased to agencies or organizations.

Properties that are foreclosed upon by the tax collector for nonpayment of taxes and deeded into county ownership are sold if not in use for county purposes.

Before each property is offered for sale it is researched to ensure notification has been given properly to individuals, heirs and devisees, municipal corporations, lien holders, contract holders and all other parties of record.

**Successes and Challenges:**

Improved the waiting time a purchaser had at a sale that required documentation by automating the documentation process.

An average of 65 parcels returned to the tax roll each year being subject to assessment and taxation.

An average distribution being \$540,000 back to the taxing districts of which approximately 14% goes into the county general fund.

Some challenges are when foreclosure proceedings include properties whose name appears on the tax roll as “Unknown Owner”. This requires a chain of title to determine who the present owner was prior to appearing on the tax roll as “Unknown Owner” which in some cases requires locating heirs and devisees, or locating an heir or devisee’s interest from an undivided interest holder. Also, local title companies provide title reports to the county during every foreclosure proceeding, and since 2007 the title companies have made in-house decisions of possibly not insuring foreclosed property for ten years which can have an impact on the sale of our foreclosed properties.

### **Budget Overview:**

The re-occurring revenue received annually from land sale agreements and public sales helps counterbalance all expenditures to operate the department. Once operation costs for the fiscal year have been paid, the remaining funds are distributed in accordance with Oregon Revised Statutes 275.275 and 311.390.

### **Significant Changes:**

Now overseeing two departments, Property Sales and Tax Collector’s; along with a distribution from Property Sales Department in accordance with ORS 275 and 311 could be significantly less without knowing the outcome of the 2011/2012 public sale that will take place in May or June and in any future given sale.

### **Key issues:**

To determine in March 2012 revenue from a projected future sale that will take place in April, May or June of 2013.

This fund is created to account for resources that have collected under Klamath County Code Section 603 - Transient Room Tax. Klamath County imposes an 8% tax on the rental rate for the privilege of occupancy in any hotel. A "Hotel" means any structure or any portion of any structure which is occupied or intended or designed for transient occupancy for thirty (30) days or less for dwelling, lodging, or sleeping purposes, and includes any hotel, inn, tourist home, condominium, motel, studio hotel, bachelor hotel, lodging house, rooming house, apartment house, public or private dormitory, fraternity, sorority, public or private club, space in mobile home or trailer parks, or similar structure or portions thereof so occupied. Taxes collected are distributed according to a formula set in the code. The tax is distributed to Discover Klamath, Klamath County Museums, Klamath County Fairgrounds, various cities within the county and funds a competitive grants program for the promotion of tourism and conventions in Klamath County.

**Department Mission:**

To ensure fiscal accountability and enhance the health, safety and community of Klamath County while providing leadership to our municipalities and outlying communities.

**Mandated Services:**

- Determine appropriate compensation for county employees and elected officials (ORS 8.760, 204.112, 204.116, 204.126, 204.601, 209.080)
- Appoint ME – ORS 146.065
- Burial of unclaimed bodies – ORS 146.075(5), 146.100, 146.121(4)
- Declare and prosecute nuisances by ordinance – ORS 203.065
- Provide office to Sheriff – ORS 206.180
- Surveyor expenses – ORS 209.230
- Elections expenses – ORS 246.250(2)
- Sale of County lands – ORS Ch. 271, 275
- Economic Development – ORS 280.500
- Examine books and papers of County Clerk, Clerk of the County Court, Treasurer and Sheriff of the County – ORS 294.085
- Adopt budget subject to local budget law – ORS 294.305-.565
- Appoint Budget Officer & Budget Committee – ORS 294.331; 294.336
- Annual audit of County's fiscal affairs – ORS 297.405-.555
- Appoint BOPTA pool – ORS 309.067
- Levy of taxes- ORS 310.022
- Appoint Tax Collector – ORS 311.055
- Creation of County School Fund – ORS 328.015
- Hearings on road vacations, LIDs, road legalizations, ways of necessity – ORS Ch. 368
- Appoint Emergency Program Manager – ORS 401.305(2)
- Designate partnership [State, County, private] on juvenile crime prevention & lead agency to develop juvenile crime prevention plan – ORS 417.855
- Establish Local Public Safety Coordinating Council [LPSCC] – ORS 423.560-.565
- Costs associated with involuntary commitments [custody, medical care, hospital, etc.] – ORS 426.250, 426.255
- Local Public Health Authority – ORS 431.375 [automatic unless relinquished to State or contract with private entity]
- Local Board of Health ex officio – ORS 431.410
- (1) Must provide sufficient funds for operation of Health Department – ORS 431.510
- Regulation of County service districts – ORS Ch. 451
- Responsible for disposal of solid waste – ORS 459.017; choice of operating own facility subject to DEQ permits [ORS 459.205], issuing licenses to private industry providers, or allocating franchises – ORS 459.085; recycling program – ORS 459A.065.

**Department Overview:**

The Board of Commissioners serves Klamath County as the public's elected advocates and is the policymaking body of Klamath County government. It is comprised of three, at-large elected officials each serving a four-year term. The Board's duties include executive, judicial (quasi-judicial) and legislative authority over policy matters of countywide concern. Establishment of the budget is a primary duty of the Board. The Board's responsibility as the county's legislative branch is to match the county's revenue with expenditures in adopting an annual balanced budget for the entire county. Each of the separately elected officials is responsible for adhering to the adopted budgets affecting his/her office. The Board of Commissioners is responsible for the operation of budgets under the control of various appointed department heads and elected officials. Also within the legislative capacity, the Commissioners are responsible for adopting, amending, and repealing all county ordinances. These include zoning, planning and public safety ordinances, as well as any other ordinances concerning the general welfare of the county. Also within the legislative capacity, the Commissioners are responsible for adopting, amending, and repealing all county ordinances. These include zoning, planning and public safety ordinances, as well as any other ordinances concerning the general welfare of the county.

**Appointments and Affiliations**

Individual members of the Board also represent the County through appointments or affiliations with various community boards and agencies.

**Al Switzer, Commissioner Position #1**

- Bly Community Action Team
- Central Community Action Team- Chiloquin
- Natural Resources – Forest Service – Bureau of Land Management
- O & C Board (Oregon & California Lands) – Executive Committee & Treasurer
- Oregon Department of Transportation- Directors Committee
- Association of Oregon Counties – Legislative Committee
- Association of Oregon Counties – Transportation Steering Committee
- National Association of Counties – Transportation Committee
- Roads Advisory
- Chamber of Commerce
- SCOEDD – South Central Oregon Economic Development District
- ACT / SubACT- Area Commission on Transportation
- TEAM Klamath
- LPSCC- Local Public Safety Coordinating Council

**Dennis Linthicum, Commissioner Position #2**

- Chemult Community Action Team
- Rocky Point Community Action Team
- Natural Resources – Water & Storage
- Ore/Cal RC&D - Oregon-California Resource Conservation and Development Council
- Soil & Water
- ACT- Area Commission on Transportation
- Education
- Housing
- SCOEDD – South Central Oregon Economic Development District

- Natural Resources Advisory Committee
- SCOEDD – South Central Oregon Economic Development District
- SOCEA – Southern Oregon Clean Energy Association

**Cheryl Hukill, Commissioner Position #3**

- Crescent/Gilchrist Community Action Team
- Crescent Lake Junction Community Action Team
- Natural Resources - Agriculture
- Mental Health Advisory Board
- Association of Oregon Counties – Public Safety
- National Association of Counties – Public Safety
- Community Access Television
- The Oregon Consortium
- RWIB – Regional Workforce Investment Board
- SCOEDD – South Central Oregon Economic Development District
- TEAM Klamath – medical Committee
- Tourism
- Veteran’s Advisory Board
- ACT- Area Commission on Transportation

**Successes and Challenges:**Challenges:

- Current economic conditions and economic development
- Federal and State deficit spending
- Interdepartmental efficiencies and communication
- Communication with local municipalities

Successes:

- Sanford Pediatric Clinic
- Monthly Town Hall meetings

**Budget Overview:**

A major source of revenue is generated from licenses, fees and permits from the general fund account.

Major expenditures include personal service cost, materials and service, and interfund transfers.

| Budget Summary |                             |
|----------------|-----------------------------|
| Total Budget   | \$335,669                   |
| Budget Change  | +7% to Materials & Services |
| Total Staff    | 3 FTE                       |
| Staff Change   | None                        |

**Key issues:**

It is imperative that the Board of Commissioners maintain effective communication with local municipalities, State and Federal governments for the health and welfare of Klamath County. The Commissioners will work on the following issues in 2012-13:

- Improve and maintain the County budget and work toward stabilizing county funding.
- Receive monthly reports from their liaison departments.
- Unfunded mandates
- Secured Rural Schools

**Department Mission:**

The Klamath County Clerk's Office is dedicated to providing accurate information and services in a timely, efficient, professional and courteous manner regarding all aspects of elections, real property records, military discharge papers, passport application, marriage license applications, domestic partnership filings and property tax appeals.

**Mandated Services:**

- **Conduct elections in the county**--including federal, state, county, incorporated cities, and special district elections (ORS 246.200)

The conduct of elections includes:

- Registering all individuals who properly submit a voter registration card
  - Maintaining the voter register & address library
  - Establishing precincts
  - Preparing ballots
  - Mailing ballots to all qualified electors
  - Receiving and processing voted ballots
  - Certifying election results
  - Accepting and verifying, for statutory and constitutional requirements, candidate nomination and measure petition filings
- **Maintain the records of the county governing body**, commonly referred to as Commissioners' Journal (ORS 205.110)
  - **Record land records**, including deeds, mortgages, liens and all other documents that affect the title to a piece of property (ORS 205.130). We also record and provide certified copies of Military Discharge Papers (DD 214s) at no charge.

When a document is received for recording it is verified for compliance with Oregon statutes. The information (parties' names, type of document and legal description) are entered into the electronic index for future retrieval of the document. All recorded documents are scanned into our electronic system and microfilm is produced for required archival storage.

- **Process Board of Property Tax Appeals** (ORS 309.020)
- **Issue Marriage Licenses & Filing Domestic Partnerships** (ORS 106.041 & 106.325)

**Self-Imposed Services:**

- **Act as a United States Passport Agent**

Recording and election staffs are able to process passport applications around their other duties, so no additional FTEs are required.

A report following a September 2010 audit by the U.S. Department of State, Office of Passport Integrity and Internal Controls, included the following comments:

*“Agents were knowledgeable, friendly and helpful and provide an excellent service to the community. The facility is performing at an excellent manner.”* I feel that it is a worthwhile service to continue to provide, as at this time the revenue exceeds the postage and processing costs involved.

- **Notary**

In 2011 we implemented a fee of \$10 per notarization (maximum allowed by statute) and provide notary services for the general public. This is another service that is helpful to the public and has not required any additional FTEs.

- **Perform Wedding Ceremonies**

I began performing wedding ceremonies in 2011. This is a service for which we charge \$100—the amount set in statute. There is completion of paperwork involved, but my staff and I have been able to work it around our other duties.

**Department Overview:**

All staff members are cross-trained to cover election and recording duties. The long-range goal of the recording section of the Clerk’s Office is to continue to update technologies to increase efficiency and cost-effectiveness. We will continue to watch the development and challenges to e-recording and, when appropriate, implement e-recording in Klamath County.

The long-range goal of the elections section of the Clerk’s Office is to continue to stay up-to-date on statutes and directives to administer elections efficiently, fairly and accurately, and provide reports in a timely manner. This includes continued training of staff on current laws and directives, and maintaining election equipment. A recent legislative session had over 100 election-related proposed bills. Continuing to monitor and testify at the Legislature, when appropriate, are important facets of the County Clerk’s responsibilities.

**Successes and Challenges:****Fiscal Year 7/1/10-6/30/11**

|--------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 17,406 | Real Property Recordings (every document is numbered, scanned and indexed by type of document, parties involved, and legal description)                           |
| 52,418 | Pages in Recorded Documents                                                                                                                                       |
| 457    | Marriage Licenses & Domestic Partnerships (much time is also spent answering questions from customers at the counter and on the phone about license requirements) |
| 3,463  | Voter Registration Cards Received Updating Information (after updating the information, postcards are mailed to every voter showing the updates)                  |
| 1,493  | New Voter Registrations (after entering and verifying each new voter, postcards are mailed to the elector)                                                        |
| 1521   | Number of Voters Moved to Inactive Status (processing of undeliverable ballots and individual voter notices)                                                      |
| 1300   | Number of Voters Moved to Cancelled Status (processing of death notices and notices received from other states)                                                   |
| 7      | Property Tax Appeals Hearings (many more were handled and settled prior to the hearing)                                                                           |
| 41     | Special Districts (we conduct the elections for these districts, for both tax levies and director positions)                                                      |
| 5      | Incorporated Cities for which we administer elections                                                                                                             |
| 177    | Notarizations Performed                                                                                                                                           |
| 248    | Passports Processed (with no additional FTEs required as noted above)                                                                                             |
| 7      | Number of Entities Provided Daily Digital Images of Recorded Documents (generates revenue of \$21,000 annually)                                                   |

**Budget Overview:**

To develop the Clerk's budget each year, the number of known elections is first determined. Although there are four set election dates every year (March, May, September and November), the elections in May and November of even-numbered years (Primary & General Elections) and May of odd-numbered years (Special District Elections) are the only "certain" elections. The other election dates are used when a governing body (county, city or special district) files an election measure, or by initiative or referendum petition.

Recall elections are held on special election dates of their own, and because of deadlines, are outside the election dates listed above.

**Major revenue** source for the Clerk's office is from real property recordings which are directly related to the economic climate. The number of recorded deeds and mortgages has decreased in the last several years, all related to the economy.

We provide digital images of the recorded documents daily to seven entities, so we are required to index the documents the same day as recording them. Up-to-date information is important to title companies and other interests, so that is the service we provide for the fees collected. The revenue we derive from providing the digital images is \$250 per entity/\$1,750 per month/\$21,000 annually.

**Major expenditures** for the Clerk's office are in the administration of elections. The major costs are printing ballots, programming the tally machines, election envelopes (three required for each of our 34,000+ voters—secrecy, outgoing and return), postage costs, and temporary election personnel for processing voted ballots. Election costs are not directly affected by the economy, and must be conducted on timelines set in statute.

**Clerk Storage Fund, 9305-162-32191**

ORS 205.320 directs that a fund for "acquiring storage and retrieval systems, payment of expenses incurred in collecting the fee or tax and maintaining and restoring records as authorized by the county clerk" be established in every county. A percentage of the fee on most recorded documents is deposited into this account and can only be spent using the listed criteria.

**Clerk Overpayment Fund, 9334-162-32191**

In 2000 after conferring with county counsel, other counties, and the county finance director, a fund was established for depositing overpayments received with documents to record. A county policy was established that overpayments of \$10 and more are automatically refunded. Overpayments of less than \$10 are refunded upon written request of the payee. This allows us to record the documents in a timely manner, and not reject a document for overpayment.

The special districts reimburse for their portion of their elections held in May of odd-numbered years.</p> | <p>FY 11-12<br/>\$2,500</p>  | <p>FY 12-13<br/>\$30,000</p> |
| <p><b><u>Expenses</u></b></p> <p>Personnel Services</p>    | <p>The Sr. Chief Office Deputy retired, and the position was left unfilled for three months to help balance the FY 11-12 budget. In October, the position was replaced with the lower paid position of Chief Office Deputy.</p>                                                                                                                                                                                                                                        | <p>FY 11-12<br/>\$27,538</p> | <p>FY 12-13<br/>\$42,390</p> |

**Significant Changes:**

The Clerk's Office has had up to 7.6 FTEs since 2000. In 2004-05 we cut the number to 5.5. Unfortunately, because of a variety of factors (volume of real property recordings and type/number of elections) the cost of temporary election help that was required to administer the elections that year, off-set any savings realized from reducing FTEs. From 2005-2010, we operated with 6.0 FTEs, and that has been reduced to 5.0 FTEs (including the County Clerk) since 2011, the minimum number to complete mandated services.

The County does not get reimbursed for election costs during Primary and General elections for the federal's, state's or any city's portion; however, the special district election in May, 2013, will be reimbursed by the districts.

As noted above, the elections that will be in a fiscal year are a main factor in the requested amounts in the Clerk's budget. In the 2012-2013 fiscal year, there will be a November Presidential General Election and a May Special District Election.

**Key Issues:**

Microfilm to Digital Conversion In 2006 the Clerk's Office partnered with the three local title companies to contract with a vendor to convert our microfilm to digital images. The resulting product was not satisfactory and payments to the original vendor were stopped. We have been working with a new vendor for over two years to correct and complete the project. The vendor has notified us that they expect to complete the project soon.

Historic Book Preservation In 1997 an audit was done of our permanent historic books to begin a restoration maintenance program. The audit revealed 16 books "requiring immediate attention" and seven books "requiring attention soon." The restoration project was started in 2001 and in 2003 another assessment was completed. At that time, 13 additional books were identified that needed immediate attention to ensure that data was not lost. These books are Klamath County's permanent records that date back to 1875.

Since 2001 we have been able to restore, through the de-acidification and conservation process, four to ten books a year, 74 books total. As the remaining books continue to age (several hundred books), this will be an ongoing project.

Mandated Services listed that are county departments consist of transfers to support those departments that do not generate sufficient revenues on their own to operate as a stand alone operation.

Mandated Services listed that are transfers to other funds are used to support the maintenance of the Klamath County Courthouse, common areas in buildings or community meeting rooms that can not be assigned to single departments (e.g., space rent) or are transfers to support reserves that departments are not able to fully fund (e.g., risk management).

The purpose of this fund was to provide for a fund to aggregate resources provided by a special tax levy to repay the 1996 General Obligation Bonds used to construct the Klamath County Courthouse. The bonds were completely repaid in the 2010-11 fiscal year. Any remaining equity in the fund will be transferred to the General Fund.

The purpose of this fund was to provide for a fund to aggregate resources provided by a special tax levy to repay the 1999 General Obligation Bonds used to construct the Fairgrounds Event Center. The bonds were completely repaid in the 2009-10 fiscal year. Any remaining equity in the fund will be transferred to the General Fund.

The purpose of this fund was to provide for a fund to aggregate resources provided by Federal Forest receipts to be passed through to the public school districts in Klamath County. Pursuant to ORS 294.060 this fund was established to provide for this process.

**294.060 Apportionment of moneys received by counties from federal forest reserves to road and school funds.** (1) The moneys received by each county under ORS 293.560 shall be divided 75 percent to the road fund and 25 percent to the school fund of the county and, subject to subsection (2) of this section, the moneys shall be expended as other moneys in those funds are expended.

**Sec. 1. Distribution of moneys from, or based on, federal Secure Rural Schools and Community Self-Determination Act.** (1) The purpose of this section is to ensure that school districts receive a percentage of amounts received by the state under the Secure Rural Schools and Community Self-Determination Act of 2000 (P.L. 106-393).

(2) The Oregon Department of Administrative Services shall distribute all sums received by the state pursuant to section 102(a)(2), (c)(1) and (d)(1)(A), P.L. 106-393, or based on P.L. 106-393, to counties in the same manner as are sums derived from forest reserve rentals, sales of timber and other sources from forest reserves under ORS 293.560. The department shall ensure that, of the total amount distributed to all counties in any fiscal year, the percentage distributed to each county in any fiscal year is the same as the county's percentage share of all payments received by the state during the eligibility period described in section 3(2), P.L. 106-393.

(3) A county that receives funds from the department pursuant to subsection (2) of this section as the county's share of federal funds distributed under P.L. 106-393 shall deposit 25 percent of those funds in the county school fund or shall deposit an amount as specified in ORS 294.060 (3) to (6).

(4) Pursuant to ORS 328.015, amounts in the county school fund shall be distributed to the school districts in the county based on the resident average daily membership of the school districts. [2001 c.958 §1; 2003 c.226 §19; 2007 c.891 §1]

**Sec. 2.** Section 1, chapter 958, Oregon Laws 2001, is repealed on July 1, 2013. [2001 c.958 §2; 2007 c.891 §2]

This fund is created to account for resources that pass through Klamath County to the Klamath Emergency Communications District (9-1-1). Telephone excise taxes are collected at the state level and passed through the counties to the local emergency communication agencies. Below is the ORS that pertains to the pass through requirement.

**TAX FOR EMERGENCY COMMUNICATIONS**

**ORS 403.240 Distribution of account proceeds; uses; reimbursement request review; reports.**

(9) After all amounts under subsections (1) and (2) of this section and ORS 403.235 (2) have been paid, the office shall distribute the balance of the Emergency Communications Account to cities on a per capita basis and to counties on a per capita basis of each county's unincorporated area for distribution to 9-1-1 jurisdictions within the city or county. However, each county must receive a minimum of one percent of the balance of the account after the amounts under subsections (1) and (2) of this section and ORS 403.235 (2) have been paid. A city or county shall pay each 9-1-1 jurisdiction whose 9-1-1 service area includes all or part of the city or county.

This fund is created to account for resources that have been set aside to offset increase in the State of Oregon Public Employees Retirement (PERS) required contribution rates. Money have been transferred into this fund in 2010-11 by increasing the required contribution rate from 6.39 percent in 2010-2011 to 10.95 percent and placing the extra contribution into this fund.

**Department Mission:**

The Oregon State University Extension Service engages the people of Oregon with research-based knowledge and education that focus on strengthening communities and economies, sustaining natural resources, and promoting healthy families and individuals.

**Mandated Services: Non Mandated Partnership with Federal, State, and Local Funds**

- Morrill Act 1862, 1890, Land Grant University System
- Smith-Lever Act 1914 Cooperative Extension
- Klamath County Extension 1914
- KBREC 2006, Vandenberg, Washburn Sites Combined
- Partnership Federal, State, County, Grants

**OSU Extension Policy outlining that in order to House a State employee in a County, the County provides \$50,000 per program for service and supplies.**

**Department Overview:**

Provide Research Based Education to the Citizens of Klamath County in relationship to Healthy People, Healthy Environment, and Healthy Communities. Research and Education is driven by community needs.

Program Areas

- Family and Community Health
  - Health and Nutrition
  - Diabetes
  - Master Food Preserver
  - SNAP-ED (Supplemental Nutrition Assistance Program- Education)
- 4-H and Youth Development
  - Youth Clubs including traditional youth livestock
  - Exchange Programs, urban/rural exchange program
  - Shooting Sports
  - Science Engineering and Technology
  - Citizenship/Leadership
  - Healthy Living
- Agriculture
  - Livestock
  - Economics
  - Forages
  - Potatoes
  - Grains
  - Alternative Crops
  - Master Gardeners
  - Production Garden
    - Rotary First Harvest

**Impacts**

- Every \$1 in Nutrition Education returns \$3.60 in future health care costs
- 4-H/Youth Development, +-600 Youth Enrolled, +-150 Leaders
- Economic impacts of fair (SR1076 Oregon County Fairs: An Economic Impact Analysis)
- Input/Output Analysis and Multiplier Effects on Communities
- Community Capacity, Economic and Social
- Total Volunteer Hours 16,560/2080= 8.0 FTE
- Independentsector.org (2009) Oregon \$18.47 = \$305,863
- Plant Clinic 225 calls 171 walk ins
- Total Face-to-Face contacts 89,246 (does not include media contacts)

**How We Function**

- Research and Resources
- Classes
- Publications
- Field Days
- Fairs
- On-Line
- Media
- One on One

**Successes and Challenges:**

Described above in impacts.

**Budget Overview:**

The budget can be viewed in three sections, Personnel, Service and Supplies, and Administrative Overhead.

Service and supplies has held constant over the last four budget cycles. In order to meet this level the department has addressed efficiencies and modified all expenses. In 2009 the newsletter was cancelled. User groups are notified by technology, media, and single mailings.

Allocations are as follows:

|                         |          |
|-------------------------|----------|
| Personnel               | \$97,224 |
| Materials and Services  | \$75,675 |
| Administrative Overhead | \$66,312 |

**Total budget appropriation:        \$239,211**

No major changes from FY12. When the move is complete we expect savings in administrative overhead in regards to rent.

Attachment below outlines the relationship of Federal, State, County, and Grants funds for the department.

**Significant Changes:**

Personnel:

Continue at FY12 Allocations.

Renew existing MOU with OSU to continue to transfer \$8,884 to OSU to fund Office Assistant 1 (Master Gardener Program Assistant). The person in this position will also receive .10 FTE from OSU to serve as a state wide “Question Wrangler” for OSU’s “Ask an Expert” Horticulture Program.

Materials and Services:

This section of the budget will remain flat, however the MOU created in Personnel will change subtotal within the section.

Administrative:

Evaluate saving in rent with relocation to Washburn Site.

**Key issues:**

Federal, State, and County funding sources are being stretched within this department. Over the last 12 years this department has gone through reorganization and is at a base level. Further cuts will mean that program areas, as defined above, will have to be prioritized and lower priority programs cut and services end. As programs are cut the grant funding for those programs will also disappear.

## Department Overview

2012/2013  
Budget

Provide Research Based Education to the Citizens of Klamath County in relationship to Healthy People, Healthy Environment, and Healthy Communities. Research and Education is driven by community needs and meets national directives as established by USDA NIFA (National Institute of Food and Agriculture).

Department: OSU KBREC  
Experiment Station

FY 2013 Proposed Budget

**Department Mission:**

The Mission of the Agricultural Experiment Station is to conduct research in the agricultural, biological, social, and environmental sciences for the economic, social and environmental benefit of Oregon.

**Mandated Services:**

**Non Mandated Partnership with Federal, State, and Local Funds.**

- Morrill Act 1862, 1890, Land Grant University System
- Hatch Act 1887 Agricultural Experiment Stations
- Klamath Research Station 1937
- KBREC 2006, Vandenberg, Washburn sites combined
- Partnership Federal, State, County, Grants

**OSU Agricultural Experiment Station goal is to have 25% of station cost coming from local sources.**

This budget supports activities at the OSU Klamath Experiment Station located on Washburn Way. Klamath County owns this 86 acre site and leases the site to OSU for agricultural research purposes. This budget is also tied to the Field Research Account (FRA) budget which is a pass through account that does not receive general fund dollars.

**Department Overview:**

Provide Research Based Education to the Citizens of Klamath County in relationship to Healthy People, Healthy Environment, and Healthy Communities. Research and Education is driven by community needs and meets national directives as established by USDA National Institute of Food and Agriculture (NIFA) Appendix A.

County funding is utilized to provide supplies and service to eight (8) State employees in:

- Agriculture
  - Livestock
  - Economics
  - Forages
  - Potatoes
  - Grains
  - Alternative Crops
  - Master Gardeners
  - Production Garden
    - Rotary First Harvest

Department: OSU KBREC  
Experiment Station

FY 2013 Proposed Budget

**Current Research Trials**

- Expanding Grazing Season, Brassicas, Legume Inter-seeding
- T-Sum Fertilizer
- Tri State Potato Development Trials, 2011 24,000 single hill varieties, 2011 +- 50,000 Varieties
- Potato Seed Increase moved from Powell Butte Station
- Alternative Crops, Camelina, Euphorbia, Russian Dandelion, Teff, Canola, Reduced Irrigation
- Cost of Production
- Community Economic Impacts
- Deficit Irrigation
- Management Alternatives
- Pesticides (new products alternative rates)
- Fertilizer (alternative rates)
- Irrigation
- Rotation
- Cover Crops
- Malt Barley
- Western Wheat Variety

**Successes and Challenges:**

This research station has provided research addressing local concerns since 1937. The activities at the research station are supported by Federal, State, County, Grant, and Fee based experiments and production trials. The data gathered from these research activities are shared with local, regional, national, and international entities through site visits, field days, class room presentations, seminars, and one on one teaching events. Research conducted at this site supports the \$285 million dollar agricultural business sector in Klamath County, (OAIN data 2011p).

Challenges facing the station relate to increasing negative budget pressures at the Federal, State, and County level. Over the past four years faculty positions have been combined between research and extension in order to maintain a footprint within the county. This endeavor has allowed local demands to be met, albeit at a smaller level.

Over the last four years there has been a reduction of 1.5 County funded FTE's relating to this department. In order to get the work completed, the department is utilizing part-time employees and in 2012 will utilize college student labor. In addition the County funded positions are also receiving some support funding tied to grants. All costs associated with the department have been cut to the bare minimum. We are utilizing the Federal Surplus Property program as a source for equipment and vehicles.

In FY2012 the FRA account was not fully utilized. Funds in this account are used for research and farming purposes at the Washburn Site. This allowed for this account to have a carry over

Department: OSU KBREC  
Experiment Station

FY 2013 Proposed Budget

which will be utilized this budget period. The revenue that is generated in this budget is derived from the sale of agricultural commodities from the land per OSU/Klamath County Lease.

Impacts

- Research \$1 spent yields \$10 to society (USDA Economic Brief #10, September 2007)
- A recent economic analysis of the public investment in the Pacific Northwest (PNW) Breeding and Variety Development Program estimated that for every dollar invested in research, the PNW potato industry will benefit by \$38.97.

**Budget Overview:**

This proposed budget is in the amount of \$93,748. The majority of this budget is allocated to two employees at a 1.5 FTE level, in the amount of \$55,703. This will allow for a Farm Foreman and a farm labor position to attend to the duties at the site and assist with research projects. Major duties will be conducting farming operations related to equipment maintenance and repair, irrigation and water distribution and application, care and maintenance of the facility, assist with implementation of research projects from plot establishment to harvest to data collection.

Material and Services account for \$16,141 and are allocated for telephone, postage, and irrigation taxes. The remaining \$21,903 is allocated back to the county for Administrative services. Note budget and line items.

**Summary**

|                        |                 |
|------------------------|-----------------|
| Personnel Services     | \$55,704        |
| Materials/Services     | \$16,141        |
| Administrative         | \$21,903        |
| <b>Proposed Budget</b> | <b>\$93,748</b> |

**Field Research Account**

This Department also has a budget identified as the Field Research Account. The revenue for this account is derived from the sale of agricultural commodities, research grants, rental fees, sales and donations and interest investments. This account is required to maintain a carryover from year to year in order to maintain enough funds to offset any expenses incurred prior to the budget year's crop sales. Carry over is \$10,387. Other expenses include some part time summer employment, travel, supplies, equipment maintenance and repair, and contract services. All other expenses incurred at the Experiment Station are paid by grants and fees charged to users.

**Summary**

|                    |          |
|--------------------|----------|
| Revenue            | \$40,685 |
| Expenses           |          |
| Personnel Services | \$10,282 |
| Materials          | \$20,016 |
| Carry Over         | \$10,387 |

Department: OSU KBREC  
Experiment Station

FY 2013 Proposed Budget

**Significant Changes:**

Increase in Grant Funding is straining support staff. Additional resources are being sought.

In FY 2012 we produced limited bulk crops via research agreements with local producers.

In FY 2012 a new major research project moved to the Washburn Site. Research historically conducted at Powell Butte Experiment Station in relation to Seed Potato increase moved to Washburn. This endeavor is strongly supported and funded in part by the Oregon Potato Commission. This project will have positive production and fiscal impacts to the growers within the county. Given this opportunity the Department will need to continue to allocate resources to achieve successful results.

**Key issues:**

This department relies on funding from Federal, State, County, and granting sources. Each entity has been restructuring budgets which impacts the unit as a whole. The department is continually searching for short term funding sources on an annual basis in order to maintain productivity and relevance. In January of 2011 this department moved offices to the Vandenberg site to evaluate if fiscal saving could be achieved. At current FTE levels there are not enough support FTE's to maintain a public presence at both locations. All public contacts will be made via the Vandenberg Site with the Washburn Site serving as a research and lab facility without public access. In FY 2013 Vandenberg Faculty and Staff will relocate to Washburn under directives of Board of County Commissioners.

## Department Overview

2012/2013  
Budget

Provide Research Based Education to the Citizens of Klamath County in relationship to Healthy People, Healthy Environment, and Healthy Communities. Research and Education is driven by community needs and meets national directives as established by USDA NIFA (National Institute of Food and Agriculture).

**Department Mission:**

Klamath County Weed Control is dedicated to protecting public and private lands, agriculture, forestry, human health and wildlife from the negative impacts of Noxious Weeds.

**Mandated Services:**

The Weed Control is not subject to any mandated services.

**Self Mandated Services:**

Chapter 569 of the Oregon Revised Statutes outlines the actions a County may take to control or otherwise prevent Noxious Weeds.

The County Commissioners have declared all lands within Klamath County a Weed Control District and have declared a list of Noxious Weeds within the County (Order No. 2011-044). They have also appointed a County Weed Supervisor to conduct the duties outlined in ORS 569.370 & County Code 401.510.

Klamath County Weed Control, through the duties of the Vegetation Manager and his employees, provides the following services to Klamath County:

- 1) Find noxious weeds growing on land within the County
- 2) Serves notices to control noxious weeds
- 3) Issues citations for violations of County Code
- 4) Controls or otherwise destroys noxious weeds on land within the Weed Control District

**Department Overview:**

Weed Control employs one half-time Vegetation Manager, three full-time seasonal Applicators and three full-time seasonal Driver/Helpers. All employees are licensed by Oregon Department of Agriculture to apply pesticides and all Applicators attend annual training courses to maintain their license certification. Weed Control maintains a variety of specialized equipment including four 4-wheel drive pickups equipped with pack tanks, three ATV's equipped with spray tanks, one small boat and numerous backpack sprayers and hand tools.

**Successes and Challenges:**

Weed Control remains entirely independent of the County General Fund. Weed Control has worked hard to provide quality service to our customers and has substantially reduced noxious weed infestations. In the past four years we have discovered and worked to control five new weeds that were not previously known to exist in the County, and one of these was not previously known to exist in the State. Still, we are faced with an ever present threat of new invaders that have the potential to cause severe negative economic and biological impacts on our County. In the recent past our funding has been pretty stable, but with the current status of the economy, Federal and State budgets are being decreased. Noxious weed control may not remain a priority for all of the agencies we contract with and that will likely lead to a reduction or possible elimination of some of our contracts. Keeping our applicators employed with us is another challenge we face. We only offer seasonal work and few people are able to remain for several years in a seasonal employment situation.

**Budget Overview:**

Weed Control is self supported through acquisition of contracts with outside Local, State, and Federal Agencies, a few private companies and land owners and through grants for weed control work. We operate at our cost of providing service. Our start and end dates of every season are dictated by the weather but we generally are able to perform about \$200,000.00 in contract and grant work each season. The Board of County Commissioners annually sets our fee schedule (Resolution No. 2012-023) which allows us to charge an overhead on labor. This overhead is used to cover our department expenses. At the start of every year it is critical that we have sufficient Net Working Capital to cover start-up expenses for supplies, equipment and chemicals. We are also faced with having to make payroll for 1 to 2 months before we receive payment for work we have performed. We have successfully been able to maintain a sufficient Net Working Capital to cover these expenses.

**Significant Changes:**

There are no significant changes from last year's operations.

**Key issues:**

Every year Weed Control is faced with having to run a financially tight program. In the current national economic situation future Federal funding is uncertain. All agencies which we contract with are facing budget cuts that almost certainly will have an impact on us in the coming years. Our contracts and therefore our budget look good for the upcoming year but we realize it is more important than ever to conserve what we have in preparation for what may not be good in the upcoming years.

The purpose of this fund was to provide for a fund to aggregate resources provided by Taylor Grazing Act to be passed through to the public school districts in Klamath County. Pursuant to ORS 294.060 this fund was established to provide for this process.

**293.575 Distribution of funds received under the Taylor Grazing Act; Taylor Grazing Fund.** (1) Except for a distribution charge that shall be deducted to meet expenses incurred by the Oregon Department of Administrative Services in administering this section, all funds received from the United States Government as a distributive share of the amounts collected by the United States Government under the provisions of the Act of Congress of June 28, 1934, public document No. 482, known as the Taylor Grazing Act, and any Act amendatory thereof shall, upon receipt by the State Treasurer be credited to a special fund in the State Treasury to be known as the Taylor Grazing Fund and shall be distributed to the several counties in which such public lands are located. The distribution charge shall be 60 cents per county and is in addition to the transaction charge approved for the department during the budgetary process. The amount of the distribution charges is continuously appropriated to the department to meet expenses incurred in administering this section. The department shall ascertain from the proper United States officers, having the records of receipts from grazing permits and leased public lands, the amount of receipts from such sources in this state for each year for which money is received by the state. A separate account shall be kept of the sum received from each grazing district and lease of public lands, which sum shall be segregated by the department and paid to the county in which the grazing district or leased public land is located, based on the number of animal unit months contained in the grazing district or leased public land within the county from which the moneys are collected. However, where the grazing district or leased public land is located in more than one county, each shall receive such proportional amount of the sum as the animal unit months of such grazing district or leased public land included within the boundary of such county shall bear to the total animal unit months of such grazing district or lease.

(2) As used in this section, "animal unit months" means the amount of forage required to sustain a bovine animal for one month. [Formerly 606.220 and then 291.540; 1981 c.296 §1; 1985 c.787 §6]

**Department Mission:**

The Department's mission is to serve the public by practicing and promoting responsible water management through two key goals:

- Directly address Oregon's water supply needs
- Restore and protect stream flows and watersheds in order to ensure the long-term sustainability of Oregon's ecosystems, economy and quality of life.

**Mandates Services:**

ORS chapters 536 through 543 give the Watermaster authorization to regulate and distribute the public waters of the state. Under Oregon Law, all water is publicly owned. With some exceptions, cities, farmers, factory owners, and other water users must obtain a permit or water right from the Oregon Water Resources Department to use water from any source – whether it is underground, or from lakes or streams. Generally speaking, landowners with water flowing past, through, or under their property do not have the right to use that water without a permit from the Department.

**Department Overview:**

Watermasters respond to complaints from water users and determine in times of water shortage, which generally occur every year, who has the right to use water. Each summer as stream flows drop, they regulate junior users to provide more water for senior users. On some streams, by the end of summer, there is only enough water to supply user with right established in the 1800s. All of the more recently established rights will have been regulated off by the Watermaster. Watermasters work with all of the water users on a given water system to ensure that the users voluntarily comply with the needs of the more senior users. Occasionally, Watermasters take more formal actions to obtain the compliance of unlawful water users or those who are engaged in practices that "waste" water. The waste of water means the continued diversion of more water than is needed to satisfy the specific beneficial use for which the right was granted.

Watermasters and field staff also provide general information to the public, oversee enforcement of in stream water rights, inspect wells and dams for safety violations, and measure and monitor stream flows for management and planning needs.

**Successes and Challenges:**

The Klamath Basin Watermaster's office has been extremely successful in responding to water user's questions and concerns in a timely manner thanks to the important funding provided by Klamath County. This past irrigation season, our office was fortunate enough to acquire and Assistant Watermaster funded through the Klamath Water and Power Agency. Unfortunately that contract ended in October of 2011. Now the office is facing a potential drought season as well as a Final Order and Determination with the Klamath Adjudication. We have already seen an increase in customer service needs and anticipate

those needs to continue to grow as we near the adjudication and even more so post-adjudication.

**Budget Overview:**

The Watermaster's office has no major revenue sources and is completely dependent upon the general fund. Out of a total budget of \$77,454, only 4.1% would be considered services and supplies. The majority of the budget is made up of personnel costs at 69.6% of the budget, and inter-department transfers which include rent and administrative services totaling 26.3% of the budget.

**Significant Changes:**

Administrative costs in the area of risk management and insurance liability have had the largest impact on the 2013 budget, increasing by over 405% (\$1,310) from the previous fiscal year.

The Klamath Basin Watermaster's office continues to seek creative ways to fully satisfy the water user community on a limited budget. The need for a permanent Assistant Watermaster is becoming more necessary as water issues continue to grow in the basin. However, it is understandable that the current budget climate has made this request unfeasible. In an effort to alleviate some of the burden on Klamath County water users, I am proposing an increase in staff travel & training and supplies – office, by \$1,152 total. To offset these costs, I have cut telephone and email charges by \$1,164 resulting in material cuts of \$13 (New phone service anticipates a 40% cut and the Oregon Water Resources Department has picked up the Natural Resources Specialist email account). Furthermore, space rent has been cut by \$485 in anticipation of another department sharing the space. This will give the office the opportunity to utilize our current staff in the field by providing a rental vehicle from Public Works for invaluable training opportunities as well as opportunities to respond to water user complaints.

Overall: Administrative and Personnel costs have increased 8.9% (\$1,349) from the previous year while the overall budget has only increased 2.1% (\$1,600).

**Key Issues:**

Water in the Klamath Basin is becoming more and more sought after. There was a time when there was enough water to satisfy anyone who wanted it, but with the introduction to new and other sources requiring water, the management of the resource is becoming more complex and time consuming. The Klamath Basin Watermaster's office is beginning to see the stresses put on the water user community as they seek to sustain their livelihoods.

It is anticipated that with the Final Order and Determination of the Klamath Adjudication being delivered at the end of the calendar year 2012, the Watermaster's office workload will at least double to satisfy the regulatory requirements of the Order. If that anticipation

holds true, the office will become understaffed and Klamath water users will not be responded to in a timely and effective manner. Furthermore, key flow measurements in the basin's rivers and streams may get neglected as well. These measurements are vital to area scientists, government officials, drillers, farmers and ranchers who use this data to understand the current state of basin and plan their seasons accordingly.

## Klamath County, Oregon 2012-2013 Budget Presentation

The Klamath County budget is composed of three basic units: major program categories, departments/ funds, and in some cases subprogram.

Community & Economic Development Program - This program facilitates and stimulates the economic health of the community through development and redevelopment efforts.

260 – Community Development

760 – Surveyor

160 – Tourism

301 – Federal Forest Title III

302 – O&C Title III

785 – Economic Development

THIS PAGE INTENTIONALLY LEFT BLANK

**Department Mission:**

Work with the community to achieve and maintain quality of life by providing citizens with professional guidance and coordination, of their development activities, and fairly and consistently implement County development regulations and policies.

**Mandated Services:**

Within the Community Development Department (CDD), the mandated services that are provided to the community are resident in the Planning, Building, On-Site, Solid Waste and Recycling Divisions.

**Self Imposed Services:**

The self imposed or non-mandated services that the Community Development Department provides the community and its citizens are Code Enforcement and the County's 14 Parks.

**Department Overview:**

The Community Development Department is comprised of the CDD Admin, Planning, Building, On-Site, Solid Waste, Recycling, Parks and the Code Enforcement Divisions with a total of 50.91 FTEs. The CDD admin division is comprised of the Director, Manager, and a portion of the Accounting Specialist. The CDD Manager provides direct oversight and management of the department's/division budgets, and all payroll matters. The primary stakeholders for the CDD are the building/development contractors, realtors, development consultants, State regulatory agencies and the citizens of the County. Over the past two years, great effort has been expended department wide to cross-train all personnel. This initiative instituted by the Building Official, has enabled CDD to meet the needs of our stakeholders and the citizens of the community at a time when department staffing and operating hours have been drastically reduced.

**Successes:**

As a result of declining revenue and a sluggish economy over the past three years, CDD has had to significantly reduce its operating staff. Despite cutbacks, the impact has been transparent to our stakeholders because we have maintained a high level of customer service and have continued to meet the daily workload requirement. Also a result of declining revenue, we have had to reduce the operating hours of the department as a whole. To offset the financial impact to the individual CDD employees, the department successfully implemented the State of Oregon's Workshare Program. The aforementioned successes would not have been possible if not for the dedication and leadership of the CDD Division Managers.

**Challenges:**

By far the biggest challenge will be trying to provide a similar customer service without the previous level of funding provided by the general fund. Further, if revenue continues to decline and additional personnel cuts are necessary, it will be extremely difficult to not only maintain good customer service, but it will also be difficult to meet daily inspection loads, and meet state mandated deadlines. Additionally, if we have to let go of our talented/experienced staff, it will be difficult to recruit or replace experienced inspectors when the economy does improve.

**Budget Overview:****Major Revenue**

The primary funding source for the CDD Department comes from fees for services rendered or permits sold, currently budgeted at \$1,531,879. As part of the cuts made this year to the County's general fund, the entire general fund subsidy (\$351,256) to CDD was eliminated. To replace this loss of revenue that previously came from the general fund, \$255,255 from the Solid Waste operating budget will be utilized to fund the Planning, Code Enforcement, and On-Site Divisions. The Solid Waste Division operates as an enterprise fund; the Parks Division operates entirely from grant monies received from the State, and the Recycling Division operates based off of franchise fees received from commercial haulers.

**Major Expenditures**

For the most part, the majority of costs for CDD are in the administration and management of the Department (e.g., salaries, vehicles/fuel costs, space rent).

**Significant Changes:**

Previously the general fund provided partial support to the Planning, Code Enforcement, and On-Site Divisions. The BOCC this year eliminated the CDD general fund subsidy in the amount of \$351,256. To replace this loss of revenue that previously came from the general fund, \$255,255 from the Solid Waste operating budget will be utilized to fund these divisions at a much reduced rate. As a result of declining revenue, the reduced operating hours of CDD will continue indefinitely; along with these reduced hours will be a reduced number of weekly trips to North County and it is unlikely that in the near future the North County building office will be re-opened.

A reorganization of the administration staff shifted cost from the CDD Admin budget over to the divisions that utilize their services. Two Permit Technician positions are now budgeted directly in Building and 80% of the Accounting Specialist is now in the Solid Waste budget.

**Key issues:**

The key issue and major decision for the County and Board of County Commissioners regarding Planning, On-Site and Code Enforcement in the next few years will be whether or not the County is able to continue to provide/supplement general fund dollars to these divisions. Without

general fund dollars, these divisions will simply not be able to sustain themselves, and will either be entirely eliminated or drastically reduced in scope.

***Planning Division Mission:***

To professionally serve the people of Klamath County to support economic vitality, balance conservation with development, and achieve community land use goals.

We do this with timely and courteous service.

**Mandated Services:**

- Provide a Planning Director and maintain a Planning Department and Planning Commission to regulate the use of land within a County (ORS 215).

Meet all requirements in state law regarding Farm and Forest zones, public notice, permits, fees, hearing procedures, and deadlines (e.g., 120/150 day rule) for permit decisions (ORS 215).

- Maintain a Comprehensive Plan and implementing ordinances (Land Development Code) in coordination with local and state agencies and in compliance with Statewide Planning Goals (ORS 197).

Meet requirements of legislative Post Acknowledgement procedures and other standards (ORS 197).

- Meet requirements of state law in processing subdivisions, partitions, and lot line adjustments (ORS 92).

Coordinate with surveyor's office and clerk's office in processing subdivision and partition plats.

- Meet the requirements of numerous state Administrative Rules related to the above statutes (OAR 660-001 through 045).

**Self Imposed Services:**

- Administer the federal (FEMA's) flood insurance program as the local agency. Benefits include insurance cost savings for thousands of property owners in the County.
- Maintain a geographic information system (GIS) in order to effectively conduct the above mandated and self imposed services. Benefits include assisting the public and economic development efforts.

**Department Overview:**

Three and one-half (3 1/2) staff members, including:

|             |                                       |
|-------------|---------------------------------------|
| Director    | 1 FTE                                 |
| Planner III | 1 FTE                                 |
| GIS Planner | ½ FTE (cost split with IT Department) |
| Permit Tech | 1 FTE                                 |

All staff members are cross trained to cover the counter for answering questions or processing permits. Primary functions of the Planning Division include:

- Permit Reviews/Decisions/Recommendations
- Development Code interpretation and consultation
- Coordinate with Economic Development, Building Division, and other agencies
- Plan and Development Code updates
- Planning Commission support and training
- Administer the flood insurance program
- Public outreach & education

The Division uses tools such as the GIS and TrackIt permit system to efficiently conduct its work. The Planning Division routinely coordinates with State and local agencies in the course of their work. Planning staff members belong to the American Planning Association and one is AICP certified. The Director is a member of the Oregon County Planning Director's Association. The value of being members of these organizations is that Klamath County planners can benefit by seeing what other professionals have done so that local implementation becomes more efficient.

State law requires a final decision on land use permits within 150 days of a completed application – the Planning Division routinely issues final decisions in less than 60 days.

The long-range goal of the Planning Division is to provide the most efficient service to the public that best meets community land use goals and objectives. We are committed to enhancing our customer service, public outreach, professionalism, administration, and streamlining processes.

Much of the Planning Division's work is answering questions from the public that have no permit, and hence no revenue attached to it. That work is done by staff at the counter, through e-mails, and by telephone. The benefit to the general public of this work is supported by a contribution of general fund dollars to the budget.

**Successes and Challenges:****Calendar Year 2011**

|        |                                                                                                                                                              |
|--------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 34,800 | Number of e-mail and telephone calls to customers responding to questions                                                                                    |
| 1,412  | Number of customers assisted at the Counter                                                                                                                  |
| 502    | Number of LUCS permits (including site plans) issued                                                                                                         |
| 152    | Number of Land Use Permits (e.g., Conditional Use Permits) issued, including administrative, public hearing, and appeal processes.                           |
| 38     | Number of Code Violation cases we assisted the Code Enforcement Officer on – including research, coordination, meetings, and Court appearances               |
| 14     | Number of Planning Commission meetings – hearings and work sessions – where we prepared a staff report, made a presentation, and created and mailed a packet |
| 4      | Number of appeal hearings to the Board of Commissioners                                                                                                      |
| 3      | Number of legislative amendments to the Comprehensive Plan and Development Code processed and adopted (update of Destination Resort Map, Urban TSP, etc)     |

**Budget Overview:**

To develop the Planning Division's budget, we forecasted revenues and expenses based on previous year actual and multi-year past trends.

**Major Revenue**

Major revenue sources for the Planning Division in the past have come from the general fund (for services and benefit to the general public) and from planning fees paid for permits/service. However, this year the Planning Division is not scheduled any General Fund money and will rely on the use of Solid Waste reserves. The fees are collected for LUCS (site plan reviews) and for land use permits (e.g., conditional use permits). While the number of LUCS and land use permits has decreased, an increase in fee charges helps to balance out the expected revenue from that source. However, we are still down quite a bit in permit volume from 4 years ago.

**Major Expenditures**

Major expenditures for the Planning Division are in the administration and management of the Division, customer service (e.g., answering questions), code consultations, permit reviews and issuance, coordination with other agencies and departments, and Planning Commission support. Because of state law, appeal fees don't allow us to recover the large costs of land use appeals (including legal costs, staff time, notices, etc.).

**Significant Changes:**

Without the General Fund contribution to the Planning Division, the overall service level will be significantly reduced. Further, there is expected to be a continuing decline in permits and permit revenues – reflecting the severity of the recession. Significant reductions in staff have followed, including putting 2 of the 3 only full time staff on 32 hour work weeks.

We dropped the Planner II position as of October 1, 2011 and that reduced some of our costs, however, it was not enough to offset reduced permit and general fund revenues. We also reduced the materials and services expenditures for the upcoming fiscal year budget (e.g., significantly less travel and training). We obtained some reimbursement from the Oregon Department of Energy for planning review work related to the Biomass proposal and will receive some old Title III funds for updating Article 69 (Wildfire Siting Standards).

**Key issues:**Customer Service / Permit Issuance

The Planning Division is down from prior years where we had two to three additional staff. With only 2.5 staff, other than the Director, if someone is sick or on vacation it puts pressure on the remaining staff to conduct normal operations. With the 32 hour work week and reduced staff, we WILL be facing longer turnaround times for permit issuance and response to questions. We WILL be facing reduced office hours and a REDUCTION in customer service.

Long Range Planning: Update of Plan and Development Code

Although the Development Code has been amended numerous times over the years, there has not been a comprehensive update since the mid nineties. The Code is internally inconsistent, does not conform to the Comprehensive Plan, and is inconsistent with numerous state statutes and rules adopted over the years. The County needs to address this issue soon or it will only get more difficult to administer the Code in its existing state. We are currently working on Article 69 update (Wildfire Siting Standards), but because of daily operations and special projects (e.g., Bio-mass plant) have not completed the update.

The longer we put off doing a comprehensive update of the Development Code, the more we put future economic development projects at risk OF DELAYS & INCREASED COSTS.

***Building Division Mission:***

Protect the health and well-being of the citizens of Klamath County by ensuring safe, accessible and sustainable buildings and communities. Uniformly interpret and apply Oregon State statutes, rules, and codes regulating building construction safety, energy efficiency, accessibility and durability by means of the following core principles:

|           |                                                                                                 |
|-----------|-------------------------------------------------------------------------------------------------|
| QUALITY:  | Our processes strive for zero duplication and re-work.                                          |
| VALUE:    | Our services are provided at an equitable cost.                                                 |
| DELIVERY: | Our response times are reasonable and predictable.                                              |
| SAFETY:   | Our culture emphasizes safety and zero accidents.                                               |
| MORALE:   | We provide an atmosphere that fosters trust, integrity, respect, and celebrates accomplishment. |
| TEAMWORK: | We embrace an environment of fairness, collaboration and honor of commitments to others.        |

**Mandated Services:**

Oregon Revised Statue (ORS) 455 is the most significant chapter of law regulating the Building Division. Sections affecting operations of the local program include those relating to adoption and administration of the state building code comprised of the various specialty area including Structural, Mechanical, Electrical, Plumbing, pre-fabricated structures and parks-and-camps.

As well as ORS 455, Building Division services are conduct in accordance with various other State statutes including: Manufactured Dwellings and Structures (ORS 446); Plumbing Regulation, Access by Disabled Persons (ORS 447); Elevators and Amusement Rides (ORS 460); State Fire Marshal Authority, Electrical Safety Law (ORS 479); Explosives and Fireworks, Gasoline Dispensing, Liquid Petroleum Gas, Boilers and Pressure Vessels (ORS 480), Occupations and Professions Generally (Contractor and Design Professionals) (ORS 670); Plumbing Licensing (ORS 693).

In addition to the statutes cited above, Building Division rules are found in Chapter 918 of the Oregon Administrative Rules.

**Self Imposed Services:** None

**Division Overview:**

The Building Division is made up of a multi-discipline staff of Permit Techs, Plans Examiners, and Inspectors. Plans Examiners and Inspectors are cross-trained to perform services in a variety of disciplines. The Division has jurisdiction over the entire unincorporated County as well as serving as the building department for the five incorporated municipalities within the County. Consequently, it is the 4<sup>th</sup> largest building department in the State by land area, and the 14<sup>th</sup> largest in the State by number of service recipients. Primary functions include:

- Construction Plan Review (Structural, Fire-and-Life-Safety, Mechanical, Electrical, Plumbing, Manufactured Dwellings, Parks and Camps, etc.)

- Building Permit Processing
- Construction Inspection
- Building Code Consultation
- Public Outreach and Education
- Emergency Response (Weather/Earthquake/Other)

At peak construction levels, overflow plan review and inspection services are out-sourced to avoid unnecessary fluctuations in the number of full-time staff.

The Division's short and long range goals relate to accomplishing the Building Division Mission stated earlier. To continually enhance performance, the Division has developed specific tasks for improvement in the areas of customer service, public outreach, professionalism, administration and streamlining processes.

**Successes:**

During several years of drastically declining revenues, the Building Division has maintained key services at mandated levels by eliminating non-essential expenses such as discretionary travel, training, and office expenditures. Major reductions have been accomplished in personnel services by decreasing work hours from 40 per week to 32 per week, and most significantly, reduction of FTE's by over 40%.

Several years of investment in the development of employees from single-discipline inspectors to multi-discipline inspectors has paid dividends during these recessionary times. Consequently, the reduction in FTE's has been largely transparent to service recipients.

A new and significant revenue source has been created by providing inspections services to Lake County. This service is provided through an Intergovernmental Agreement with the State of Oregon. This has resulted in approximately \$13,000 of revenue this FY to date.

A second new revenue source is a third-party inspection agreement with One-Build, a local prefabricated structure manufacturing facility. This partnership is just starting to generate revenue and should bring more consistent monies, including during periods when site-built construction activities are slow.

**Challenges:**

Significant challenges include:

- No Division Reserves – Pre-recessions reserves have been depleted
- Maintaining Multi-Discipline Staff – Upcoming significant project- Klamath Falls Bioenergy Facility
- Training and Certification Expenses – Mandated continuing education expenses continue for key staff
- Dwindling Vehicle Replacement Reserves – Vehicle reserves have been tapped to use for Division operating expenses

- Increase Fuel Cost and Maintenance of Aging Fleet – Vehicles are aging, increasing maintenance costs and reducing reliability
- Closure of North County Field Office – Lay-off of North County inspector and closure of field office necessitates more travel from Klamath by other inspectors
- Funding of Code Enforcement – Revenues collected from “investigation fees” do not offset contribution to Code Enforcement officer function

**Budget Overview:**

The Building Division is dedicated fund, receiving revenue only from fees for plan review and permits for construction activity. Specifically work from building construction, mobile home installation, and electrical, plumbing, mechanical, and medical gas work. Therefore, revenues are 100% dependant on the construction industry. Revenues and expenses forecasted on both previous year actual and multi-year past trends.

**Revenue**

Nearly all revenue into the Division is from construction permits and plan reviews. These make up approximately 70% and 25% of revenue respectively. Contracted inspections in Lake County and administrative fees for collection of school construction excise tax each made up about 2% of past year revenue. The remainder is from interest and minor miscellaneous fees.

**Expenditures**

Personnel services costs (direct and indirect) make up about 87% of the Divisions expenditures. Administrative services transfer and space rent make up about 5%, vehicle cost 3%, required continuing education (travel, registration, books, licensing, etc.) 1%, software support 1%. The remaining 3% is spread among general office expenditures such as supplies, credit card fees, phones, postage, and office machines.

**Significant Changes:**

As indicated, there has been a drastic reduction in revenue in the past several years, and well below our tracking of the 14-year baseline average. There are several large upcoming commercial projects that may result in a significant revenue surge in the next year. In an effort to balance both maintaining the required skills for forecasted work, and responding to current revenue shortfall, the division is maintaining a 32-hour work week and has transferred funds from vehicle reserves to the operating budget.

In the past the Building Permit Technician staff of two were paid through the CDD Administration budget. The Building Departments budget was then charged through part of their admin fees to cover the salaries. This year the two Permit Technicians salary costs were taken out of the CDD Administration budget and put in as a direct cost in the Building Division's Personnel Service. This change results in a significant increase to personnel services and an equal offsetting decrease in the CDD Administration fees.

**Key issues:**

- Maintaining Adequate Resources to Accomplish Mandated Services
- Cost of Servicing North County
- Rebuilding Division Reserves
- Cost of Mandated Training / Re-certification
- Depth of Certain Resources (commercial plumbing) / Additional Cross-training
- Onerous Certification Processes (commercial plumbing and electrical)

***On-Site Division Mission:***

The On-Site Program's mission is to protect water quality and public health by enforcement of the OAR & ORS in regard to commercial and residential on-site sewage treatment systems.

**Mandated Services:**

On-Site manages the state DEQ program for Klamath County, performing essential property development, and public health related services pertaining to OAR Chapter 340, Divisions 071 & 073, and ORS 454.605-454.755: The key services provided to the community under these mandates are:

- **SITE EVALUATIONS-** Soil evaluations are conducted on sites to determine feasibility for septic system function on the property. The evaluation will determine whether a system can be approved, and if so, the type and size of the system. (OAR 340-071-0150) (ORS 454.755)
- **SEPTIC SYSTEM INSTALLATION PERMITS & INSPECTIONS-** A system must be permitted before the installation, in order to insure it is being installed according to regulations. The permitting process includes a review of the Site Plan, the Planning Department's Land Use Compatibility Statement (LUCS), and the previously conducted Site Evaluation. Once the system has been installed, and is ready for inspection, the installer notifies On-Site by submitting a Final Inspection Request form. By regulation, On-Site must complete the inspection within 7 days. (OAR 340-071-0160) (OAR 340-071-0170) (ORS 454.655) (ORS 454.665)
- **AUTHORIZATION INSPECTIONS-** On-Site inspects existing systems for proper function and condition when there is a change of use of the system, or when a residence is disconnected and another is to be reconnected. This helps manage the repairs of malfunctioning systems. (OAR 340-071-0205)
- **COMPLAINT INSPECTIONS-** All signed complaints involving On-Site Septic Systems are investigated. Upon investigation, these are often found to be Imminent Health Hazards involving open sewage, potentially endangering public health and ground water. These type situations often require court citations and court hearings, in order to insure the problem is remedied. Significant time and resources are usually required for these investigations, far exceeding the revenues generated by the repair permit for the system. (ORS 454.635) (ORS 454.640)

**Self Imposed Services:**

**Customer Inquiry Review-** File research and review is conducted at the request of a customer, in order to determine the location or existence of a septic system. We charge for any copies needed, but otherwise no revenues are generated from this unless it requires a substantial amount of time to complete.

**Division Overview:**

All field employees conducting Site Evaluations are required to be registered by the state as Environmental Health Specialists (EHS), with an emphasis in the area of Soil Science and On-Site waste disposal. Any EHS working in the On-Site program is required to have a degree in the life sciences, as well as a certain number of credit hours in the soil courses, creating a rather specialized hiring prerequisite. These base requirements create a scenario where qualified employees are often difficult to recruit. Continuing Education is also a requirement for the state registration, which requires budgeting in time, and revenues.

On-Site's main focus is to emphasize customer service while enforcing regulations to protect the health and water quality of Klamath County citizens. Our long range goals are to continue to efficiently conduct services in Klamath County, in order to provide convenient and responsive turn-around time for customers desiring to pursue land development projects. Also, to continue to logically and fairly apply state regulations in such a way to protect all citizens of Klamath County, while still providing customers freedom and options in their property development goals.

**Successes and Challenges:**

Challenges continue in the area of revenue reductions during this difficult economy. We are challenged with meeting customer service needs with a staff that has been reduced down to 1.3 FTE. With personnel costs being the main expense for the program, we have reduced our Permit Technician to 0.5 FTE, with the Building Dept. sharing the other 0.5 FTE. The On-Site Manager has also picked up the duties of all field inspections, while still maintaining the managerial duties, after taking a reduction in hours from a 40 hour work week to a 32 hour week.

Vehicle reserve funds have been utilized in the past couple of years to supplement expenses, and as result, this fund has been drastically depleted.

In spite of the scheduling challenges brought on by the staff and hour reductions, we are continuing to benefit Klamath County with the convenience of the county offered services. Thus eliminating the property development delays associated with long distance DEQ sign-offs, permits, and inspections, as well as the expense of higher DEQ application fees for most services. ***Current fees at DEQ for a Site Evaluation and Standard System Permit start at \$1,680; similar permit and inspection with the county are currently at \$1,395.***

**Previous Year**  
**Fiscal Year 2010-2011, July – February**

|                                     |                   |

| <b><u>TOTAL APPLICATIONS</u></b>    | <b><u>215</u></b> |
|                                     |                   |
| <b><u>COMPLAINT INSPECTIONS</u></b> | <b><u>10</u></b>  |
|                                     |                   |

**Budget Overview:**

The On-Site Program, in the past, has been totally fee supported by application revenues, however, during the economic downturn has needed to rely on supplements from other sources in order to maintain continued local operation.

**Major Revenue**

Major revenue is generated by application fees, which are dedicated funds. With application volume drastically decreasing in each successive year for the past few years, On-Site has reduced personnel costs to the lowest limit possible, by cutting employees and employee hours.

**Major Expenditures**

Major Expenditures are state DEQ surcharge fees, personnel costs, and vehicle maintenance/fuel. We have reduced some of the basic costs by limiting travel for training and CEUs, and limiting supply purchases to bare essentials.

**Significant Changes:**

- On-Site will have a 5% fee adjustment starting on July 1, 2012.
- Reduction in staff to 1.3FTE, as well as hourly cuts made by reducing Permit Tech to .5 FTE, & reducing EHS/Manager to 32 hour work.
- Leasing & future sale of surplus vehicle will add \$14,500 to year-end revenues

**Key Issues:**

- Customer service issues due to limited staff, and reduced work hours
- Permit Technician splitting time and budget with Building Dept.
- Revenue shortfall
- Depleted vehicle reserve fund

Lower revenues in successive years have created a need to continually search for ways to overcome the shortage. Budget and personnel have already been cut to the bare minimum, and supplemental funds are necessary in order to keep the program operating locally.

***Code Enforcement Division Mission:***

To preserve and protect the health, safety and livability of the community by ensuring compliance with the County's land use, environmental and building codes.

**Mandated Services:** None

**Self Imposed Services:**

Klamath County is not required to have a Code Enforcement Division (CE); the decision to staff, fund and operate the CE division was made by the Klamath County Commissioners. Though not a mandated service itself, CE enforces the ORSs, regulations and policies of the other divisions within the Community Development Department that are mandated services. The key policy documents that govern how the Code Enforcement Division operates are:

- Klamath County Land Development Code
- Klamath County Code Enforcement Policy and Procedures Manual

**Division Overview:**

The CE Division is staffed by one FTE (Code Enforcement Officer). The Code Enforcement Officer reports directly to the Community Development Director. The Code Enforcement Officer is cross trained to understand the basic functioning and policies of the Building, On-Site and Planning Divisions. The Division uses the TrackIt system to efficiently monitor and track all code enforcement cases. On a case by case basis and as necessary, the code enforcement division utilizes building inspectors to augment the code enforcement staff.

The Key Services provided by CE are:

- Services a total area over 6,000 square miles
- Uphold the Klamath County Ordinances, Land Development, Building, and Environmental Codes
- Development Code interpretation and consultation
- Public outreach & education

- We strive to work with citizens and get them to come into compliance on noted code violations; however, occasionally we do have to issue citations to citizens and go to court to resolve the issue.
- We work closely with other government agencies such as DEQ and DMV, as well as local business in the County for abatement projects.

**Successes:****Calendar Year 2011**

|       |                                                                                                                                                                                                   |
|-------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 205   | The number of new code enforcement cases opened this year.                                                                                                                                        |
| 169   | The number of code enforcement cases resolved and closed out this year.                                                                                                                           |
| 28    | The number of building code violation cases.                                                                                                                                                      |
| 101   | The number of planning land use violation cases                                                                                                                                                   |
| 69    | The Number of Code Violation cases that fall under the nuisance category. Includes case involving abandoned vehicles, excessive trash and rubbish on a property, and over grown lawn/weeds/trees. |
| \$550 | Amount of revenue year to date from citations issued.                                                                                                                                             |

**Challenges:**

Prosecuting code enforcement cases in the Klamath County Circuit Court continues to be a challenge. If we are successful in obtaining a judgment in the County's favor, quite often the judgment awarded does not come close to recovering the resources expended on the case even though this information is presented during the trial. The code enforcement division is almost always more successful in prosecuting a case when complainants/citizens are willing to testify on behalf of the County. Hence, we do not act on anonymous "nuisance related complaints" called in to the Code Enforcement Officer. Collecting on assessed fines also continues to be a challenge; for delinquent accounts, the CE Division has a contract with Carter Jones.

**Budget Overview:****Major revenue**

The primary funding source for the CE Division comes from the general fund; additional funding comes from fines paid and the building division. Specifically, the building division funds the CE Division about \$11,500 annually.

**Major expenditures**

For the most part, the only costs/expenditures for the CE Division are in the administration and management of the Division (e.g., salaries, vehicle and fuel costs. The County no longer funds the abatement of properties.

**Significant Changes:**

Since 2008, Klamath County has gone from having three Code Enforcement Officers to the current one Code Enforcement Officer we now have. Needless to say, with the expansive geographical size of Klamath County responding to complaints county-wide will continue to be

real challenge, and requires a process be implemented to prioritize case load. The prioritization of cases is as follows:

- 1) Immediate threat to life safety, public health or poses an environmental danger or hazard.
- 2) Unpermitted work (Septic/Building) and other building code violations.
- 3) Land use or planning violations.
- 4) Nuisance complaints e.g. abandoned vehicles, trash/rubbish, overgrown weeds and lawns/trees. As previously mentioned, we will not respond to anonymous nuisance complaints; for action to be taken on any general nuisance complaint, a written complaint form must be filed by the citizen.

Senate Bill 915 took effect in January 2010. The legislation affects any municipality that administers a building inspection program. The bill restricts a municipality's monetary penalties for violation of the state building code to civil penalties assessed through an administrative process. The County may no longer issue citations to municipal court for building code violations. Under the bill, if a municipality assesses a civil penalty, the municipality must have an administrative method for the party to challenge the penalty. The process would involve a hearings officer or equivalent administrative process. The challenge cannot be heard by the building official.

**Key issues:**

The key issue and major decision for the County and BOCC regarding code enforcement in the next few years will be whether or not to we continue to fund this non-mandated service. The code enforcement division provides a valuable service to the community, but it will never be able to sustain itself, and it will continue to remain dependent on the dwindling resources of the general fund.

THIS PAGE INTENTIONALLY LEFT BLANK

**Department Mission:**

To provide the citizens an organized facility to research the surveying records and to provide for the safe keeping of the public records filed in the Klamath County Surveyor's Office. Perform the surveying services required by state statute in a professional, efficient and timely matter.

**Mandated Services:**

The County Surveyor is required by Oregon Revised Statutes to provide 24 different mandated services to the public. In summary, he must conduct surveys of county land and roads when a court orders so. The County Surveyor is required to review, approve and file survey maps, subdivision, partition and condominium plats. Index all maps, plats, road records and preserve them as permanent records and make them available to the public. Establish or reestablish all public land survey corners. I have user fees in place to cover all the mandated services.

**Department Overview:**

The Klamath County Surveyor's Office serves the public by:

Checking private survey maps for compliance with Oregon statutes and file them in the Surveyor's Office as public records.

Assist the public and other county departments with interpreting legal descriptions, road right of ways records and general surveying research.

Review subdivision, partition and condominium plats for compliance with Oregon statutes and the Klamath County Development Code. Index and file exact copies of the plats for public record.

Recover, restore and preserve original Public Land Survey System (PLSS) corners.

**Successes and Challenges:**

Each year we are scanning more survey related information and making it available online for the public to use in research of their property. We have started our own survey record index that hopefully will be completed sometime in 2013.

With being a part time surveyor and utilizing the local surveyors, we are averaging reestablishing 50 corners per year with our Public Land Survey System (PLSS) program. PLSS corners are section corners,  $\frac{1}{4}$  corners, meander corners or any other corner established by the Government Land Office (GLO).

**Budget Overview:**

The County Surveyor is an elected, part time position (.3 FTE). It is funded 100% by user fees.

The **761-SURVEYOR** (mandated services portion of my budget) is funded by the revenue generated from checking and recording survey maps, partition plats and subdivision plats. I average 120 survey maps, 45 partition plats and 5 subdivision plats a year. The past two years I have been down approximately 20% from revenue from survey maps and partition plats and 100% down on subdivision plats.

The **762-PUBLIC LAND CORNER PRESERVATION FUND** is funded by a \$5.00 fee collected for each deed or recorded document that is related to land transactions which are recorded in the Clerk's Office. **ORS 203.148** allows counties to establish this dedicated fund for the corner work, and Klamath County established our fund in 1988. By statute, the fee collected can only be used in the establishment, re-establishment and maintenance of PLSS (Public Land Survey System) corners.

Klamath County is +/-6130 square miles and consists of 181 Townships with approximately 135 corners per Township for a grand total of 24,000 corners. I do the work in house and also contract out some of the work to the local surveyors. The work is perpetual because of the maintenance required to preserve the corners.

**Significant Changes:**

**No overall budget changes** – was a 50/50 split between surveyor and corner restoration, and now it is a 75/25 split because of the loss of property sales revenue. Also anticipate less revenue from user fees until the economy picks back up.

**Key issues:**

Per Oregon Revised Statute, the Surveyor's office can be funded entirely through the general fund of the county.

Three years ago, to prepare for the future, the Surveyor's budget was removed from the general fund and set up to operate using 100% user fees. The long range plan is to have enough net working capital within the next 2-3 years to manage the surveyor's office **consistently** and **efficiency** even with any future economic downturns. This would be a huge benefit to the public using the Surveyor's Office.

Klamath County, Oregon

The primary revenue source for this fund is a transfer from the transient room tax fund. The purpose of this fund as described in Klamath County Code Section 603.610 (2)(c) is to be used for the Tourism Promotion Grants Program, which will establish a competitive grants program for the promotion of tourism and conventions in Klamath County. The grants will be solicited competitively and the Board of County Commissioners will decide by application the disbursement of the grant funds.

## Organization:

### Discover Klamath Visitor and Convention Bureau

## FY / CY 2012 Adopted Budget

### Organization Mission:

#### Mission Statement

Discover Klamath strengthens Klamath County's economy  
by attracting and encouraging visitors and residents  
to experience the Klamath region  
by promoting our unique natural environment,  
vibrant cultural communities and rich heritage resources.

### Organization Overview:

Discover Klamath is the official tourism agency for Klamath County, Oregon. Put simply, our role is to be the County's chief cheerleader – *outside the county*. We promote our County extensively and comprehensively to encourage tourism, leading to more heads-in-beds, shopping, and other spending with our county's merchants, events, destinations, and other venues.

### Request Proposal:

Discover Klamath receives funding from Klamath County, receiving a portion (approximately 20%) of the (approximately) \$1.25MM hotel/lodging taxes collected. The majority of these funds go directly to marketing Klamath County in neighboring regions. In 2011, 55% of the Operating Budget was spent directly on out-of-county marketing. In 2012, that figure is expected to increase by \$8,000, although as a percent of total operating budget it will slip -2 pts to 53%.

Here is an overview of how Discover Klamath will spend its funds in 2012 –

## Organization:

### Discover Klamath Visitor and Convention Bureau

## FY / CY 2012 Adopted Budget

### Successes and Challenges with Prior Year Funding:

Discover Klamath (DK) promoted Klamath County 52 weeks in 2011, with heavier marketing from May through September. DK used a variety of marketing approaches, including cable and network television, radio, web advertising, print advertising, public relations, tradeshow, cooperative advertising, and more. Fifty-five percent of our group's operating budget went directly to placement of advertising.

Among key achievements the group realized in 2011 included:

- Built solid base within regional (SOVA) and statewide (Travel Oregon) travel organizations, including holding a Board position in the Southern Oregon Visitor Assoc.,
- Maintained a stable, increasingly respected tourism organization within Klamath County with an earned reputation as a strong marketing partner, a good collaborator with other groups, and an entity with a clear sense of mission and bias for action to promote the entire county,
- Developed Klamath County brand persona and voice, along with the tagline of "Oregon Unexpected". Using this in conjunction to market all assets of Klamath County and the Klamath Basin, including taking ownership for being "Home Of Crater Lake",
- Achieved over 20MM Gross Media Impressions in 2011, an increase of nearly 5MM (33%) versus 2010 – (an "Impression" is a person that saw an ad or article about Klamath County, initiated by Discover Klamath),
- Supported/Sponsored over 15 events in 2011; including: Klamath County Museums, Snowflake Festival, Winter Wings Festival, Klamath Blues Festival, The Rip City Riders, State Chili Cookoffs, Wing Watchers, Running Y Ranch, North Klamath County, and others.
- Initiated and developed relationships with both the state travel organization (Travel Oregon) and the Southern Oregon Regional travel organization (SOVA).

### Significant Changes:

No significant changes in our approach are expected. The group will continue to:

- Market the county using a spectrum of available mediums, with a great mix of internet in 2012 versus prior years (approximately 18% of our media mix vs. 12% in 2011),
- Promote in Partnership with the county's top established and emerging events, along with key destinations, all with the goal of creating interest in visiting and staying,
- Continue to focus the majority of marketing efforts within a regional area extending from the Bay Area up through the Willamette Valley,
- Use more volunteers as a means of getting more work done,
- Expand County/Brand awareness among the Travel Trade (B2B.... Travel Agents, Tour Operators, etc...), as well as seek out and encourage more small-convention business,
- And finally, maintain consistency in DKs "In-County" outreach efforts, designed to educate local citizenry about the many recreational and cultural opportunities nearby.

**Title III-County Funds**

Title III funds may be used to carry out activities under the Firewise Communities program, to reimburse the county for search and rescue and other emergency services, and to develop community wildfire protection plans.

Counties allocating funds for Title III projects must annually submit a certification that the funds were used in accordance with Title III.

The authority to initiate Title III projects terminates on September 30, 2011. Funds not obligated by September 30, 2012 must be returned to the Treasury.

## KCEDA/TEAM KLAMATH

The Klamath County Economic Development Association

April 11, 2012

To: Klamath County Budget Committee

Fm: Trey Senn, KCEDA Director

Re: Economic Development Activities –January –March--2012

Thank you for the opportunity to update this committee on Development and Klamath County activities in the last Fiscal Quarter

No one in the room needs to be informed that the economy of the last several years has been as difficult as anything we have seen since the Great Depression; while faced with these challenges KCEDA has remained optimistic and has been diligent in its efforts to continue economic development in Klamath County.

Only a few years ago---Klamath had—and still has-- the well justified title of “Economic Development at the Speed of Business” and we earned that title throughout Oregon by making excellent projects get built as fast as possible; with companies such as ESI—which built a 70,000 sq ft facility here in the time it took to get permitting to renovate their kitchen in Portland, Sykes and then NEW, IFA Seedling, and Environmental Component Systems ---ECS set a “Gold Standard” that I doubt will ever be broken---less than two weeks from first contact to groundbreaking---AND not only just new companies---but giving fast assistance to existing plants such as MCX, Sturdicraft, and Freemont Millworks.

Project: PDQ

This is precisely what we are working for with MASCO----immediately upon their notification of closing the facility down---very similar to Sykes---I contacted the public Relations Manager and thanked them for their decades of service to the community, AND noted KCEDA and TEAM Klamath wanted to help market the facility.

You see to me---this is a function of capitalism—private enterprise wins AND loses---I had so many people call and tell me what a shame it is that Masco was closing down---but to me this 200,000 sq ft facility is not only a tragedy but an

Phone: (541) 882 – 9600 • Fax: (541) 882 – 7648 • PO Box 1777 • Klamath Falls, Oregon 97601

e-mail: [kceda@fireserve.net](mailto:kceda@fireserve.net) • [www.sobusi.com](http://www.sobusi.com)

opportunity---this excellent facility is a welcome mat for those private industries that want to buy an outstanding plant and continue hiring not only rehire those 51 but hopefully hundreds more. I am pleased to note MASCO does want to sell the plant but also with KCEDA and TEAM Klamath help market it---and we are having teleconferences every other week until the plant is back in production and employing we hope, hundreds of employees. We are calling this Project: PDQ and hope to achieve the same excellent results.

Just like Sykes to NEW—we WILL transform from Masco to \_\_\_\_? Hopefully we can do it quickly like NEW—where some of the employees at Sykes went to work with NEW and never lost a single paycheck.

By the way one of the things I have been doing is meeting with an outstanding company in the Portland area to buy Masco and build a simply amazing product here.

Some Things do take longer-but they are so worth it-Indeed for the first time in my career and in the history of Klamath County--I can tell you we are looking at over \$2,125,000,000 in new investments—an astonishing figure that will simple take us from a have not to a have county!!

NO one in Klamath County has ever been able to say that powerful figure before!

### Klamath is a Health Care Cluster with well over 1,000 employees

As you know Klamath was approached by the health care community over three years ago to stabilize this Giant of a business—and we immediately added them to our “Goals & Objectives”

First up was Sanford Children’s Hospital---and again as you know we were in a World Wide battle to have a clinic awarded here---we eventually “won” that year along with Ireland & Costa Rico---this was a result to great good fortune but frankly no luck—we earned this one and we will have the ribbon cutting this September.

### Sanford Children’s Clinic

KCEDA & TEAM Klamath/Commissioner’s Switzer & Hukill included, first met with the Representative from Sanford in April of 2009---and toured him around the Community the entire day---I think we all thought we had them then---especially after Commissioner Hukill and Toby Freeman and I flew to their World Headquarters in South Dakota the next month. It has taken us almost three years of diligent work, and fund raising, but as the pictures show the facility is being built as I speak and should be ready from occupancy around September; not only enhancing one of our primary Goal & Objectives—Health Care, but in this case,

simply put, saving pediatric health care in the Basin--three long years but WE did this!!

### **Just as Klamath is a Medical Cluster, Klamath is and will be a Power Generation Cluster**

We may not have an interstate but we are the North South Gas & Electrical Interstate for the entire West—and we must have more on ramps and off ramps on our “interstate” to make money and hire people—and that’s just what we are doing!---and YES! We targeted Power Generation

### **Klamath Bio-Mass Facility**

Last week was the last informational hearings on this \$125,000,000 facility which will be the second largest investment in Klamath County— it could be permitted by next month. KCEDA has worked for over almost two years with the bio facility.

### **Swan Lake North Pumped Storage Facility**

If we are very fortunate about time the Bio-Facility is completed, we can start work on the \$2 Billion Pumped Storage Facility.

We have no idea what \$2Billion would mean—it is such a staggering sum—we do know it will be all good! (By the way—KCEDA has worked quietly with Swan Lake North for over 3 years to get where we are today)

### **DATA Storage**

This is a huge new industrial potential for Klamath---Please note the proposed *Data Storage Community Profile* we are finishing. We would like your feedback—we target these companies as they are looking in Oregon. Explanation of finding a Data Storage Facility that “fits” Klamath.

### **Updating KCEDA’s “Goal & Objectives: (enclosed)”**

**Commercial Development** While we have successfully targeted major “Big Boxes” in the past, we have learned that to continue in this endeavor we must have one or two major investments “wins” such as the companies above to continue success in Commercial Development.

**GIS Mapping Project**—KCEDA has received a grant to conduct GIS Mapping of some ten sites—commercial and industrial that should help in electronically advertising ourselves to the outside World.

**Conclusion**—KCEDA and TEAM Klamath has never worked harder with less State and Federal Funding available and under such difficult circumstances and I will be pleased to answer any questions.

*Klamath Castle*

*Ground Breaking September 9th, 2010*

## **Klamath Falls Bioenergy & Northwest Energy Systems Company LLC**

### **Klamath Falls Biomass Project**

**Overview:** Klamath Falls Bioenergy is developing a 38.5-megawatt biomass facility that will efficiently burn wood waste to produce electricity to serve about 35,000 homes and generate an economic impact of about \$500 million for Oregon and the Klamath Basin.

#### **Economic benefits:**

A study by respected analytical firm The Beck Group indicates the project will produce:

- **329 construction jobs** and a **\$30.3 million construction payroll**
- **\$12 million** in locally purchased equipment and **\$9.3 million** in locally purchased goods & services during construction
- **192 permanent family-wage jobs** and **\$12 million annual payroll** extending over the 20-year operation of the plant
- **\$14 million** in forestry and trucking equipment purchased for fuel collection and transportation
- **\$6 million annually** in purchased goods and services
- **More than \$30 million** in income and property taxes paid

#### **Additional benefits:**

In an area where the timber/forest products industry has long been a sustaining element of the economy and quality of life, this project will:

- **Improve forest health** by making use of wood waste that otherwise can be detrimental to forest health as fuel for wildfires, removing immature growth to reduce overcrowding that prevents trees from growing to full maturity and reducing the threat of the spread of aggressive insects such as the mountain pine beetle.
- **Reduce the need for slash burning** and, with waste wood burned in the boiler rather than in slash burns, cut particulate matter released to the air from this material by at least 98 percent.
- **Supply renewable electricity** to help utilities meet federal and state mandates for renewable energy and also reduce dependence on fossil fuels.
- Along with geothermal, solar and other projects, **continue to establish Klamath County as a prime location for renewable energy development.**

#### **Regulatory status & schedule:**

State regulatory agencies including the Oregon Departments of Energy and Environmental Quality are reviewing the project; construction could begin in summer 2011.

#### **The companies:**

Klamath Falls Bioenergy, LLC is a subsidiary of Northwest Energy Systems Co. LLC (NESCO), an **experienced builder and operator** of energy plants and other facilities. NESCO is part of the NESCO Group, a family-owned and operated company and subsidiaries based in Bellevue, WA, dating back to the 1930s. NESCO has focused its energy business on alternative and renewable energy plants, including plants fueled with natural gas and biomass, and cogeneration plants that produce energy and also capture waste heat that can be beneficially used by processing industries and other businesses. *For more information, contact Bruce Thompson at 425/457-7484.*

# Swan Lake North Pumped Storage Hydroelectric Project

## What Swan Lake North is:

- The Swan Lake North Pumped Storage Hydroelectric Project is a closed-loop hydroelectric project that minimizes water use & environmental impact.
- Swan Lake North will recycle water between two adjacent man-made reservoirs at different elevations to generate clean hydroelectric power.
- Swan Lake North will use surplus power to store energy in the form of water pumped and stored in an upper reservoir, which can then be released through turbines to a lower reservoir, creating energy when needed. The project will have the capacity to deliver 1,000 megawatts of electricity for up to 10 hours a day.
- Swan Lake North is a benefit to the local economy, generating approximately 300 temporary jobs during the three-year planning and construction phase and up to 60 permanent jobs once the system begins operations. Swan Lake North will generate an estimated \$20 million dollars a year in local tax revenue.
- Swan Lake North is environmentally friendly and will create two new reservoirs in the Swan Lake Valley, an ancient lake bed. The Swan Lake North project has passed all environmental tests to date.

## What Swan Lake North is not:

- Swan Lake North is not as disruptive to the environment as traditional hydroelectric projects and will not dam, obstruct or disrupt any natural rivers or lakes. Ground-water sources will be used to maintain reservoir levels. The project will not disrupt the flow of water to farmers.
- The Swan Lake North Pumped Storage Hydroelectric Project is not a government project. No Federal or State Funds will be used for construction or operation of the project.

*Above: Artist's rendering of the lower reservoir and transmission corridor.*

[www.riverbankpower.com](http://www.riverbankpower.com)

# A Proven Technology

- There are over eighteen Pumped Storage Hydroelectric projects in the United States alone, with many more facilities located world-wide.
- Pumped Storage Hydroelectric projects have been in use in the United States since 1967.
- Pumped Storage Hydroelectric projects can be used to supplement other intermittent green sources of electric power such as solar and wind power.
- Pumped Storage Hydroelectric projects are like an energy bank - using surplus power generated by other means, during periods of low demand to pump water from the lower reservoir to the upper reservoir, where it is stored and later used to generate power during periods of high demand, or when other sources of green power such as solar or wind power, are nonfunctional.
- Swan Lake North will require only one single-pole transmission line corridor approximately 33 miles long to deliver power to the existing power system similar to the one pictured here.
- Swan Lake North will not obstruct any natural lakes or rivers and will benefit wildlife through the addition of two new reservoirs in a rural setting that was once the site of a natural lake.

## Pumped-Storage Hydroelectric Plants in the United States

## Klamath County, Oregon 2012-2013 Budget Presentation

The Klamath County budget is composed of three basic units: major program categories, departments/ funds, and in some cases subprogram.

Community Services Program - These are public services provided to the citizens of the county.

552 - Museum

570 - Parks

593 - Fairgrounds

712 - Law Library

THIS PAGE INTENTIONALLY LEFT BLANK

**Department Mission:**

The Klamath County Museum preserves and protects the county's artifacts, museum buildings, historic sites, written and oral histories, and traditions. It also works to educate the public about the value of these resources.

**Mandated Services:**

Self-Imposed: Klamath County owns three properties listed on the National Register of Historic Places. The Klamath County Museum is the repository for numerous county records, including tax records, court records and files, maps, aerial photos and numerous types of miscellaneous county-generated records.

**Department Overview:**

The Museum Department oversees the maintenance and operation of three county-owned historic properties and collections stored inside the buildings. The Klamath County Museum (main museum) is housed in the 1935 Klamath Armory/Auditorium building. The Baldwin Hotel building, constructed in 1905, was acquired by the county in 1977, and has been operated as a museum since 1978. The eight-acre Fort Klamath Museum, acquired in 1966, takes in the heart of the parade grounds from the frontier military post that operated from 1863 to 1889.

**Successes and Challenges:**

Museum attendance over the past few years has averaged about 6,000 per year at the Klamath County Museum, 4,000 at the Fort Klamath Museum and 1,500 at the Baldwin Hotel Museum. The museum department has expanded special programs and presentations, including many held off museum property in the community. Attendance at special programs in 2011 totaled 3,175 people. The museum has an agreement with Amtrak to provide trained docents on the Coast Starlight train between Klamath Falls and Eugene. Amtrak docents served a total audience conservatively estimated at 7,000 passengers in 2010.

Under the category of challenges, the leading problem facing the museum is the fact that the county has not hired professional museum staff for many years. While the county owns extensive museum properties and collections, and has benefitted from the efforts of dedicated amateur staff and volunteers, the county's record of museum administration, maintenance, long-term planning and collections care comes in far below modern standards for museums. The county has no climate-controlled facilities for preservation of archives or artifacts. Security systems are badly outdated.

**Budget Overview:**

Major revenue sources for the Museum consist of transient room tax, a three-year property tax levy at the rate of 5 cents per \$1,000 of value, grants, donations and gift shop sales.

Major expenditures consist of personal services and material costs consisting of restoration items, cataloging items and utilities.

**Significant Changes:**

Increased charges for insurance and risk management constitute the biggest change in the museum budget, jumping by about 185 percent and consuming about 10 percent of the department's budget. One position is being increased from 0.48 FTE to 0.75 percent.

**Key issues:**

The Museum is nearing the end of the first year in a three-year levy to fund museum operations. Priorities for this new revenue include: 1, Eliminate budget deficit. 2, Replenish reserve funds. 3, Address deferred maintenance. 4, Extend outreach to schools. 5, Reduce cataloging backlog and continue computerization of old museum records.

Department: Community Development  
Parks Division

FY 2013 Proposed Budget

**Division Mission:**

The Klamath County Parks Department provides and maintains public facilities for outdoor recreation and provides access to other public land which offers opportunities for dispersed outdoor recreation.

**Mandated Services:**

None

**Self Imposed Services:**

Klamath County elected to offer Parks services to the public. The Parks are funded by the Oregon State Marine Board and the Oregon Parks and Recreation Department. A condition of funding is that Klamath County adheres to the rules outlined by the above mentioned authorities.

**Department Overview:**

Klamath County has 14 County Parks conveniently located throughout Klamath County encompassing 1,125 acres. These parks are designed and funded as water way access for fishing and hunting. Klamath County Parks' services are free to the public.

There are 31 camp sites that offer potable water, restroom facilities, fire pits and parking. These sites receive maintenance twelve months a year.

One 0.90 FTE and one seasonal employee maintain the entire park system; they are responsible for the grounds maintenance, drinking and sprinkler water system maintenance, sewer system and floating restroom maintenance. Mandatory training and certifications include Small Water Systems Training, Threat Assessment and Emergency Training and Boating Facility Workshop.

Klamath County maintains 8 motorized pieces of equipment that include mowers, trucks and trailers and a 19' boat (for the floating restroom maintenance). Park access is open twelve months a year; however the water systems are shut down in the fall for winterizing. Portable toilets are rented and placed for use during the winter months at some locations.

**Successes:**

Klamath County has received \$1,335,000 Facility Grant Funds for park improvements. These improvements included new ramps, floats, parking areas and restrooms at several of the water access parks around Klamath Lake.

The Barkley Springs restoration project goal was to enhance the waterway to aid endangered fish species. This project is located at Hagelstein Park and is completed. The funding came from the Oregon Department of Fish and Wildlife in the amount of \$222,450. The Bureau of Reclamation in the amount of \$300,000 and the Klamath Tribes in the amount of \$22,500.

Department: Community Development  
Parks Division

FY 2013 Proposed Budget

Klamath County, the U.S. Forest Service and the Oregon State Marine Board entered into a three-party cooperative agreement to pass through grant funding in the amount of \$66,250 for the Princess Creek Boating improvements.

The Oregon Institute of Technology Environmental Science Program volunteered to create a Parks map. The map is completed and exceeded our expectations.

10 Local businesses donated free services and materials to repair and upgrade Stevenson Park after it sustained major vandalism damage.

**Challenges:**

The Hagelstein Park restroom needs to be replaced; a grant application has been submitted to the Oregon State Marine Board for a new CXT 2 stall vault restroom.

The engineers cost estimate provided from the Oregon State Marine Board is \$58,000. The Klamath County Parks in-kind is estimated to be \$19,850 (labor); the grant application is scheduled to be reviewed by the Oregon State Marine Board in April 2012.

Vandalism causes unexpected expenditures above normal maintenance costs. Local businesses have contributed free materials and services to offset this issue. This is a State wide problem and we are communicating with other municipalities to share ideas and solutions to vandalism.

**Budget Overview:**

**Major Expenditures Parks**

One 0.90 FTE multi-discipline staff operates the Parks Department, this employee possesses skills in electrical, plumbing, building construction, concrete, sewer/water systems and equipment maintenance. Seasonally an employee is hired to assist with the parks maintenance. A transfer of \$30,000 goes to the Parks vehicle reserve each year for future equipment replacement.

**Major Revenue Parks**

The Parks Division is funded by the Oregon State Marine Board Maintenance Assistance Program for our water access parks; the annual amount received is \$28,600. An annual report is submitted for approval in order to qualify for this funding.

Annual funding from the Oregon Parks and Recreation Department is identified as Recreational Vehicle Revenue. Annually a County Parks Assistance Program Certification Statement is submitted for approval to qualify for this funding. The allocation amount is determined by Oregon Parks and Recreation, this year the amount is \$78,003.

**Major Expenditures Parks Reserve**

In 2008 a no interest loan in the amount of \$50,000 was made to the Sportsman Park. The Promissory Note has a term of seven years.

Department: Community Development  
Parks Division

FY 2013 Proposed Budget

**Major Revenue Parks Reserve**

The Parks Reserve was created originally with revenue from a timber sale. Annually a transfer of \$5,000 from the Parks budget is deposited to the Parks Reserve for future land acquisition.

**Significant Changes:**

There have been no significant changes to the Parks or Parks Reserve budgets. The funding from the Oregon Parks and Recreation and the Oregon State Marine Board have remained constant.

**Key Issues:**

The Parks Division was notified of a new 2011 Legislation- Senate Bill 933 to abolish the Oregon State Marine Board, if passed this would negatively impact our Parks Department.

After discussion with our funding organizations vandalism is state wide and a concern for parks throughout the state.

The Parks continued success with grant awards for projects that benefit the whole community.

**Department Mission:**

The Klamath County Fairground's Mission revolves around the entire Klamath Basin. Persons of all ages use the facilities that we offer for all types of community and livestock event at an affordable and economic price. The Fair is a vital resource for personal development along with key focus of education whereby the year-round activities constitute a living classroom for all person involved. The Klamath County Fair is a driving force for economic activity. The Fairgrounds is one of the largest destination points in the Klamath county area for countless events that bring new dollars to the entire community, contributing to the economy and the Transient Room Tax.

**Mandated Services:**

The Fairgrounds operates under ORS 565-210, which has an appointed Fair Board who has management of Fair, licenses and distribution of all proceeds.

The Fair Board has exclusive management of the ground and all property owned, leased, and devoted to the use of the County Fair.

The Fair Board operates the grounds and buildings to the fullest extent for the education, pleasure, recreation and public benefit.

The Fair Board shall fix sums to be paid (developed standard rates for services).

**Self Imposed Services:**

The Klamath County Fairgrounds provides economical, clean useful buildings, grounds, and arenas 365 days a year.

The Fair Board has developed and adopted Policies for:

- Professional Development, Compliance with Environmental Laws, Compliance with ORS 279 public purchasing and Contracting Laws, Animal Welfare Policy, Compliance with the Americans with Disabilities Act.

**Department Overview:**

The Klamath County Fairgrounds is a service provider and the citizens of the basin are our customers. We are obligated to provide to our customers the highest level of affordable quality entertainment and educational opportunities, all centered in an enjoyable, comfortable and affordable atmosphere. Our driving force is the desire for our customers to utilize and enjoy clean, updated rental facilities for family functions, public and private meetings as well as community functions.

**Successes and Challenges:**

After a long challenging process we have a new roof for the Event Center.

We have been blessed with the assistance of Mr. John Stillwell who applied and received grants to update all electrical in cattle, beef, sheep and hog barns, and install electrical in the block wall; added a block wall with tie-outs, a new wash rack at end of the cattle barn, installed sod and a sprinkler system in the area between the stalls and Kentner barn, and reversed manure pit.

We have repeat customers that have been holding events at the Fairgrounds for over 20 years, and we have new customers that always relay that we are the one of the best facilities for services and cost. The fairgrounds in 2010/2011 had 588 events (133 youth, 131 private, 324 public) with an attendance of 183,057. The challenge is maintaining and providing the services the Fair Board has committed to, and the standard that the public expects during low economic times.

**Budget Overview:**

The Klamath County Fairgrounds has three (3) main sources of revenue; the hotel/motel tax, room rentals and State appropriation for fair. The room tax and The State Fair (fair only) have strict guidelines for use. Our major expenses are in maintenance on the older buildings, older equipment (engine repairs and up keep, tires, oil, gas), supplies for events (panels, sand, gates, tables, chairs, PA systems, stages). Maintain plumbing and electrical for 6 buildings and wash stations (inside and outside, freezing weather), grounds (dirt, gravel, snow removal, paving, aesthetics, plants, trees, lawns, and fencing). Our personnel are 1 administrator, 2 office staff, and we must reduce the 6 maintenance workers to 4. We are open 7 days a week, 365 days a year, 7a.m. to 9p.m., unless an event runs longer.

**Significant Changes:**

At the budget officers prompting there are major cuts, and we have reduced staff and line items. We know this will significantly impact our services. The only thing we can do is try to keep up on our service as we are a rental facility and we must keep the doors open. We will have an overload of responsibilities that we will try to maintain.

**Key Issues:**

The Fairgrounds receives no funding from the general fund. The Fairgrounds was removed from the County budget in 1978 for lack of funds. Yet, we have a stable source of income from the Hotel Motel Tax, which was totally promoted by the Fair Board. The Hotel Motel Tax has never been consistent and can and has had major differences from year to year, this has never caused any deficiencies in the department, when it is up we implement well needed projects for buildings, capital equipment, paving, roofing, items that are necessary for the continued success of the services the Fairgrounds provides.

Klamath County, Oregon  
2012-2013 Budget Financial Presentation  
593 Fairgrounds

**Department Mission:**

The mission of the Klamath County Law Library is to serve the legal information needs of Klamath County by providing access and use of legal reference materials and reference services to members of the legal community and the general public. The library provides users with legal resources by acquiring, organizing, and maintaining a collection of current and historical law-related materials which support the study and knowledge of law in Klamath County.

**Self-Mandated Services:**

ORS 9.850 authorizes counties to use Law Library fees, collected by the court clerk, for the purpose of acquiring, maintaining or operating the Law Library at the county seat. This statute establishes that “no part of the monies, received from such law library fees shall be used for the purpose other than acquiring, maintaining or operating such Law Library.”

ORS 21.350 requires that the Law Library be “available at all reasonable times to the use of litigants, and permitted to be used by all attorneys at law duly admitted to practice in this state, without additional fees to such litigants or attorneys.”

HB 5056 defined: It appropriates \$7.4 million to the Oregon Judicial Department (OJD) for the purpose of operating Law Libraries and providing Law Library services. The bill directs the Chief Justice to distribute these funds to counties based on revenues received from filing fees collected in 2009-11 from the civil actions commenced in the county’s circuit courts. Each County’s 2011-13 amount will be less (proportionately reduced) than its 2009-11 amount, since the legislated appropriation for 2011-13 was approximately \$2.6 million (26%) below the 2009-11 revenue amounts.

**Department Overview:**

The Law Library is located in a space within the Library District’s main branch. The Law Library provides a small print collection, required legal forms as approved by the court, and an extensive on-line legal reference service provided by Lexis and West legal publishers.

The Law Library works closely with Court Administration to support litigants who are referred by them for specific sections, law cases, or forms. The members of the Oregon State Bar have access through a coded locking door to the Law Library 7 days a week, 24 hours a day. The use of the Law Library by attorneys is uneven. The use of the Law Library by the public is heavy. Before approaching an attorney for assistance, the first stop for many people is the law library in order to try to understand the issues that face them.

**Successes and Challenges:****2010-11**

|     |                           |
|-----|---------------------------|
| 329 | Attorney Research Contact |
| 953 | Public Research Contacts  |
| 786 | Open Public Hours         |

|          |                     |
|----------|---------------------|
| \$93,722 | Court Fees Received |
| \$7,810  | Average Per Month   |

**Budget Overview:**

The primary source of revenue for the Law Library is the monthly portion of the fees collected by the Courts. Secondary sources of revenue are the “at cost charges” for copies of court papers (forms) that the Law Library provides to the general public.

The largest expenditures are no longer for the Library Assistant III positions. The largest expenditures are now on software (on-line subscriptions to legal resources), Administrative Services and space rent. Space rent is now larger than the expenditures for print materials. There is no longer a substitute position.

Over the years the Law Library has been able to keep expenditures below revenue. The plans for this reserve are to act as a cushion in the event that funding for County Law Libraries are further reduced or even eliminated.

**Significant Changes:**

HB 5056 passed in August of 2011 and has reduced the Law Library’s revenue by 28% or \$25,000. The budget was balanced by replacing the full time Library Assistant III with a part time Library Assistant III. Usage is remaining the same as reflected in the 10-11 figures. The usage is also the same despite the open hours being reduced from 35 to 14 a week.

**Key issues:**

The issue is now how to find a way to provide better access to the legal research materials and services provided by the law library. The goal of the OJD and the court administrators will become clearer within the next two years. However, recent discussions show that the trend is toward making legal research materials more available to a broader public through a state wide contract with the on-line distributor of these materials. Unfortunately, or fortunately, the Klamath County Law Library is ahead of the trend and has nearly eliminated all its print collection. So the issue is now how to relocate the limited print collection of law materials and the on-line legal research computer terminals to the location more accessible to the public. It would also save the Space Rent charges to relocate out of the Law Library space.

## Klamath County, Oregon 2012-2013 Budget Presentation

The Klamath County budget is composed of three basic units: major program categories, departments/ funds, and in some cases subprogram.

Human Services Program - This includes all departments of a human caring and welfare capacity.

230 - Commission on Children and Families

413 - Veterans

440 - Public Health

451 - Mental Health

THIS PAGE INTENTIONALLY LEFT BLANK

**Department Mission:**

Our purpose is to create conditions that promote the well-being of children, youth and their families to become independent, responsible citizens. We strive toward a more caring, cooperative community by supporting local planning, by coordinating community resources, and by funding needed services.

**Mandated Services:**

The local Commission will lead, coordinate and facilitate the development and preparation of a single local plan for coordinating community programs, strategies and services for children 0 through 18 and their families. The proposed budget distribution will identify the applicable portion(s) of the plan for each funding area represented in the budget. OAR 423-010-0021

Activities and initiatives will have measurable outcomes and support county goals adopted in the local plan. It is the intent that activities and initiatives will be proved in a culturally competent and gender-specific manner that reflects the population, needs and resources of the county. OAR 423-010-0024

**Department Overview:**

The Commission on Children and Families (CCF) is the advisory board to the Klamath County Board of Commissioners on policy related to the health and well being of Klamath County's children and their families. The CCF is responsible for:

- **Local Comprehensive plan for children 0-18 years** Engage the community in working collaboratively to find solutions and leverage people and funds to:
  - Keep kids out of the foster care system: (*In our Healthy Start program our children are half as likely to become victims of child abuse.*)
  - Keep kids out of the justice system
  - Get kids ready to learn for school
  - Empower children and families to become healthy, employable and contributing members of their communities
- **Community building and mobilization**
  - **Stop the Hurt Coalition** (Child Abuse Prevention Campaign)
  - **Partners for Change** (Train the trainers program to educate the community on the importance of early childhood brain development)
  - **Safe Schools/Healthy Students Initiative** (Community-wide team to respond and recognize the complexity of youth violence)
  - **Intergenerational Community Center** (Initiative to plan for the development and implementation of a community center)
  - **Klamath County Mentoring Coalition** (A network of over 60 local agencies concerned with positive youth activities)
- **Service system delivery enhancement, innovation and evaluation**
  - All programs are funded through a competitive process
  - All contracted programs are evidenced-based and are monitored quarterly for result-oriented measurement

- **Advising the Board of County Commissioners on policies affecting children and families**
  - CCF meets regularly with BOCC on policies and conditions of our children and families

**Successes:**

Measured outcomes from our contracted providers:

- **CASA:** Of the 131 children assessed, 99% of the children assigned to a CASA Volunteer did not experience any new abuse.
- **HEALTHY START PROGRAM:** Of the 32 families that received intensive services, 89% showed positive parent-child interactions and used positive social support systems.
- **PROJECT CHANGES:** Of the 109 youth assessed, 75% showed reduced risk factors and increased protective factors that will help keep them out of the juvenile justice system.
- **KIDS IN THE MIDDLE MENTORING:** Of the youth assessed, 85% of the youth reported improved connectiveness to school and family.

With the State allocation to the CCF of \$438,037 (1-year) we were able to leverage \$562,462 in grants, cash, in-kind and community pledges for a total of \$1,000,499 in funds for our kids and families. Along with the program's leveraged funds our programs also tracked 11,208 hours of volunteer time from our community members.

**Challenges:**

Transitioning to the new Early Learning Council by July 1, 2013.

**Budget Overview:** We are a State funded department and follow the guidelines and OARs through the State Commission office.

**Significant Changes/Key Issues:**

- The February 2012 Legislative Session passed HB4165, that eliminates local County Commissions in every county as of June 30, 2013, with a possible 6 additional months for the transition to the newly developed Early Learning Council (ELC). September 2012 is the deadline for the ELC to outline how the transition will be completed.
- The Commission biennial budget was approved through June 30, 2013, in 2011, by the State of Oregon. There are no significant changes to that budget that reflects in the 2012-13 Klamath CCF budget. The State Commission allocated 54% of the funds in the first year, which leaves 46% for the second year, for administration and programs.
- The Federal Safe Schools/Healthy Student grant that funds our Parenting Program might be available for an additional year. If this happens, the Commission will be able to continue the Parenting Program at .5 FTE instead of the current 1.0 FTE. If not funded, administration expenses currently paid with this grant will be taken out of the Commission Contingency fund.

**Department Mission:**

To give aid and assistance to any veteran, the spouse or dependents of the veteran or the survivors of the veteran in applying for all benefits and aid to which they are entitled by federal, state and local laws rules and regulations.

**Non-Mandated Services:**

TITLE 33

**ORS 408.410 Appointment of county service officer; duties; annual budget requirement.**

(1) The county governing body in each county may appoint a service officer who shall give aid and assistance to any veteran, the spouse or dependents of the veteran or the survivors of the veteran, in applying for all benefits and aid to which they are entitled by federal, state or local laws, rules and regulations.

**ORS 406.450 Services provided by county veterans' service officers.**

(1) The Director of Veterans' Affairs shall establish a program to enhance and expand the services provided by county veterans' service officers appointed under ORS 408.410.

**Department Overview:**

Veterans' benefits are not automatic. Laws restrict the Veterans' Administration from developing, presenting and prosecuting claims against itself. Our office interprets regulations, helps gather required documentation and assists in filing claims for VA disability, pension and for survivor and dependents benefits. Our mission is to help guide the veteran throughout the process and to make sure they receive the benefits to which they are entitled.

Our goal is to reach out to all the veterans in Klamath County, making sure they are aware of the benefits that are available to them.

**Successes and Challenges:**

- County Veterans Service Officers advocate for veterans in Compensation and Pension claims and according to the Oregon Dept. of Veterans Affairs for every state dollar spent by the Klamath County Veterans Service Office the county receives \$400 Federal dollars in return.
- Successes for the Veterans' Service Office are measured in the monetary benefits we assist in obtaining for our clients. In the first 6 months of fiscal year 2011 - 2012, our office recovered \$1,593,520 in retro award pay for our veterans and their families. This amount does not include the amount they may receive on a monthly basis. The veterans use this money to purchase cars, furniture, etc., helping to support our local community. One good example of this is that after years of renting, one of our veterans received a large VA award that allowed him to purchase his first home. This veteran is now paying property taxes and contributing to our community.

- Klamath County veterans received \$29,586,000 in USDVA Compensation and Pension benefits in fiscal year 2010. Using the economic multiplier effect of 7, this yields economic activity in our county of \$207,102,000.
- The County Veterans' Service office has assisted 3217 veterans and their dependents with in-office visits from July 1, 2011 to March 31, 2012. This is an increase of 133 in-office visits for the same time period of July 2010 to March 2011. We have also made 39 out-of-office visits to veterans living in assisted care facilities. In addition our office has responded to 4497 phone calls during this time period.
- As the County Veterans' Service Officer, I continue to participate in the Veterans Court started last year. I am involved as a team member in assisting with the assessment of the veteran's needs and directing the veteran to available services. We currently have 38 veterans participating in the program.

### **Budget Overview:**

The Klamath County Veterans Service Office receives its operational funds from several different sources. A small portion of property taxes, Aid to County money from the Oregon Department of Veterans Affairs and Expansion and Enhancement money also from the Oregon Department of Veterans Affairs all supply the County Veterans Service Office with operational funds.

- **408.720.** (1) The county court or the board of county commissioners is authorized to levy, except as provided in subsection (3) of this section, in addition to the taxes now authorized to be levied by law, a county governing body may levy in each year a tax not exceeding one-eightieth of one percent (.000125) of the real market value of all property within the county, computed in accordance with ORS 308-207

Money received from the property tax levy and the Aid to County money from the Oregon Department of Veterans Affairs is used for office operations.

The Veterans Service Office receives \$10,440 a year from the Oregon Department of Veterans Affairs in Aid to County money.

- **406.310 Director authorized to aid veterans organizations.** From funds available to the office of the Director of Veterans' Affairs for this purpose, the director, with advice from the Advisory Committee, is authorized to aid veterans' organizations that have been accredited by the United States Department of Veterans Affairs and counties of the state, in connection with their respective programs of service to veterans.

The Expansion and Enhancement money varies yearly and the money for this year is currently pending in legislation. The Expansion and Enhancement money must be spent in accordance with a plan submitted to and approved by the Oregon Department of Veteran Affairs. Currently

\$12,000 of the Expansion and Enhancement money is used for the approved partial salary of an Office Specialist. Any remaining money must be spent per an ODVA approved plan.

- **ORS 406.460 Limitation on use of funds by county governing body; exceptions.** (1)  
A county governing body that receives funds under ORS 406.454 may not use the funds to supplant moneys appropriated by the county governing body for county veterans' service officers.

**Significant Changes:**

There are no significant changes for this department.

**Key issues:**

Staff members are trained to assist veterans and their dependents in applying for VA and State benefits. We attend state accreditation training twice yearly and national service officer training yearly in order to obtain and/or maintain accreditation to practice VA law. Training allows staff to remain informed and educated in the laws and regulations that affect the claim process of applying for veterans benefits.

We continue to develop new practices and implement new software in order to make the office run more cost effectively and to serve our veterans and their families more efficiently.

The Association of County Veterans Service Officers through a pilot program proposed a Senate Bill that would provide extra money to the County Veterans Service Offices. Senate Bill 1100 was approved and is administered and funded through the Oregon Department of Veterans Affairs budget. This money is to be used for expansion and enhancement of the County Veterans Service Office. The money can be used for the hiring of staff and staff training, and for the purchase of equipment, software and furniture. It is also to be used for outreach to veterans in the community.

Due to the uncertainties of Expansion and Enhancement money received from the Oregon Department of Veterans Affairs, I cannot plan ahead on what funds will be available from this program.

Without the County Veterans Service Office many veterans would be unaware they are eligible to apply for VA benefits. Those that try to apply for benefits on their own usually give up and do not follow through due to the complexities of navigating the VA system. The result would be less VA and State generated funds coming into the county.

**Mission:**

To protect the residents of Klamath County from threats posed by biological, chemical, environmental and natural causes harmful to human health, and to improve the health status of the county by engaging in strategies and actions with the community to promote better health outcomes.

**Mandated Services:**

- The Vital Records Program --- Health Statistics—mandated by ORS 431 (2) (c)  
We are mandated to collect, analyze and report data on all births and deaths occurring in Klamath County, and to issue vital records certificates on vital events occurring within the past six months. On average we record and report approximately 800 births and 700 deaths annually, and issue 1300 vital record certificates. The Department is also required to provide information and referral services, as well as health information statistics, to be in compliance with the Minimum Standards for Local Health in Oregon. The Administrative Services Division provides these services with the same personnel who are responsible for the Health Statistics functions. The Office of the Administrator, housed in the Administrative Services Division, is one of three positions mandated for local public health departments to have appointed in the State of Oregon.
- Environmental Health Services—mandated by ORS 624.510 to 624.570; ORS 446.310 to 446.350; ORS 448.115 to 448.994 Licensed Facilities Program  
We are required to license and inspect all facilities which provide prepared food, beverage, drinking water, lodging and swimming pools and spas for the public. We provide over 850 inspections of these facilities annually to ensure that facility operations are in compliance with the governing Oregon Administrative Rules. We also are required to provide food handler training to food service workers within 30 days of their employment, and to review plans for any new or modified licensed facilities. We are responsible for reviewing the menus and food handling procedures proposed for over 200 benevolent events providing food and or beverage to member of the public in Klamath County annually.
- Public Drinking Water Program  
The Environmental Health Services division is required by contract with the Oregon Health Authority to enforce the Safe Drinking Water Act requirements of 171 small public drinking water systems operating in Klamath County. We are required to inspect these systems at least every five years, monitor the systems for compliance with required monthly and quarterly sampling of , notify operators and issue public notices when water test results do not meet standards, and assist system operators to take appropriate corrective action when needed.
- Communicable and Infectious Disease Control and Prevention—mandated by ORS 431.416 (2) (a) and ORS 433.006  
The Acute and Communicable Disease Prevention program is responsible to collect and analyze disease reports, detect and investigate outbreaks of 57 different diseases and conditions, and implement control measures for preventable diseases and conditions. We

are furthermore charged with identifying, testing, treating and tracking any resident who has been exposed to any of these 57 different diseases and conditions. The program received and followed up on 466 notifications of these reportable diseases or conditions in 2011. We provide an average of 440 testing and treatment visits for communicable or infectious diseases annually.

- Infectious Disease Vaccine Prevention Services—mandated by ORS 433.235 to ORS 433.284

This program must provide state supplied vaccine to all children who present in need, regardless of ability to pay, register their immunization records, track and recall all children out of compliance with vaccination requirements, manage public and privately supplied vaccine supplies, conduct surveillance of vaccine preventable diseases and vaccination rates within the County. Additionally we are required to administer adult vaccine to prevent outbreaks of emerging infectious diseases. The Department has been immunizing approximately 1200 individuals annually.

- Family Planning Services—mandated by ORS 435.205.

This program provides clinical, counseling and educational services which allow county residents to determine the number and spacing of their children and prevent unintended pregnancies. We are required to provide counseling on contraceptive methods and supplies, education on reproductive risk factors, vaccination against preventable reproductive health conditions and testing and treatment of reproductive health diseases. We provide services to an average of 1575 residents annually through 3350 clinical encounters

- Maternal and Child Health Services—mandated by ORS 431.416 (2) (b) and the Intergovernmental Agreement with the State of Oregon

We are required to provide nurse home visiting services to families who have a child born at medical risk for development delay. Public Health Nurse Case Managers are required to monitor the growth and development of these children for up to the child's fifth birthday. Nursing interventions identify any barriers that may hamper the development of these children, or threaten their health and safety and support families in preventive interventions. An average of 300 children receives these services annually.

We are likewise obligated to provide nurse home visiting services to families who have a child under the age of 21 with a diagnosed special health care need, such as heart disease, cerebral palsy, a genetic abnormality, or orthopedic disorder. Nurse case managers help families address the diverse medical, emotional, financial and educational concerns which may arise, so that these children can achieve and maintain their potential. An average of 155 families receives these services yearly. There are currently 295 unduplicated clients receiving services in these two maternal-child health programs.

Nurse assessment and intervention services are also provided to pregnant or post-partum women to decrease health risks during pregnancy and improve birth outcomes and enhance breastfeeding rates.

A total of 473 families are served annually through these programs, with over 925 visits.

- **Public Health Emergency Preparedness**—mandated by the Intergovernmental Agreement with the State of Oregon and the Minimum Standards for Local Health Departments in Oregon

The Department is required to develop, exercise and maintain a comprehensive plan for responding to public health emergencies to address bioterrorism threats, chemical events, natural disasters, pandemics and radiation exposures. The components include an all hazard medical resource plan, an emergency communication strategy, a smallpox outbreak response plan, a behavioral crisis resource plan and a plan to protect vulnerable populations in the event of a public emergency.

We are charged with operating a 24/7 public health emergency hot line, staffed by public health nurses to coordinate and report public health emergencies. We have responsibility to have stand-by capacity for implementing quarantine and isolation measures. We are mandated to receive, store and distribute Strategic National Stockpile resources needed in emergencies, and to distribute and dispense these medications in such events. We are required to employ a certified public information officer to provide public information and notification regarding public health emergencies.

#### **Self-Imposed Services:**

##### **Environmental Health Services Division**

Two non mandated programs are housed in this division: the Air Quality Protection program and the Non-licensed Facilities program.

- **The Air Quality Protection Program**

The Air Quality Protection program has been operated by the Environmental Health Services Division since the 1990's when the County struggled to achieve compliance with the national ambient air quality standards. Originally designed to promote the replacement of noncertified wood burning appliances, the program has now evolved to meet ever stricter air quality standards by providing education and information to residents on allowable "burning" practices. For approximately half of the year, daily advisories are provided on current and anticipated air quality and any restrictions on the use of woodstoves and outdoor burning. Staff patrols the Air Quality Zone to ensure that residents are aware of their need to comply with the requirements set forth in County Ordinance 406. Corrective actions include sending notifications to offenders, and in cases of repeat or serious violation, citations to appear in court.

- **Non-licensed Facility Programs**

Environmental Health Services conducts safety and sanitation inspections of facilities licensed by state departments, including pre schools, schools, day care centers, group homes and public institutions. Sixty facilities reimburse us for annual inspections.

Local public health departments are currently required by the Minimum Standards for Health Departments in Oregon to provide or assure the provision of chronic disease

prevention programs and the Women, Infant, Children Nutrition and Education (WIC) program in their counties. We have agreed to provide both of these program activities under the direct administration and supervision of the Department through two divisions—The Women, Infant and Children Supplemental Nutrition and Education Division and the Health Promotion/Disease and Injury Prevention Division.

**The Women, Infant and Children Supplemental Nutrition Division Program**

This program provides supplemental nutritious food to low income women who are pregnant and families who have children five years of age and under. Nutrition education, risk assessment and resource referrals for families are the cornerstones of this program. Key strategies are the promotion of breastfeeding and other health practices proven to positively influence health outcomes and lifetime healthy behaviors. Our WIC program participation has increased to over 1740 families. More than 4500 women, infants and children are served annually and participate in certification or educational activities at the Department four times a year.

**The Health Promotion/Disease and Injury Prevention Division**

The services and activities of this program have been created and enacted partially in response to our mandate to provide health information and referral services to residents. The program also serves as the flagship for evolving public health mandates to assess the causes of preventable poor health outcomes among county residents, and to implement population based initiatives to reduce the burden of chronic disease.

The Tobacco Prevention and Education component of this program provides community tobacco prevention and education services that have been proven best practice for tobacco use control and ensure sustainable improvements in the quality of air all residents breathe.

The Healthy Communities initiative sponsors locally chosen strategies to improve physical activity and good nutrition in Klamath County residents of all ages.

The My Future, My Choice project provides abstinence based sexuality education to over 700 middle school students in all public education facilities in Klamath County, as required by HB 2509.

The Safe Routes to School initiative promotes safe walking and bicycling for over 1300 children attending six local elementary schools, encourages healthy and active lifestyles, and reduces traffic and vehicle pollution adjacent to these schools.

The Transportation Demand Management outreach project promotes walking, bicycling, and other modes of transportation to employers and organizations, encourages healthy workplace environments, and reduces traffic and vehicle pollution.

The Breastfeeding Awareness project will coordinate community efforts to promote, support, and protect breastfeeding in Klamath County. The project is well aligned with the Surgeon General's Call to Action and will help better focus the community agenda for improving breastfeeding rates.

### **The Oral Health Division**

The University of Washington contracts with Klamath County Public Health to oversee and administer the early childhood cavity prevention program, Baby Smiles, through four other Health Departments within Oregon.

### **Department Overview:**

The Department is required by statute or rule to provide five essential services:

1. Epidemiological (investigation) and control of preventable diseases and disorders;
2. Parent and child health services, including family planning clinics as described in ORS 435.205
3. Collection and reporting of health statistics
4. Health information and referral services; and
5. Environmental Health Services

In nearly all five areas of required “essential” services, the State’s allocation of federal funds provided to us is not adequate to perform the required level of service, so the Department seeks other revenue streams and grants to subsidize these requirements, and to match the federal funding requirements.

The level and constitution of these “essential” services are defined by Klamath County’s Intergovernmental Agreement or contacts with the Oregon Health Authority. The Department is composed of 8 divisions which carry out this work funded to varying extents by our Intergovernmental Agreement award of \$920,536. These divisions are:

- Administration (720-440-101)
- Environmental Health Services (720-440-441)
- Clinic and Communicable Disease Control Services (720-440-444)
- Community Outreach and Home Visiting Services (720-440-447)
- Women, Infant and Children Nutrition Education Services (720-440-448)
- Health Promotion/Disease and Injury Prevention Services (720-440-449)
- Vital Records (720-440-453) and
- Public Health Emergency Preparedness Services (720-440-479).

### **Successes and Challenges:**

The primary challenge for this public health department has been and continues to be the lack of funding adequate to meet our statutory and contractual requirements for Clinic/Communicable Disease Control and Environmental Health Services. State funding for most programs has not kept pace with both increasing resident need and demand, or with the escalating costs of the skilled and accredited staff needed to provide services as required. The balance of funding to meet these requirements has come from the intergovernmental transfer of \$348,254 from Klamath County’s alcohol and tobacco tax revenues which are earmarked for public health and safety use, and customer user fees and insurance payments. In 2012-13, meeting the challenge of the loss of \$294,254 intergovernmental transfer has required restructuring of staff time within the

limits of state funding and program funds, and significantly reducing services in Environmental Health and staffing levels in Administration.

Notable exceptions to this pattern of inadequate state and federal funding are found in our Women, Infant, Children Nutrition Education program where federal funding has been and continues to be adequate to meet programmatic requirements. We have also been successful in fully funding our Health Promotion/Disease and Injury Prevention programs and our Public Health Emergency Preparedness services with funding from our Intergovernmental Agreement with the State of Oregon and grants we have recently secured.

The Department has seen steady improvement in the identification of funding resources. Our ability to recoup charges has been greatly enhanced by our purchase of an external billing and collection service. Our Community Outreach Home Visiting services division has now accomplished fee-for-service opportunities which allow that divisions costs to be nearly fully funded.

Our lack of a cost accounting system has deprived us of the financial tools we have needed to most efficiently manage our complex operation of nearly thirty programs, services or contractual project, with their own unique, detailed requirements. The County's implementation of a project budgeting system acquired last year has greatly improved accountability.

As a consequence of our lack of funding for structural improvements or equipment replacements, our department now resides in a 100+ year old building that neither meets current building code, nor the needs of our customers and an efficient operation. The pressure of meeting mandated service requirements also has inhibited our acquisition of current technological or vehicle equipment, except for computers. Four of our seven vehicles are either over ten years old or have nearly 150,000 miles.

#### **Budget Overview:**

##### **Public Health Administration 720-440-101**

Major Expenditures: Public Health Admin personal service has reduced its total to \$65,949 and has 1.32 FTE out of Public Health's total 26.12 FTE.

Public Health Administration bears \$185,000 to the County Administration costs.

Major Revenues: Public Health is projected to receive only a portion of the General Fund transfer of the traditional \$348,254 of the Klamath County share of liquor and cigarette taxes. The reduction of General Fund subsidy to Public Health will equal \$294,254. The \$54,000 allocation proposed will provide \$21,739 to subsidize Communicable Disease Prevention and Control measures, provide \$30,000 for the Medical Examiner contract in the District Attorney's budget, and \$1,837 to subsidize Health Promotion Disease Prevention. Revenues received from Medicaid Administrative Claiming (MAC) are funds reimbursed to Public Health for Medicaid referral services. These funds can be used for any program within Public Health.

This year the divisions within the Public Health Department are contributing a maximum of 10% of their program funding to Public Health Administration to help cover General Admin costs charged to the Public Health Department.

**Environmental Health Services Division 720-440-441**

**Major Expenditures:** Environmental Health's personal service total is \$237,599 and has 3.56 FTE of Public Health's total 26.12 FTE. A percentage of fees collected are paid quarterly to the State Department of Environmental Health and space rent, computers, email accounts, and Admin costs were charged to Environmental Health.

**Major Revenues:** Environmental Health collects fees for all licensed and non licensed facilities; a 5% fee increase was implemented for the calendar year 2011, and there no fee increases have been approved for 2012. A portion of the on line food handler test fees are paid to the Environmental Health Division. This has boosted the Food Handler revenue from the prior years. The State of Oregon Department of Environmental Quality (DEQ) is expected to award Klamath County with an Air Quality Grant of \$59,000 to fully the Air Quality program. Environmental Health receives annual funds from the State in the amount of \$69,568 to fund the Drinking Water program.

**Clinic and Communicable Disease Control Division 720-440-444**

**Major Expenditures:** Clinic Services' personal service total has been reduced to \$325,331 and has 5.30 FTE out of Public Health's total 26.12 FTE. The Clinic Services Division spends up to \$208,000 for lab, drug /pharmacy and contract service expenses with the Family Planning and Immunization Programs. These expenses continually remain under funded by the State Programs. New fee schedules will be developed in 2012-13 to improve the funding levels of the Immunization program.

**Major Revenues:** Clinic Services receives \$143,454 in State and Federal funding for their programs. Clinic Services receives reimbursement payments from eligible patient visits. \$333,875 from Oregon Contraceptive Care (CCare) and \$58,700 from Medicaid (Oregon Health Plan) is projected for receipt in 2012-13. Revenues from fees for service from private insurance and patient payments are expected to be \$87,332.

**Vital Records Fund Division 720-440-446**

**Major Expenditures:** \$30,000 is budgeted to pay for the Medical Examiner contract costs in 2012-13.

**Major Revenues:** Total Interfund transfers for this fund come from the General Fund in the amount of \$30,000 to cover costs for the Medical Examiner from the District Attorney's Office for 2012-13.

**Community Outreach Division 720-440-447**

**Major Expenditures:** The Community Outreach personal service total is \$256,942 and has 3.86 FTE out of Public Health's total of 26.12 FTE. The School Based Health Center program was moved from the Administration Division in 2012-13. This program operates a school based primary health care center in Gilchrist, Oregon, in a collaborative effort with the Klamath County School District. Klamath County School District provides all facility structural support needs, and the Department provides staffing and

clinic materials and services. A majority of expenses for this project are for personal and contract services for staffing. The Asthma Healthy Homes Program was added to the budget last and remains a project this year. Nursing Outreach pays out up to \$142,000 in matching funds in order to receive reimbursement funds for each qualifying visit.

Major Revenues: The revenue received for reimbursed qualifying visits is anticipated to generate \$356,000 in 2012-13. Community Outreach and Home Visiting receives \$94,455 in State and Federal funding for their programs. Funding for the Babies First and CACOON programs are a set amount which allows us to provide and bill for additional full reimbursement from the Medicaid program.

#### **Women Infant Children Nutrition Education Division 720-440-448**

Major Expenditures: The Women Infant Children (WIC) personal services total is \$335,426 and has 6.45 FTE out of Public Health's total of 26.12 FTE. Personal service takes up 81% of the funding that WIC receives.

Major Revenues: The Women Infant Children program receives only Federal dollars through the State each year. The amount budgeted in FY 12/13 is \$56,773 higher than what was budgeted for the previous fiscal year and it is anticipated that we will draw all available funds. The Women Infant Children program does not require a subsidy from the Public Health Administration.

#### **Health Promotion Disease Prevention 720-440-449**

Major Expenditures: Health Promotion Disease Prevention's personal service total is \$161,809 and has 2.81 FTE of Public Health's total of 26.12 FTE. A Safe Routes to School grant in the amount of \$70,000 was split over the 2011-12 and the 2012-13 fiscal years. The amount of the current contract budgeted for FY 2012-13 is \$13,867.

Major Revenues: Health Promotion Disease Prevention receives \$191,769 in State and Federal funding for their programs. The My Future, My Choice contract was increased to \$19,400 annually for this biennium. A Breastfeeding Awareness grant in the amount of \$17,430 was split over two FY's. The amount remaining of the upcoming FY is \$12,437.

#### **Vital Records 720-440-453**

Major Expenditures: A majority of expenses for this mandated project are for the 0.60 FTE in personal services.

Major Revenues: All revenues for this service are fee based.

#### **Public Health Emergency Preparedness 720-440-479**

Major Expenditures: Public Health Emergency Preparedness's personal service total is \$79,464 and has 1.15 FTE out of Public Health's total of 26.12 FTE. Staff training, supplies, and equipment are the major expenses for Public Health Emergency Preparedness designated to build and maintain an emergency response team within Public Health.

Major Revenues: The Public Health Emergency Preparedness program receives Federal dollars passed through the State each year. The Public Health Emergency Preparedness program does not require a subsidy from the Public Health Administration.

**Oral Health 720-440-482**

Major Expenditures: The Baby Smiles Program costs are primarily in the Contract Services line item. 0.80FTE are also costed to this program.

Major Revenues: The Baby Smiles contract with the University of Washington currently awards \$328,000 per year.

**Significant Changes:**

The Public Health Budget has increased this year in large part from Grants, unknown revenue sources at the time of last year's budget, and expenses related to the grants. All of which will be amended this year with a Supplemental Budget. Some of the major budget changes are included below.

Medicaid Admin Claims revenue was divided into three projects for a total of \$264,000.

|             |                  |           |
|-------------|------------------|-----------|
| 720-440-444 | Clinic Nursing   | \$24,000  |
| 720-440-447 | Nursing Outreach | \$48,000  |
| 720-440-101 | Administration   | \$192,000 |

Each project also has matching funds in its expense line items.

Public Health (720-440-446) Medical Examiner was removed from Administration and has its own fund in the total amount of \$30,000.

|           |  |           |
|-----------|--|-----------|
| 2011-2012 |  | 2012-2013 |
| Autopsies |  | Autopsies |
| \$30,000  |  | \$30,000  |

The department has also removed two more projects and set up new funds:

Vital Records (720-440-453) from Administration and will use the revenues for personal costs.

Oral Health (720-44-482) from Administration and will use the revenues for personal and contract costs.

**Key Issues:**

Significant issues facing the Department are the challenges that will be posed by the requirement for all State and local health departments to achieve accreditation in order to continue to be eligible to receive the federal funding which constitutes 90% of the funds provided us by the State. Paramount in the accreditation requirements is the accomplishment of a comprehensive assessment of and plan to improve the health status of the county to within an acceptable range. This Department has struggled for years to identify strategies and funds for that purpose, and has accomplished piece meal progress toward that goal.

Another looming issue is the status of Federal and State health care reform legislation enactment, and the attendant lack of definition of the role and responsibilities of local public health departments in such a scenario. It is anticipated that clarity will not be provided for several years, rendering decisions about future space requirements for public health functions difficult to estimate.

**Department Mission:**

The mission of the Klamath County Mental Health (KCMH) Program is to develop and provide quality mental health, addictions, and developmental disabilities services which effectively and efficiently utilize available resources while promoting personal wellness and growth for Klamath County individuals and families.

**Mandated Services:**

The **county** *must* provide emergency psychiatric care, custody, transport and treatment for Klamath County residents. If the Intergovernmental Agreement funding is exhausted, a county *must* directly pay for these services. ORS 426.241.

**The Community Mental Health Program** has multiple mandates which result from contracts for:

- The Oregon Health Plan (OHP) with Jefferson Behavioral Health (JBH)
- The Intergovernmental Agreement with the State of Oregon, Oregon Health Authority, for services to non-OHP individuals who are indigent
- The Intergovernmental Agreement with the State of Oregon, Department of Human Services, for Developmental Disability Services

**Oregon Health Plan (OHP) Contract with Jefferson Behavioral Health (JBH):**

As specified in 42 CFR 438.206, KCMH shall maintain and monitor a Provider Panel that has sufficient Capacity and expertise to Provide adequate, timely and Medically Appropriate access to Covered Services for OHP Members across the age span, from child to older adult. The mandated delivery system components include:

- Service coordination
- Preventive and Early Intervention Services
- Rehabilitative Treatment Services
- 24 Hour Urgent and Emergency Response System
- Involuntary Psychiatric Care
- Adult Mental Health
- Acute Inpatient Hospital Psychiatric Care,
- Integrated Service Array (ISA) for Children and Adolescents
- Adult Mental Health Initiative (AMHI) Mental Healthcare Organization (MHO) Exceptional Needs Care Coordinator (ENCC) Services as specified in OAR 410-141-0000 (a) through (e).
- Quality Assurance/Quality Improvement Program in accordance with 42 CFR 438.240

**Intergovernmental Agreement with the State of Oregon, Oregon Health Authority, for services to non-OHP individuals who are indigent:**

- MHS 20 Non-Residential Adult Mental Health Services
- MHS 22 Child and Adolescent Mental Health Services
- MHS 24 Regional Acute Psychiatric Inpatient Services
- MHS 25 Community Crisis Services for Adults and Children
- MHS 28 Residential Treatment Facility
- MHS 30 Community Treatment and Supervision Services for Persons under the Jurisdiction of the Psychiatric Security Review Board
- MHS 31 Enhanced Care Services
- MHS 34 Adult Foster Care
- AD 61 Adult Alcohol and Drug (A&D) Residential Treatment
- AD 66 A&D Outpatient Treatment
- AD 67 A&D Residential Capacity
- AD 70 Prevention Services (A&D)

**Intergovernmental Agreement with the State of Oregon, Department of Human Services, for Developmental Disability Services:**

- DD 48 Case Management
- DD 49 Comprehensive In-Home Supports – Adults
- DD 50 Group Home
- DD 51 Supported Living
- DD 54 Vocational Services
- DD 55 Protective Services
- DD 58 Foster Care Services
- DD 150 Family Support Services

**Relevant Oregon Administrative Rules for Mental Health, Addictions and Developmental Disabilities Programs:**

- General Administrative Standards for Mental Health Division Community Mental Health Contractors: 309-014-0000 through 309-014-0040
- Addictions and Mental Health Medicaid Reimbursement for Services and Supports: 309-016-0600 through 309-016-0650

- Adult Foster Homes for persons with Developmental Disabilities: 411-360-0010 through 411-360-0310

**Self-Imposed Services:**

Mental health services to individuals with Medicare only or non-indigent private pay who are not in crisis. Non-secure transportation; supported employment services; personal care attendant services; Prescription Assistance Program.

**Department Overview:**

Klamath County Mental Health provides Mental Health, Developmental Disabilities and Addictions programs as required by our Intergovernmental Agreement with the State of Oregon, Oregon Health Authority and the Department of Human Services, and as required by our contract with Jefferson Behavioral Health for Mental Health Services for children and adults who are on the Oregon Health Plan.

**The Community Mental Health Program** provides crisis intervention and brief crisis follow-up for all individuals. Emergency Mental Health coverage is available 24/7. Interventions include individual crisis support, referral to inpatient care, access to various forms of brief crisis respite support and regular crisis support groups at the clinic.

The Phoenix Place residential treatment facility provides residential treatment services, crisis respite services and psychiatric hold services for up to 16 individuals. Adult Foster Care services provided through community homes is also an important part of the residential service array.

Longer-term services are available as well as case management and medication management for individuals for whom it is determined that the services are medically necessary.

Most services for adults are provided by KCMH staff. KCMH subcontracts longer term counseling services to Lutheran Community Services NW. Mental Health services for Children and Adolescents are largely sub-contracted to Klamath Youth Development Center with a smaller amount contracted to Lutheran Community Services NW.

**The Developmental Disabilities programs** provide an array of services to individuals and children with developmental disabilities. Services include case management and service coordination, protective services, adult and children's foster home licensing and monitoring, and an array of community support programs.

**The Alcohol and Drug Treatment programs** are largely subcontracted to local treatment providers. Lutheran Community Services NW provides outpatient Alcohol and Drug treatment services for adults and youth, as well as A&D Prevention services. BestCare Treatment Services provides outpatient treatment services for adults and is our sub-contractor for Residential Treatment. KCMH retains some A&D funding in order to provide contract management and quality assurance activities.

The goals of our program are effectively stated in our Values Statement and Treatment Philosophy:

Every person in Klamath County shall have the opportunity for access to services that:

- are individualized to meet their unique needs, which also respect and protect their dignity and confidentiality
- are integrated, collaborative and effective
- include cultural, community, family and other natural support systems in their treatment and their life

Klamath County's behavioral health system should have a strong positive impact on public safety by appropriately reducing criminal arrests through treatment and supports.

Treatment Philosophy: Klamath County Mental Health believes that the ultimate goal for all individuals in our programs is to achieve their maximum level of independence and integration into the community. Our goal is to allow individuals with mental illness to regain control of their lives rather than fostering long-term, unnecessary dependence on the mental health system. Our goal for individuals with developmental/intellectual disabilities is to allow them to live in the community with supports adequate to keep them living lives comparable to people without disabilities.

The long range goal for the agency is to maximize the efficient use of all resources available and to continuously improve the quality and efficacy of all services that we provide. We will maintain knowledge of community resources through on-going relationships with community partners and promote collaborative treatment with the physical health care community as a partner of a Coordinated Care Organization.

### **Successes and Challenges:**

#### **Successes:**

- Transition of sheltered employment program to implementation of the Supported Employment best practice program leading to more successful education experiences and more competitive employment for individuals with mental illness
- Continuation of the Drug Court grant from Criminal Justice Commission and implementation of an enhancement Byrne/JAG federal grant that now includes mental health treatment
- Recent purchase and rapid initialization process of an electronic health record software system. Go-Live anticipated this summer
- Initial planning for participation in, and provision of services for, Behavioral Health Court
- Successful integration of Oasis Drop In Center into the community as an independent private, non-profit entity

- Beginning phase of Open Access program implementation to increase accessibility of services
- Continued provision of short-term holds as a step down to inpatient services
- Continued provision of short-term respite services
- Successful collaboration with JBH and other state wide agencies to provide residential services at Phoenix Place. Adult Mental Health Initiative (AMHI) transferred full responsibility for managing residential services to MHOs. KCMH actively participates in the AMHI work group
- Continued collaboration with Klamath Open Door (small grant) for Effective Living Skills classes
- Successful collaboration with Klamath Housing Authority for an 8 unit complex for individuals with mental illness who are homeless to provide case management services
- Continued successful oversight of Intensive Community Treatment Services for JBH of the child and adolescent program
- Continuation of warm line program at Phoenix Place
- Community integration and coordination:
  - Med consultation available to medical community
  - Intensive case management Corrections/Mental Health
  - Patient Assistance Program -- free/low cost psychiatric medications for individuals without prescription benefits
- Decrease in required out-of-county residential services for children
- Participation in the state-wide project facilitated by Association of Community Mental Health Programs (AOCMHP) to standardize mental health documentation (Management Training & Measurement (MTM) project—David Lloyd consulting)
- Successful collaboration with Child Welfare and community partners in ongoing local Treatment Foster Care program

**Challenges:**

- Providing ongoing services in limited building space
- Recruitment of licensed medical practitioners as well as licensed clinical social workers
- Continued increase in number of people seen due to economic conditions
- Continued limited intensive residential community resources for children
- Limited number of staff to provide intensive treatment services for children
- Potential reduction in OHP funding
- Potential reduction in non-Medicaid (OHP) eligible adult and child outpatient services funding
- Anticipated loss of Personal Care Attendant programs (Medical and DD)
- Changes in coding procedures that limit services to be provided by only a licensed Qualified Mental Health Professional, resulting in reduced revenue/encounter data reporting

**Budget Overview:**

The KCMH budget is based on the cost of services we provide the community using prior year and historical data, and the allocations we receive for Oregon Health Plan, non-OHP indigent and Developmental Disabilities individuals to provide those services. We also receive reimbursements from Medicaid, Medicare, client fees and private insurance. About 5% of our revenue is from small grants and contracts. KCMH receives no general fund dollars from Klamath County.

**Significant Changes:**

- Reorganization and streamlining of sub departments to create more seamless flow of providing services. Eliminate 452 Insurance and 455 Crisis.
- When Vandenberg building is completed, it will house all clinical outpatient services.
- In process of implementing CareLogic electronic health record software for clinical records and billing.

**Key Issues:**

The most notable emerging issues are how the program can best meet the needs of the community under the governance and funding stream of a Coordinated Care Organization.

The department is now in a planning process to shift responsibilities to meet mandated changes in care and documentation.

More people are being identified as developmentally or intellectually disabled due to growth in autism spectrum disorders and prenatal use of drugs and alcohol that leads to an increase in neurological issues in children. This trend is expected to continue.

## Klamath County, Oregon 2012-2013 Budget Presentation

The Klamath County budget is composed of three basic units: major program categories, departments/ funds, and in some cases subprogram.

Internal Support Program -These departments/programs provide needed support to all the actual public service programs.

- 101 - General Administration
- 102 - Human Resources & Risk Management
- 103 - County Counsel
- 104 - Finance
- 105 - Information Technology
- 585 - Maintenance
- 000 - Internal Services Fund Non-Departmental
- 151 - External Services

THIS PAGE INTENTIONALLY LEFT BLANK

**Department Mission:**

General Administration serves as a pivotal point of contact for the Board of County Commissioners. Our goal is to provide essential information and quality customer service in a professional manner to community members, departments, administrations, intergovernmental partnerships and other agencies on behalf of the Board.

**Self-Imposed Services:**

General Administration services are not mandated by state law but by the client, the Board of County Commissioners (BOCC). Some of those services are:

- Prepare all weekly agenda items that are presented to the Board of County Commissioners
- Prepare Resolutions and Orders as directed by the Board of County Commissioners
- Press Releases
- Public Meeting notices
- Executive Session notices
- Notify Special Districts, Boards, Committees and Advisory Councils of term dates
- Various County department projects as authorized by the Board of County Commissioners

**Department Overview:**

General Administration consists of 2 full-time employees who report directly to the Board of Commissioners and is responsible for organizing and managing day-to-day operations. Our department provides general information, direction and services to the county organization as a whole; this is accomplished by communicating effectively with employees and community members. This includes, but is not limited to:

- Managing, preparing scheduling and processing of the Board's public meetings and agendas.
- Coordinating the activities of the Board with elected officials, departments and interagency.
- Department payroll and accounts payable
- Public Notices and Records Request
- Provides information and assistance to Special Districts, Boards, Advisories and Committees.
- Maintains reservations and scheduling of the *Community Room* for community members and organizations.
- Processes liquor and gaming licenses.
- Public Notary services.

**Successes and Challenges:**

We continue to focus on promoting the County's core values and leaving positive impressions to change how citizens view government and its employees in these times of economic challenges.

One of our challenges has been communicating with Northern Klamath County and informing them of pertinent information, public notices, agendas & public meetings that may have an impact on their livelihoods.

To solve this, we have made arrangements with several local businesses that have means of advertising by way of classified ads and radio broadcast. Also included in this form of distribution we keep close, open communication with our North County Community Action Team members.

**Budget Overview:**

As an Administrative Services Department our major revenue sources include a subsidy from other departments for administrative services and fees charged for services rendered or products sold.

Major expenditures include personal service costs, materials and services (office supplies and postage), capital outlay (new equipment) and transfers to other departments for cost sharing charges (insurance, technology, and maintenance).

General Administration budget is 2.0 Full-time Equivalent (FTE) and has not changed since last year's Budget.

| Budget Summary |           |
|----------------|-----------|
| Total Budget   | \$203,994 |
| Budget Change  | None      |
| Total Staff    | 2 FTE     |
| Staff Change   | None      |

**Significant Changes:**

No significant changes have arisen from FY 2011/12 going into FY 2012-13.

# Department: Human Resources & Risk Management

FY 2013 Proposed Budget

## **Department Mission:**

We strive to be an effective management consultant and employee advocate with the goal of creating a professional work environment. Our priority is to ensure legal compliance, risk-adverse decision making, and access to efficient cost controlled services for the leadership and operating departments of Klamath County's government.

## **Mandated Services:**

As an internal support department, our focus is on the quality of services, information and resources we provide. Our self-imposed mandate is to provide assistance and guidance to departments in regard to the "alphabet soup" of employment laws; such laws include, but are not limited to, the Americans with Disability Act, Equal Employment Opportunity (EEO), Fair Labor Standards Act, Family Medical Leave Act/Oregon Family Medical Leave Act, Genetic Information Nondiscrimination Act, Health Insurance Portability and Accountability Act, Occupational Safety and Health Act (OSHA), and Title VII of the Civil Rights Act.

## **Self-Imposed Services:**

Additional areas of responsibility for Human Resources and Risk Management are outlined in the Department Overview section below.

## **Department Overview:**

The proposed Human Resources and Risk Management Department consists of six (6) employees that are budgeted at an equivalent of 5.75 full-time employees. The following provides an overview of the services provided by our department.

### **Human Resources**

- Managing the recruitment and selection process
  - Advertising
  - Processing and screening applications
  - Reference checks
  - Pre-employment testing and screenings
    - Criminal background checks
    - Drug screening
    - Fit for duty evaluations
  - New hire processing and orientation
- Administering employee benefits and providing assistance with Leave Policies and Procedures
  - Health, Life and Disability Insurance
  - Employee Assistance Program

## Department: Human Resources & Risk Management

## FY 2013 Proposed Budget

- Retirement program for employees
- Public Employees Retirement System (PERS) – law enforcement only
- Other voluntary benefit programs offered to, and paid by, employees
  - Additional Life and Disability Insurance
  - Vision insurance
  - Dental insurance
  - AFLAC
  - Deferred compensation plans
  - YMCA
- Federal and Oregon Family Medical Leave Acts
- Employee performance evaluation program and associated change of status paperwork
- Processing all terminated employee requests
  
- Other internal support services provided
  - County-wide payroll
  - Maintaining county-wide centralized personnel files
  - Job description maintenance
  - Classification and compensation schedules
  - Reclassifications and reorganizations
  - Budget preparation/analysis of personal services throughout the year
  - Ensuring compliance with established County policies and procedures as well as State, Federal and EEO laws and regulations
  - Management staff and employee training
  - Employee and labor relations
  - Union negotiations with six (6) unions

### **Risk Management**

- Workers Compensation and safety
  - Insurance administration and claims processing
  - Employee training
  - Safety Committee
  - Safety inspections and investigations
  - OHSA compliance
  - Ergonomic assessments
  - Department of Motor Vehicle checks and monitoring
  
- Unemployment claims administration
  - Processing initial claims
  - Representation of County at appeal hearings

## Department: Human Resources & Risk Management

## FY 2013 Proposed Budget

- Insurance management and claims processing for
  - General liability claims
  - Employment related claims
  - County vehicles
  - County properties
- Department questions related to other risk issues not specially listed above
  - Air quality issues
  - Underground storage tanks
  - Contract requirements and recommendations
- Contracting assistance
  - Oversee the solicitation process
  - Insurance requirements
  - Compliance with public contracting laws

Human Resources and Risk Management responsibilities work hand-in-hand. We provide guidance and assistance to departments in an effort to ensure that applicants and employees county-wide receive consistent treatment. This is accomplished through training programs and consulting with our staff and other available resources. Risk Management proposes combining the Contracting Specialist and Risk Manager positions as many of the responsibilities they hold are associated to limiting risk exposure. This in turn should limit future liability to the County and ultimately to the taxpayers.

### **Successes and Challenges:**

#### **Challenges**

There are challenges we continue to work through; most evolve around our limited funding resources. We continue to encounter layoffs, reduction in hours and reorganizations in larger departments to eliminate or reduce some of the middle level management staff county-wide. These reductions create increased workloads, which often affect employee morale. Our department's biggest challenge has been trying to manage the workload with less staff. We have had an increase in our workload due to an increase in complicated workers compensation claims, an Internal Revenue Services (IRS) audit, an audit by our insurance provider that resulted in policy changes, and three complicated Bureau of Labor and Industries (BOLI) claims, just to name a few. This supports the typical analogy that historically when an employer experiences a reduction in funding and staff there is usually an increase in employment related claims.

Another challenge is the ability to provide all of the required trainings related to Risk Management and Human Resources. Several departments have taken advantage of our insurance company's City County Insurance Services on-line training service that was implemented last year and provided at no cost to the county. We continue to find other free or low cost training opportunities.

## Department: Human Resources & Risk Management

## FY 2013 Proposed Budget

### **Successes**

Despite the difficult challenges we worked through this past year, we certainly have made significant progress with our long-term projects and goals. We continue to cross-train staff in the department, and this has effectively covered scheduled vacations and unexpected absences. We continue to work with departments processing changes in their employees' job descriptions and evaluating the need for staffing changes.

We continue to revamp our job descriptions to include the position number, which will correspond to all filled and vacant positions in the Human Resources/Payroll/Finance system. In addition to the position number, we are including the pre-employment screening requirements for the position, so applicants will be aware of the requirements prior to applying. This will also ensure consistency during the current and/or future hiring process.

In September 2011 the revised Human Resources Policies and Procedures Manual was adopted along with the corresponding Employee Handbook and County Code of Conduct. Training was provided to all County supervisors, which included a review of the policy changes, a refresher course on employment law topics and applicable County processes. The Employee Handbooks and newly adopted County Code of Conduct were distributed to all County employees and the signed acknowledgements returned to our department for inclusion in employee personnel files.

### **Budget Overview:**

As an Internal Services Department our revenues are generated through county-wide department contributions. Since all County-wide departments are experiencing reduced revenue it is our responsibility to be fiscally responsible and keep our expenditures down, so we can provide as much carryover funding as possible. We have evaluated our actual expenses and have reduced our staffing over the last two years. Most of our expenditures are simply the cost of doing business; insurance premiums, unemployment costs, workers compensation coverage, and payroll.

### **Financial Presentation:**

The Full-time Equivalent (FTE) employees in the Human Resources and Risk Management Department have changed over the last couple of fiscal years. Some of the changes are as follows:

**Fiscal Year 2008-2009** A complete reorganization of the department occurred resulting in the upgrade of one position, the downgrading of two positions and an FTE reduction in one of the downgraded positions. Our FTE expenditure was 4.75.

**Fiscal Year 2009-2010** On June 1, 2009 the payroll functions were added to the Human Resources Department, which included the transfer of the Payroll Manager and the associated expenses to our department. In fiscal year 2009-2010 the Payroll Manager and associated expenses were budgeted in the Finance Department and those funds were not transferred to the

## Department: Human Resources & Risk Management

## FY 2013 Proposed Budget

Human Resources Department. Our budgeted FTE was 4.75; however, our FTE expenditure was 5.75.

**Fiscal Year 2010-2011** The Risk Manager position was eliminated and it created an additional savings to the departmental budget. Our budgeted FTE was 4.75, even with the addition of the Payroll Manager position.

**Fiscal Year 2011-2012** The Department's budgeted FTE continued to be 4.75; however, with the increasing claims, audits and new policies to be implemented it necessitated rehiring the Risk Manager on a temporary part-time basis.

### **Significant Changes:**

In this fiscal year we are maintaining a status quo. Departments will not see an increase in contributions to Human Resources. Unlike Human Resources there were significant changes made with regard to Risk Management. Several changes were made to Risk Management, which include the expense allocation method to fund the department, transferring the contracting responsibilities from County Counsel and creating a new full-time Contracting and Risk Manager position in addition to reducing the 2013 requested budget by \$284,013. Even though our requested budget is \$284,013 less than the 2012 budget, the Budget Committee and public will hear from the majority of the departments that the Risk Management charges have increased causing a profound impact on their budget this year.

In the past, the transfers to Risk Management were not appropriately segregated or equitably appropriated. The new allocation method established will move toward a direct charge of the insurance cost based on the departments' insured risks. In the same manner, we are allocating a lower cost using the same percentage to cover self-insured claims or claims not covered by one of our insurance policies. A percentage allocation method was also developed in regard to unemployment claims and workers' compensation premium costs, 2.3% is the starting point for both. The 2.3% is calculated off of the base wages that are budgeted in each department, so this expense will vary by department. Over the next couple of years we will continue to fine-tune our budget and the allocation methods described above in order to equitably represent all of the departments' usage of the fund.

### **Key issues:**

The main concern in regard to Human Resources and Risk Management would be the insurance and funding for our incurred and future liabilities. Both our Workers' Compensation and General Liability Insurance plans are retro-liability plans, which is a form of partial self-insurance. Budgeting and planning for the incurred liabilities is difficult, as there are several unknown factors with regard to the costs associated with the claim and when the actual expenses will be incurred. Claims that were filed over a three to five year timeframe could all be resolved in the same fiscal year, thereby creating a large insurance payment adjustment. It is imperative

Department: Human Resources  
& Risk Management

FY 2013 Proposed Budget

that we establish reserve funds for our known pending liabilities, so when the claim is resolved we will have adequate funding to cover the County's additional costs.

Below is a summary of our claims.

**Unemployment Claims – Reimbursing Employer**

| <b>Fiscal Year</b> | <b>Number of Claims</b> | <b>Total Cost</b> |
|--------------------|-------------------------|-------------------|
| 2008-2009          | 65                      | \$213,019         |
| 2009-2010          | 81                      | \$222,907         |
| 2010-2011          | 108                     | \$346,963         |
| 2011-2012*         | 78                      | \$176,420         |

\*As of 4<sup>th</sup> Quarter 2011

During Fiscal Years 2009-10 and 2010-11, there was a significant increase in unemployment claims. In 2008-09 we began to feel the effects of the extended benefits that were granted and continue into subsequent years. In addition to the extended benefits the County did have several layoffs beginning in Fiscal Year 2009-10. At the same time there were employees who had voluntarily left employment with the County and due to the economy were subsequently laid off from their new employer. Unfortunately, due to the unemployment benefits being calculated over a five quarter period, the County was still liable for a portion of the employees' unemployment benefits. In addition to the above, beginning in Fiscal Year 2009-10 several departments had a reduction in force, causing a significant increased cost in unemployment claims.

**Workers' Compensation**

| <b>Fiscal Year</b> | <b>Number of Claims</b> | <b>Premium</b> | <b>Paid Losses</b> | <b>Non-Dis. Claims</b> | <b>Total</b> |
|--------------------|-------------------------|----------------|--------------------|------------------------|--------------|
| 2008-2009          | 34                      | \$ 569,899     | \$ 47,961          | \$ 20,478              | \$ 638,338   |
| 2009-2010          | 32                      | \$ 484,293     | \$ 202,071         | \$ 13,709              | \$ 700,073   |
| 2010-2011          | 37                      | \$ 367,652     | \$ 133,132         | \$ 16,923              | \$ 517,707   |
| 2011-2012          | 23                      | \$ 334,135     | \$ 138,599         | \$ 1,352               | \$ 474,086   |

As mentioned above, the Risk Manager position has not been budgeted for two (2) fiscal years and we redistributed that position's job duties. We continue to work closely with SAIF, our insurer, and department heads to evaluate providing modified job duties in order to reduce the amount of time an injured employee is out of the office. This significantly reduces the cost of the claim, as the employee does not receive time loss payments and we can request partial reimbursement of the injured employee's wages.

In the past we have pursued training including mandatory annual trainings such as Blood Borne Pathogen, Safe Driver and Health Insurance Portability Accountability Act (HIPAA). In addition to the mandatory trainings we have gathered input from the Safety Committee members

## Department: Human Resources & Risk Management

## FY 2013 Proposed Budget

on the types of training they feel will educate staff about how to prevent common injuries specific to their job duties. In March we implemented an Executive Risk Management Team. This Team currently consists of one Commissioner, the Director of Human Resources and Risk Management, the Safety Committee Chairperson and four Department Heads. The Team's goal is to review recommendations provided by the Safety Committee, review accidents and liability claims, discuss County risk factors and make recommendations to Department Heads and employees on implementing procedures or attending trainings that will reduce the County's risk exposures. One of the recommendations from this Team was to find a way to fund a Risk Manager position. An opportunity presented itself to combine the Risk Manager and Contracting Specialist position, when the Contracting Specialist submitted her resignation effective June 30, 2012. The goal is to have a proactive risk management program that will actively involve the Contracting and Risk Manager, Executive Risk Management Team, Safety Committee, Department Heads and employees all working toward reducing our liability exposures.

### General Liability

| <b>Fiscal Year</b> | <b>Total Claims</b> | <b>Open Claims</b> | <b>Closed Claims</b> | <b>Claims Cost</b> | <b>Total Reserves</b> | <b>Total Incurred</b> |
|--------------------|---------------------|--------------------|----------------------|--------------------|-----------------------|-----------------------|
| 2008-2009          | 17                  | 2                  | 15                   | \$ 216,470         | \$ 108,327            | \$ 324,797            |
| 2009-2010          | 16                  | 2                  | 14                   | \$ 28,230          | \$ 6,545              | \$ 34,775             |
| 2010-2011          | 38                  | 16                 | 22                   | \$ 93,598          | \$ 133,947            | \$ 227,545            |
| 2011-2012          | 7                   | 2                  | 5                    | \$ 5,493           | \$ 30,000             | \$ 35,493             |

General liability claims are more difficult to manage. General liability claims cover a wide range of claims ranging from vehicle accidents to a non-employee filing a lawsuit against the County. Over the last few years we have averaged about 20 claims per year.

### Liability Claims – Self-insured

| <b>Fiscal Year</b> | <b>Number of Claims</b> | <b>County Paid CIS Retro-Liability</b> | <b>County Uninsured</b> | <b>Total</b> |
|--------------------|-------------------------|----------------------------------------|-------------------------|--------------|
| 2008-2009          | 22                      | \$ 102,596                             | \$ 88,277               | \$ 190,873   |
| 2009-2010          | 10                      | \$ 40,832                              | \$ 12,916               | \$ 53,748    |
| 2010-2011          | 14                      | \$ 29,842                              | \$ 204,943              | \$ 234,785   |
| 2011-2012*         | 2                       | \$ 0                                   | \$ 88,026               | \$ 88,785    |

\* As of March 2012

As mentioned above, our General liability insurance plan is a retro-liability plan, which is a form of partial self-insurance. Some of our claims are either not covered by our insurance policy or the amount of the claims does not exceed our deductible. Those costs are directly paid by the County; most often through the Risk Management budget.

Again, our philosophy is that through training and educating our staff we should see a reduction in the number of claims we receive. If we educate staff at all levels about laws, county policies,

Department: Human Resources  
& Risk Management

FY 2013 Proposed Budget

and provide special training associated with their specific job, one would anticipate that it would result in either a decrease in claims or at a minimum it will reduce the cost of the claim, as we will be able to document that our employees are properly trained and follow applicable laws and policies.

**Department Mission:**

The mission of the Klamath County Counsel's office is to provide Klamath County with the best legal support possible to achieve Klamath County's goals and objectives and to preserve and protect Klamath County resources.

**Mandated Services:**

County Counsel services are not mandated by state law but by the client, the Board of County Commissioners (BOCC). Some of those services are:

- Advise BOCC on a legal matters; attend Public Hearings;
- Review all weekly agenda items that are presented to the BOCC (blue sheets - 224 as of 3/21/2012);
- Review all county contracts, agreements and orders (212 as of 3/21/2012);
- Prepare Resolutions and Ordinances as directed by the BOCC;
- Special District annexations, formations, withdrawals;
- Prepare Ballot Titles as directed by the BOCC;
- Attend Executive Sessions and prepare notices;
- Various County department projects as authorized by the BOCC;
- Requests for legal advice from various County departments;
- Represent County at Klamath Basin Restoration Agreement (KBRA) meetings;
- Coordinate with outside Counsel on all litigation;
- Current court/case load: Federal – 2; State – 3; Land Use Board of Appeals (LUBA) – 3; Torts – 19; State Appeals - 1.

Contract Specialist – The Contract Specialist position was moved within the County Counsel department last fiscal year as a half time position. The BOCC has decided to combine the part time Contract Specialist position and the part time Risk Management position to create one full time position to be located within Human Resources/Risk Management department.

**Department Overview:**

County Counsel's office consists of one attorney and one paralegal. Although the client is actually "Klamath County" as represented by the Board of County Commissioners, our office strives to provide the best legal advice not only to the Board, but each County department on a wide variety of issues thereby limiting the possibility of litigation and the costs associated with it.

**Successes and Challenges:**

There has been an increase in litigation matters. As our office is limited to one counsel, it has become increasingly necessary to refer some matters to outside counsel. This causes increased costs as outside attorney fees range from \$200/hour up to \$400/hour vs. in-house counsel which, including benefits, costs the County \$65/hour. As a practical matter, the overload of legal issues means we have been too often reactive on our legal advice, rather than proactive. Budget

constraints do not allow for additional Assistant Counsel, and the major challenge next year will be efficiently prioritizing appropriate legal matters and, unfortunately, declining to provide service on others.

**Budget Overview:**

County Counsel's office is completely funded through administrative costs and does not receive outside revenue.

These are not mandated services; but by having in-house counsel, it not only provides the County with a significant cost savings, it also provides:

- Ease of accessibility
- Client knowledge
- Working relationships with the Board and Departments
- Fees versus incentive to solve problems efficiently
- Credibility issues (perception).

**Significant Changes:**

**Personal Services:**

|                  |           |
|------------------|-----------|
| Current Budget   | \$223,755 |
| Requested Budget | \$213,740 |

Decrease is due to removing the Contract Specialist position for fiscal year of 2012-2013 within Human Resources/Risk Management Department.

**Materials and Services:**

|                  |           |
|------------------|-----------|
| Current Budget   | \$73,510  |
| Requested Budget | \$61,484* |

\*Reduction also reflects removal of Contract Specialist position within our department but an increase in certain fees, such as risk management and insurance liability.

**Interfund Transfers:**

|                  |          |
|------------------|----------|
| Current Budget   | \$ 2,931 |
| Requested Budget | \$ 2,250 |

Decrease due to administrative costs for removing Contract Specialist position.

**Key issues:**

Long-term challenges are an extension of next year's short-term challenges. Klamath County's legal demands are growing, and there is no capacity for expansion. Costs for outside counsel on limited matters can be efficient, especially when an area of expertise is required. But for general matters, paying hourly rates to private attorneys is far more costly than in-house advice. A long-term strategy to provide comprehensive services will necessarily involve the creation of Assistant County Counsel positions.

**Department Mission:**

Our mission is to optimize Klamath County's financial resources through efficiency and accountability in the administration of policies established by the Board of Commissioners.

**Mandated Services:**

- Budget Law Compliance ORS 294.305 to 294.565
- Property Tax Compliance ORS 310.055 to 310.110
- Conduct audits of county's fiscal affairs, circuit courts, justice courts, officers and employees of circuit and justice courts, all elected or appointed county official, and the cost account for the county road work. ORS 297.425, 297.515 and 297.525.
- Management of a county school fund. ORS 328.005 and 328.015.
- Duties of the county accountant ORS Chapter 210, 287A.484, 287A.486, 311.390(1)(c), 416.320, 452.160.

**Self-Imposed Services:**

- The Finance Department manages the accounting system and financial records of the county, reports on the county's fiscal affairs, and provides advice and assistance to operating departments on financial administration matters. The Department, under contract, provides accounting and budgeting related services to Klamath County Library Service District, Klamath County Drainage Service District and other entities.
- The Finance Department operates a county store for the purpose of maximizing discounts and benefits of bulk purchasing.
- The Finance Department operates a courier service for distributing written communications to county departments and transporting items from one department to another.
- The department also assists with other financial reporting, (e.g., grant reporting, payroll and vendor information reports to other government entities).

**Department Overview:**

The County Accountant is appointed as the Budget Officer for the county. This position is responsible for preparing the county's annual budget and working with the departments on budget issues that come up throughout the year.

The Finance Department supports other county departments. This includes such functions as managing the accounting system and financial records of the county, paying the county's bills, working with vendors to maintain vendor files and accurate payment history. The Finance Department provides monthly revenue/expenditure reports, quarterly payroll reports and other financial reporting as requested. Furthermore, this department is responsible for working with

the county's outside auditor, and assists in coordinating the county's annual audit and preparation of financial documents related to the audit.

### **Budget Overview:**

The Finance and Budget Department completed its reorganization during the 2011-2012 fiscal year. This budget presents the full implementation of this reorganization.

Major revenue sources include a subsidy from other departments for administrative services and fees charged for services rendered or products sold.

Major expenditures include personal service costs, materials and services (office supplies and postage), and transfers to other departments for cost sharing charges (insurance, technology, and maintenance).

### **Significant Changes:**

The current budget contemplates the employment of a Financial Systems Administrator to administer the accounting system for the department. This position was transferred from Information Technology to Finance with the adoption of Klamath County Ordinance 85 establishing the position of county accountant and designating the Chief Financial Officer as that position. Oregon Revised Statute 210.220 designates the county accountant as the keeper of the financial reporting system for the county. These changes in staffing levels have increased the personal services budget from \$325,480 in 2011-2012 to \$380,942 in 2012-2013.

### **Key issues:**

In 2009-2010 the county implemented a new accounting system which combined two previous systems into one. As part of that implementation there are components to the system that will be added and upgrades to the servers over the course of the next couple of years. This will require reserves to be established and implemented so money is set aside to fund these improvements. With the hiring of the Financial Systems Administrator position the implementation process is expected to accelerate over the next fiscal year.

**Department Mission:**

Klamath County Information Technology delivers business services that empower, support and serve all county departments in the accomplishment of their respective missions. We provide support for the planning, design, implementation and operation of cost-effective information technologies and methodologies.

**Mandated Services:**

While not directly providing mandated services the IT department provides critical support to the mandates of other departments:

- Assessment and Taxation
- Clerk and Elections
- Records Archival
- Financial Reporting

**Self-Imposed Services:**

While “self-imposed” many of our services are critical to other departments:

- Business Continuity and Disaster Recovery
- Telephone Services
- Computer Networking and Support
- Financial Reporting
- Business Process Automation

**Department Overview:**

Klamath County Information Technology provides personnel and operating costs associated with the County’s computer equipment, telephone systems, geographic information systems, and related information systems which generally benefit all departments.

As an in-house provider of services otherwise purchased from external vendors, we provide services at a substantially reduced cost for our customers (often as much as 85% savings). These savings are the result of strategic technology investments, economies of scale, and low personnel costs. For example, by assuming responsibility for the telephone systems IT has saved county departments over 75% on maintenance. Our current phone replacement project will increase these savings by reducing monthly telephone costs by 50%. These savings are realized in the budgets of our customers.

**Successes and Challenges:**

- Maintenance agreements
  - Most services are purchased on 24 to 36 month contracts
  - While generally this provides savings, at times of declining staffing levels we can end up paying for support we are not using.
- Telephone System replacement
  - We are just completing the transition to the new telephone system
  - This system provides between 30% and 70% savings for departments
  - Improved functionality and availability
- Financial Systems
  - We are in the process of transferring day-to-day operations back to the Finance Department.
- Storage Network Overhaul
  - Improved reliability, capacity and performance for all departments
- Strategic Resource Allocation
  - “Cloud-based” and virtual technologies
  - Substantial cost savings and greater flexibility
  - Desktop standardization

**Budget Overview:**

We are funded through Internal Services charges to County Departments, the Library Service District, other agencies, grants and some direct revenue from and assessment data. As such, our revenue is derived from multiple taxing districts and state funds as well as the General Fund. Even with the diversity of our revenue base, all of our customers are under financial pressure.

Costs are almost exclusively in the realm of personnel and maintenance for county-wide systems, the latter accounting for most of our cost increases. Perhaps counter-intuitively, our workload is highest when our customers' budgets are the tightest. It is during these times that our customers need the operational efficiencies that can be realized through appropriate investment in technology. By reinventing their business processes and gaining the benefits of increased automation and self-service, they in turn, are able to do more with less.

Since 2007, the Information Technology department has gradually added to its core responsibilities. While adding these new responsibilities and improving service levels, this department took a 14% cut in 2008-2009 and has maintained that budget since.

**Significant Changes:**

The only significant change from our current budget and our requested budget are the increased cost of maintenance agreements of approx. 15% and a reduction in our training and capital expense line items.

**Elimination of Project Manager Position** – With our focus cloud computing and hosted solutions, it was no longer necessary to retain a Project Manager.

**Separation of GIS functions**– In order to enhance transparency, enhance interdepartmental cooperation, and provide a more accurate view of IT investment, the GIS function was moved to a separate division.

**Department Specific costs moved from IT**–IT has historically directly paid service contracts that impact only one or two departments. In an effort to improve transparency these costs will now be paid by the department incurring those costs.

**Library and Mental Health support staff moved to IT**–Taking another step toward consolidating IT resources throughout the organization, IT has absorbed technical staff from both Mental Health and the Library Service District. These departments now support these positions through Internal Services charges rather than paying staff directly.

**Cable and internet video production added**–IT has absorbed the administration of the cablecast and internet video. General Fund continues to pay for the operational costs, with IT funding administrative functions.

**Key issues:**

All of our projects are investments that pay dividends to other departments in the county and allow them the opportunity to do more with less. Some of our larger, multi-year projects include:

- Financial system replacement (currently in year 3 of a 5+ year project)
  - Consolidating multiple disparate financial systems into a single cohesive one.
  - Allows for greater transparency and efficiencies across the board.
  - Transferring day-to-day responsibility back to the Finance Department
- Cloud-Based backup
  - Substantially improved reliability
  - Data is housed in a different geographic region
  - Pay only for what we use
- Telephone System replacement
  - Actual savings of over 50% county-wide
  - Feature-rich service
  - County-wide standard
- Assessment and Taxation system replacement
  - 16 year old system
  - Non-standard data architecture

- \$80,000+ in annual support costs
- Mental Health System replacement
  - Hosted cloud solution
- Move to Amazon Web Services
  - Server cost of less 3 cents per hour
  - Over 75% savings with better reliability
- Storage Network Overhaul
  - Improved reliability and performance
  - Critical systems in County Datacenter
  - Used in concert with cloud-based backups
- Community Corrections Mobile Computing
  - Low cost mobile solutions for Parole Officers
- Standardization and Virtualization
  - Cost savings by using standard systems and virtual servers

THIS PAGE INTENTIONALLY LEFT BLANK

**Department Mission:**

The maintenance department strives to fulfill our responsibilities as efficiently and effectively as possible in a timely and courteous manner.

**Mandated Services:**

The maintenance department is required by the State, Federal, and local governments to maintain all life and safety inspections and permits such as: Boilers, hot water heaters, pressure vessels, fire alarms, fire sprinklers, geothermal wells, backflow devices, elevator maintenance and testing, hazardous material storage, bulb and ballast hazardous waste disposal, refrigerant disposal, and snow removal from sidewalks.

“Self imposed” services performed by the maintenance department include but are not limited to: Janitorial services, heating/air conditioning, landscaping, moving, building various items, plowing snow in the driveways, parking lots and the bike path, helping to maintain various buildings that are not under the space rent program

**Department Overview:**

The maintenance department is responsible for keeping all buildings and County owned property that are part of the space rent program (in excess of 300,000 square feet) well maintained for the general public and County employees. The department also pays all of the utility costs for those buildings in the space rent program.

**Successes and Challenges:**
